

Lab Assignment || BCA || SEM II || CA130 : Database Fundamentals

Getting familiar with basic SQL Syntax (DDL, DML Statements)

1. Create following table which has following structure:

a. TABLE NAME: EMP

Field Name	Data Type	Null
EMPNO	NUMBER(4) PK	
ENAME	VARCHAR2(20)	
JOB	VARCHAR2(20)	
MGR	NUMBER(4)	YES
HIREDATE	DATE	
SAL	NUMBER(7,2)	
COMM	NUMBER(7,2)	YES
DEPTNO	NUMBER(2) FK	

TABLE NAME : DEPT

Field Name	Data Type	Null
DEPTNO PK	NUMBER(2)	
DNAME	VARCHAR2(20)	
LOC	VARCHAR2(20)	

b. TABLE NAME : SALGRADE

Field Name	Data Type	Null
GRADE	NUMBER(2)	
LOSAL	NUMBER (4)	
HISAL	NUMBER (4)	

2. Insert following records in respective tables.

Table Name: EMP

EMPNO	ENAME	JOB	MGR	HIREDATE	SAL	COMM	DEPTNO
7369	SMITH	CLERK	7902	17-DEC-80	800		20
7499	ALLEN	SALESMAN	7698	20-FEB-81	1600	300	30
7521	WARD	SALESMAN	7698	22-FEB-81	1250	500	30
7566	JONES	MANAGER	7839	02-APR-81	2975		20
7654	MARTIN	SALESMAN	7698	28-SEP-81	1250	1400	30
7698	BLAKE	MANAGER	7839	01-MAY-81	2850		30
7782	CLARK	MANAGER	7839	09-JUN-81	2450		10
7788	SCOTT	ANALYST	7566	09-DEC-81	3000		20
7839	KING	PRESIDENT		17-NOV-81	5000		10
7844	TURNER	SALESMAN	7698	08-SEP-81	1500	0	30
7876	ADAMS	CLERK	7788	12-JAN-83	1100		20
7900	JAMES	CLERK	7698	03-DEC-81	950		30
7802	FORD	ANALYST	7566	03-DEC-81	3000		20
7934	MILLER	CLERK	7782	23-JAN-82	1300		10

Lab Assignment || BCA || SEM II || CA130 : Database Fundamentals

Table Name: DEPT

DEPTNO	DNAME	LOC
10	ACCOUNTING	NEW YORK
20	RESEARCH	DALLA
30	SALES	CHICAGO
40	OPERATIONS	BOSTON

Table Name: SALGRADE

GRADE	HISAL	LOSAL
1	700	1200
2	1201	1400
3	1401	2000
4	2001	3000
5	3001	9999

3. Solve the following queries.

1.	Find out the name of all employees.
2.	Display all information of employee.
3.	Display all information of employee whose job type is "SALESMAN".
4.	Display all information of employee whose Dept No is 20.
5.	Display employee information whose hire date is in month of DEC.
6.	Display employee information whose salary is greater than 3000.
7.	Find the names of all employees having 'A' as the second letter in their names.
8.	Display department information.
9.	Display Salary Grade Information.
10.	Display Name, Job of employee whose manager name is "BLAKE".
11.	Display Name, Salary of employee whose commission is null.
12.	Display Name, Salary, Hiredate of employee whose Hiredate is in the year of 81.
13.	Update salary by 5% whose department no is 10.
14.	Update commission comm=sal*5% whose job type is "MANAGER".
15.	Display employee name whose name start with 'A'.
16.	Display employee details that have maximum salary.
17.	Display employee details that have minimum salary.
18.	Display average salary department wise.
19.	Display employee details whose salary is between 1000 to 2000.
20.	Display employee information department wise.

Lab Assignment || BCA || SEM II || CA130 : Database Fundamentals

21.	Display your name in upper, lower and title case.
22.	Display all Employee names and their length after trimming them
23.	Extract first 3 characters from your name and display the same.
24.	Extract last 4 characters from your name and display the same.
25.	Extract only 3 to 7 characters of your full name.
26.	Find out the absolute values of the following: -20, 30, 25, -400, -13, -11, 34, -99.
27.	Update the employee table so each employee name will contain XXXXX at the end of the same.
28.	Now display the same such that they won't display XXXXX at the end of each name.
29.	Round the following numbers by 5, 2, 1, 3, 4 decimal places: 4.091978, 232.837733, 822.2325443.

