CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY
7th Semester of B.Pharm. Examination
University Theory Examination April/May 2016
PH406 Pharmaceutical Technology - I

Date: 13.04.2016, Wednesday Time: 1:30p.m. to 4:30p.m. Maximum Marks: 80

Instructions:
1. **Figures to right indicate marks.**
2. **Section wise separate answer book to be used.**
3. **Draw neat sketches wherever necessary.**

SECTION- I

Q 1	**Attempt any TWO of the following**	
A	Give the objectives and types of tablet coating. Discuss any one type in details.	**10**
B	a. Discuss methods of granulation considering tablet dosage form. (5) b. Discuss the problems encountered in tablet preparation. (5)	**10**
C	a. Describe the types of tablets.(5) b. Discuss climate control during capsule manufacturing. (5)	**10**
Q 2	**Attempt any TWO of the following**	
A	a. Represent the method of soft gelatin capsule preparation diagrammatically. (7) b. Enlist the size of capsules with the volumes that can be filled into it. (3)	**10**
B	a. Discuss the quality control parameters of hard gelatin capsule. (5) b. Write in brief about the formulation of effervescent granules. (5)	**10**
C	a. Discuss climate control during capsule manufacturing. (5) b. Write a note on schedule M with respect to manufacturing of Pharmaceuticals. (5)	**10**

SECTION- II

Q 3	**Attempt any TWO of the following**	
A	Enlist methods of microencapsulation. Explain any one method in detail.	**10**
B	a. Give various types of containers with their characteristics features. (5) b. Explain in brief about Pilfer proof caps. (5)	**10**
C	a. Explain the importance of labeling in pharmaceutical products with examples. (6) b. Give the advantages and disadvantages of glass as a material of container for packaging. (4)	**10**
Q 4	**Attempt any TWO of the following**	
A	a. Classify semisolid dosage forms. (5) b. Write in detail about packaging of semisolid products. (5)	**10**
B	Explain the ideal requirements and evaluation tests for clear gel – formulation.	**10**
C	a. Differentiate Paste and Cream. (5) b. Explain in brief about the evaluation for micro encapsulation. (5)	**10**
