CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY
Fourth Semester of B. Pharm. Examination
University Theory Examination May 2017
PH211 Pharmaceutical Analysis-II

Date: 12.05.2017, Friday **Time: 01.30 p.m to 04.30 p.m** **Maximum Marks: 80**

Instructions:
1. **Figures to right indicate marks.**
2. **Section wise separate answer book to be used.**
3. **Draw neat sketches wherever necessary.**

SECTION- I

Q 1	Attempt any **TWO** of the following	
A	a. Compare instrumental methods of analysis with conventional methods.	**05**
	b. What is signal and noise for an instrument?	**02**
	c. Define and classify chromatography.	**03**
B	What is Kohlrausch law? Write about factors affecting conductance.	**10**
C	a. Write in detail about design and features of glass electrode.	**05**
	b. Write in detail about dropping mercury electrode.	**05**
Q 2	Attempt any **TWO** of the following	
A	Write about principle of Amperometry. Write a note on apmperometric titrations.	**10**
B	What is standard reduction potential? How it can be measured? Write about applications of potentiometric titration.	**10**
C	Explain different types of current involved in polarographic measurement. Describe different types of polarographic methods.	**10**

SECTION- II

Q 3	Attempt any **TWO** of the following	
A	(a) Explain principle of column chromatography.	**03**
	(b) Give name of adsorbents used in column chromatography. What are the criteria for selection of adsorbents in column chromatography.	**03**
	(c) Narrate the column packing methods.	**04**

[P.T.O.]

B	(a) Describe various types of development techniques for Paper Chromatography.	**06**
	(b) What the applications of Paper Chromatography.	**04**
C	(a) What are the steps involved in TLC technique. What is Rf value? Enlist applications of TLC	**05**
	(b) Discuss methods for visualization of spots in TLC.	**05**
Q 4	Attempt any **TWO** of the following	
A	Discuss instrumentation and applications of thermogravimetric analysis.	**10**
B	Define specific optical rotation. Draw a sketch of components of polarimeter. Write about applications of polarimetry.	**10**
C	Discuss various types of Conductometric titrations.	**10**