Getting familiar with basic SQL Syntax (DDL, DML Statements)

2. Create following table which has following structure:

a. TABLE NAME: CLIENT_MASTER

Field Name	Data Type	Constraint
CLIENT_NO	VARCHAR2(6)	Primary Key /First letter must Start with 'C'.
NAME	VARCHAR2(20)	Not null
ADDRESS1	VARCHAR2(30)	
ADDRESS2	VARCHAR2 (30)	
CITY	VARCHAR2(15)	
STATE	VARCHAR2 (15)	
PINCODE	NUMBER(6)	
BAL_DUE	NUMBER(10,2)	

a. TABLE NAME : PRODUCT_MASTER

Field Name	Data Type	Constraint
PRODUCT_NO	varchar2(6)	Primary key Must start with P
DESCRIPTION	VARCHAR2(14)	NOT NULL
PROFIT_PERCENT	NUMBER(4,2)	NOT NULL
UNIT_MEASURE	VARCHAR2(10)	NOT NULL
QTY_ON_HAND	NUMBER(8)	NOT NULL
REORDER_LVL	NUMBER(8)	NOT NULL
SELL_PRICE	NUMBER(8,2)	NOT NULL, Cannot be 0
COST_PRICE	NUMBER(8,2)	NOT NULL, Cannot be 0

Lab Assignment || BCA || SEM II || CA130 : Database Fundamentals

a. TABLE NAME : SALESMAN_MASTER

Field Name	Data Type	Null
SALESMAN_NO	VARCHAR2(6)	Primary Key / first letter must start With 'S'
SALESMAN_NAME	VARCHAR2(20)	NOT NULL
ADDRESS1	VARCHAR2(30)	NOT NULL
ADDRESS2	VARCHAR2(30)	
CITY	VARCHAR2(20)	
PINCODE	VARCHAR2(6)	
STATE	VARCHAR2(20)	
SAL_AMT	NUMBER(8,2)	Not Null,cannot be 0
TGT_TO_GET	NUMBER(6,2)	Not Null,cannot be 0
YTD_SALES	NUMBER(6,2)	NOT NULL
REMARKS	VARCHAR2(60)	

Table Name :sales_order

Field Name	Data Type	Null
S_ORDER_NO	VARCHAR2(6)	Primary Key / first letter must start With 'O'
S_ORDER_DATE	DATE	
CLIENT_NO	VARCHAR2(6)	Foreign Key references client_no Of client_master table
DELY_ADDR	VARCHAR2(25)	
SALESMAN_NO	VARCHAR2(6)	Foreign Key references salesman_no Of salesman_master table.
DELY_TYPE	CHAR(1)	delivery : part(P)/full(F),Default 'F'
BILLED_YN	CHAR(1)	
DELY_DATE	DATE	cannot be less than s_order_date
ORDER_STATUS	VARCHAR2(10)	values ('In Process','Fulfilled','BackOrder','Canceled')

Perform Following Changes on Product_Master table

- 1) Change Datatype of Product_no field from number(2) to varchar2(6).
- 2) Assign primary key to product_no field
- 3) Add Constraint to product_no field (Must start with P)

Lab Assignment || BCA || SEM II || CA130 : Database Fundamentals

Table Name : sales_order_details

Field Name	Data Type	Null
S_ORDER_NO	VARCHAR2(6)	Foreign Key references S_order_no of sales_order table.
PRODUCT_NO	VARCHAR2(6)	Foreign Key references Product_no of product_master table.
QTY_ORDERED	NUMBER(8)	
QTY_DISP	NUMBER(8)	
PRODUCT_RATE	NUMBER(10,2)	

Table Name : challan_header

Field Name	Data Type	Null
CHALLAN_NO	VARCHAR2(6)	Primary Key / first two letters must Start with 'CH'.
S_ORDER_NO	VARCHAR2(6)	Foreign Key references s_order_no of Sales_order table.
CHALLAN_DATE	DATE	NOT NULL
BILLED_YN	CHAR(1)	values('Y','N'), Default 'N'.

Table Name : Challan_Details

Field Name	Data Type	Null
CHALLAN_NO	VARCHAR2(6)	Foreign Key references Challan_no of challan_header table.
PRODUCT_NO	VARCHAR2(6)	Foreign Key references Product_no of product_master table.
QTY_DISP	NUMBER(4,2)	NOT NULL

1. . Insert following records in respective tables.

Table Name: CLIENT_MASTER

CLIENT NO.	CLIENT NAME	CITY	PINCODE	STATE	BAL_DUE
C00001	Ivan Bayross	Bombay	400054	Maharashtra	15000
C00002	Vandana Saitwal	Madras	780001	Tamil Nadu	0
C00003	Pramada Jaguste	Bombay	400057	Maharashtra	5000
C00004	Basu Navindgi	Bombay	400056	Maharashtra	0
C00005	Ravi Shreedharan	Delhi	100001		2000
C00006	Rukmini	Bombay	400050	Maharashtra	0

Lab Assignment || BCA || SEM II || CA130 : Database Fundamentals

Table Name: PRODUCT_MASTER

PRODUCT no	DESCRIPTION	PROFIT_PERCENT	UNIT_MEAS U	QTY_ON HAND	REORDER_LVL	SELL_PRICE	COST_PRICE
P00001	1.44 Floppies	5	Piece	100	20	525	500

QUERIES

Single Table Retrieval :

1.	Find out the names of all the clients.
2.	Print the entire client_master table.
3.	Retrieve the list of names and the cities of all the clients.
4.	List the various products available from the product_master table.
5.	Find the names of all clients having 'a' as the second letter in their names.
6.	Find out the clients who stay in a city whose second letter is 'a'.

Lab Assignment || BCA || SEM II || CA130 : Database Fundamentals

7.	Find the list of all clients who stay in city 'Bombay' or city 'Delhi' or city 'Madras'.
8.	List all the clients who are located in Bombay.
9.	Print the list of clients whose bal_due are greater than value 10000.
10.	Print the information from sales_order table of orders placed in the month of January
11.	Display the order information for client_no 'C00001' and 'C00002'.
12.	Find the products with description as '1.44 Drive' and '1.22 Drive.'
13.	Find the products whose selling price is greater than 2000 and less than or equal to 5000.
14.	Find the products whose selling price is more than 1500 and also find the new selling price as original selling price*15.
15.	Rename the new column in the above query as new_price.
16.	Find the products whose cost_price is less than 1500.
17.	List the products in sorted order of their description.
18.	Calculate the square root of the price of each product.
19.	Divide the cost of product '540 HDD' by difference between its price and 100.
20.	List the names, city and state of clients not in the state of 'Maharashtra'.
21.	List the product_no, description, sell_price of products whose description begin with letter 'M'.
22.	List all the orders that were cancelled in the month of March.
23.	Display all the Client names in Capitals and State in Lowercase.
24.	Price must be displayed in 8,2 format. Put '*' before the amount. e.g. ***23.90.
25.	Display Description and Qty_on_hand for each product.
26.	Display sales transactions (qty_ordered and qty_disp) from Sales_order_details.

Set Functions and Concatenation:

27.	Count the total number of orders.
28.	Calculate the average price of all the products.
29.	Calculate the minimum price of products.

Lab Assignment || BCA || SEM II || CA130 : Database Fundamentals

30.	Determine the maximum and minimum product prices. Rename the title as max_price and min_price respectively.
31.	Count the number of products having price greater than or equal to 1500.
32.	Find all the products whose qty_on_hand is less than reorder level.
33.	Print the information of client_master,product_master,sales_order table in the following format for all the records :- {cust_name} has placed order {order_no} on {s_order_date}

Having and Group By:

34.	Print the description and total qty sold for each product.
35.	Find the value of each product sold.
36.	Calculate the average qty sold for each client that has a maximum order value of 15000.00
37.	Find out the total sales amount receivable for the month of jan.It will be the sum total of all the billed orders for the month.
38.	Print the information of product_master,order_detail table in the following format for all the records :- {description} worth Rs. {total sales for the product} was sold.
39.	Print the information of product_master,order_detail table in the following format for all the records :- {description} worth Rs. {total sales for the product} was ordered in the month of {s_order_date in month format}
40.	Find out the total Qty_Dispatch and Qty_ordered of each item from Sales_order_Details.
41.	Find out the no. of sales transactions of each day from Sales_order_details.
42.	Compute average, minimum and maximum Qty_ordered for each product.

Practical Set – I

Programs on Array and Linked List

- 1 Write a program to accept n elements and print it.
- 2 Write a program to accept n elements and find the summation and average of it.
- 3 Write a program to accept n elements and print all odd elements and count odd elements.
- 4 Write a program to accept n elements and find the maximum and minimum element from it.
- 5 Write a program to perform the following operations on a stack.
(Implement the stack using array and linked list both)
 - PUSH
 - POP
 - ISEMPY
 - ISFULL
 - PEEP
- 6 Write a program to perform the following operation on a simple queue.
(Implement the queue using array)
 - Insert an element
 - Remove an element.
- 7 Write a program to perform the following operation on a circular queue.
(implement the queue using array)
 - Insert an element
 - Remove an element
- 8 Write a program to create a Singly Linked List in LIFO fashion.
- 9 Write a program to create a Singly Linked List in FIFO fashion.
- 10 Write a program to create a sorted Singly Linked List.
- 11 Write program perform the following operations on a Singly Linked List.
 1. Insert an element
 2. Delete an element
 3. Find the sum of elements of the List
 4. Count number of the nodes in the Linked List
 5. Search a given element in the Linked List.

Lab Assignment || B.Sc.(IT) || SEM IV || CA506 : Data Structure and Algorithms

6. Reverse the Linked List.
7. Make a copy of the given Linked List
8. Concatenate two Linked List
9. Merge two Linked List.
10. Find the union of the two given Linked List
11. Find the intersection of the two given Linked List.
12. Write a program to create a sorted Doubly Linked List.
13. Write a program to create a Doubly Linked List in LIFO fashion.
14. Write a program to create a Doubly Linked List in FIFO fashion.
15. Write a program perform the following operations on a doubly Linked List.
 1. Insert an element
 2. Delete an element
 3. Find the sum of element of the List
 4. Count number of the nodes in the Linked List
 5. Search a given element in the Linked List.
 6. Reverse the Linked List
 7. Make a copy of the given Linked List
 8. Concatenate two Linked listed.
 9. Merge two Linked List.
 10. Find the union of the two given Linked List.
 11. Find the intersection of the two given Linked List.
16. Write a program to create a Circular Single Linked List.
17. Write a program to create a Double Linked List.

Indicative Practical List

Assignment – 1

Sr. No	Questions										
Q1	Create an ASP .NET Application using MVC Architecture following requirements.										
	Application must showcase the techniques of Fetching of data from the database using Connected or Disconnected Approach.										
	Application must showcase the techniques of inserting the data into the database using Connected or Disconnected Approach.										
	Application must have well defined views to provide interaction to its functionalities.										
	Application must also be having functionalities to allow user to delete and update records, through a view.										
	Note: For reference you may use below provided structure to create table in database or it is up to you to select one of your choice.										
	<table><tr><th colspan="5">TBLFoods</th></tr><tr><th>ID</th><th>Name</th><th>Cuisine</th><th>Price</th><th>Quantity</th></tr></table>	TBLFoods					ID	Name	Cuisine	Price	Quantity
TBLFoods											
ID	Name	Cuisine	Price	Quantity							

Lab Assignment || MCA || SEM II || CA869 : Http Web Service For Enterprise Application

Assignment – 2

Create an ASP .NET WEB API Application to fulfill following requirements.

Questions

1. Create a Web API to fetch all the data from the database and return it. (Use Attribute based routing; to allow consumption of the API, for the consumer)
2. Create a Web API to fetch all the data of specific cuisine, as per the request of consumer.
3. Create a Web API to get data from the consumer and insert it in the Database.
4. Add validation in model with Data Annotations and make Name and Quantity a Required Field, create a custom exception to generate a proper error message and avoid data insertion, if the same is not followed by the consumer while consuming the “Data Insert API” (3).
5. While inserting the data in “Data Insert API” (3), check if Quantity is not less than 0, for such case; create a custom exception to return proper message and avoid data insertion.

Note: Use the provided structure to create tables in database.

TBLFoods				
ID	Name	Cuisine	Price	Quantity

Note: Use Entity Framework for Database Operations.

Lab Assignment || MCA || SEM II || CA871 : Advanced Mobile Programming

Assignment-1

1.	Write a program to display "Welcome to Flutter" in the center of the screen. Set up an Android Virtual Device for your project and run your program on this virtual device.
2.	Write a program to display "Flutter works on Web!" in the center of the screen. Set up Google Chrome browser as the target device and run your program in the browser.
3	Write a program to display at least four built-in icons on the screen.
4.	Write a program to display at least four images-each of different type such as JPEG, PNG, GIF etc. Also display an image available on Internet using its URL.
5	Replace default app icons for a Flutter project manually.

Assignment-2

1.	Write a program which takes two numbers as input. Provide four buttons for addition, subtraction, multiplication and division. Display output of the arithmetic operation in another Text.
2.	Display a group of five checkboxes and display all the currently selected items in a Text as and whenever any checkbox selected or deselected.
3	Re-write program. 1 by replacing buttons with four radiobuttons for addition, subtraction, multiplication and division.
4.	Write a program to create two tabs with different background colors. First tab should display three images with the help of a Row widget and the second tab should display three images with the help of Column widget.
5	Write a program to create an app with four screens. Each screen must have three buttons to re-direct to one of the three other screens. Use named routes.

Assignment-3

1.	Write a program to display three horizontal scrollbars: one for each of Principle, Rate of Interest and Term (i.e. no. of years). Calculate and display simple interest depending on the current value of principle, rate of interest and term.
2.	Create a scrollable dynamic list of 25 checkboxes with the help of ListView and builder() method.
3	Create a dynamic grid of three columns. Display seven icons in this grid.
4.	Write a program to create a drawer with three options: Login, Greet and Close. Create three dart files: Login.dart, Greet.dart Tapping on Login should display screen for login from Login.dart Tapping on Greet should display screen with "Have a good day" message from Greet.dart. Tapping on Close should close the drawer.

Assignment-4

- | | |
|----|---|
| 1. | Write a program in which TextField widget is refactored. |
| 2. | Write a program to play a sound file using a Flutter app. |

Assignment-5

- | | |
|----|---|
| 1. | Write a program to read data from a JSON file and display the same using a Flutter app. |
| 2. | Write a program to write data to a JSON file using a Flutter app. |
| 3. | Write a program to display current location of the device using a Flutter app. |
| 4. | Write a program with two screens: The first screen will have an empty text and a button to move to second screen. The second screen will have a textbox and a button to move to the first screen. The value entered in the textbox should be displayed in the text on the first screen. |
| 5. | Write a program to perform create, retrieve, update and delete data from an online REST API. |

Assignment-6

- | | |
|----|--|
| 1. | Write a program to show animation using Hero widget in a Flutter app. |
| 2. | Write a program to create and display BottomSheet in a Flutter app. |
| 3. | Write a program to display real-time clock using StreamBuild in a Flutter app. |
| 4. | Write a program to perform create, retrieve, update and delete operations on data available in Firebase. |

Assignment-1 (02-01-2023)

- 1) Switch from Notepad++ to vs code IDE.
- 2) VS code overview & Installation
- 3) Basic Practice of HTML source code in VS code.

Assignment-2 (09-01-2023)

- 1) Basic example of css practice in all types of css

About the Bookworm Bookshop

Since 1933, The Bookworm Bookshop has offered rare and hard-to-find titles for the discerning reader. The Bookworm offers:

- Friendly, knowledgeable, and courteous help
- Free coffee and juice for our customers
- A well-lit reading room so you can "try before you buy"
- Four friendly cats: Esmerelda, Catherine, Dulcinea and Beatrice

Our hours are 10am to 9pm weekdays, noon to 7 on weekends.

Recent Titles (as of July 11, 2012)

- Sandra Bellweather, [Exercise 5 \(Practical List -3\)](#)
- Johnathan Tin, [Exercise 12 \(Practical List -2\)](#)
- Maxwell Burgess, [Image Map](#)
- Alison Caine, [Tables](#)

[Back to Contents](#) | [Back to Top](#)

Upcoming Events

The Wednesday Evening Book Review
meets, appropriately, on Wednesday evenings at 7 pm for coffee and a round-table discussion. Call the Bookworm for information on joining the group.

The Children's Hour
happens every Saturday at 1 pm and includes reading, games, and other activities. Cookies and milk are served.

Carole Fenney
will be at the Bookworm on Sunday, January 19, to read from her book of poems *Spiders in the Web*.

The Bookworm will be closed
March 1st to remove a family of bats that has nested in the tower. We like the company, but not the mess they leave behind!

Background Color - #CCFFCC

Lab Assignment || BCA || SEM II || CA128 : Advance Web Designing

6. Create a HTML web page to design following form.

The screenshot shows a web browser window with the address bar displaying a file path. The form is titled "Example form" and contains the following sections:

- Name:** A dropdown menu for "Title" (set to "Mr."), and input fields for "First name" and "Last name".
- Address:** Input fields for "Street", "City", "State", "Zip code", and "Country".
- Payment option:** A section titled "Credit card" with radio buttons for "Visa", "Mastercard", and "Discover". Below this are input fields for "Card number" and "Expiration date", and a "Submit" button.

[Use external style sheet to style above form]

The screenshot shows the same web browser window, but the form is now styled with an external CSS file. The styling includes:

- Body background color:** Gray.
- Fieldset background color:** #D3D3D3.
- Legend background color:** #A9A9A9.
- Form elements:** The form is styled with rounded corners, a red border, and a gray background. The "Name" fieldset is highlighted with a red border. The "Address" fieldset is highlighted with a red border. The "Payment option" fieldset is highlighted with a red border. The "Credit card" legend is highlighted with a red border. The "Card number" and "Expiration date" input fields are highlighted with a red border.

- Body background color - gray
- Fieldset background color - #D3D3D3
- Legend background color - #A9A9A9

Lab Assignment || BCA || SEM II || CA128 : Advance Web Designing

- Mouse over shadow color of an input element- #D35400
- On focus input element background color – red
- On focus Input element text color – yellow;

7. Create Horizontal Menu using HTML & CSS.

Institute: CMPICA, PDPIAS, I2IM, CSPIT, RPCP, MTIN, ARIP

Programme: Undergraduate, Postgraduate, Diploma/Certificate, Research

8. Create Vertical Menu using HTML & CSS.
9. Create following template using HTML and CSS

Lab Assignment || BCA || SEM II || CA128 : Advance Web Designing

Note:

The colours used are as follows:

- Text: #330000
- Body background: #ffffcc
- Header and footer background: #ccaa66
- Left (navigation) column background: #E8D882
- Right (main content) column background: #f1e8b0

The text is displayed in Verdana font.

You should write an external/Internal CSS file. You need to modify the original HTML file only to link to this style sheet, mark up sections (using <div> tags) and set appropriate class and id attributes.

10. Create the following page using HTML & CSS:

The screenshot shows a web page for 'Book Shop'. The header includes a logo and the text 'Book Shop'. Below the header is a navigation bar with links: Home, News, Contact, About. The main content area is divided into three columns. The left column contains a 'Browse Books' section with links: New Release, Pre Order, Best Seller, Children & Young Readers. Below this is a 'CATEGORIES' section with links: Comics & Graphic Novels, Computers, Photography, Early Learning, Games, Travel. The middle column contains a 'Gift Vouchers' section. It starts with a message: 'There are no products matching the selection.' Below this is a section titled 'Book Shop Gift Vouchers' with a description: 'Gift Vouchers make the perfect gift for friends and family. All you have to do is give us the details and we will send the gift vouchers, on your behalf.' Below this is a list of locations where the vouchers are valid: 1. Ambience Mall, Gurgaon, 2. MGF Metropolitan Mall, Gurgaon, 3. DLF Promenade, Vasant Kunj, 4. Vasant Vihar Market, 5. Select City Walk, Saket, 6. GIP Mall, Noida, 7. DLF Mall Of India, Noida, 8. Pheonix Marketcity, Bengaluru, 9. Pheonix High Street, Lower Parel, 10. Pheonix High Street, Kurla LBS Road, 11. Pheonix High Stareet, Chennai - Velacheri. At the bottom of this section is a link: 'For any queries please write to us at support@ombooks.com'. The right column contains a grid of book covers, including 'COMPUTER SCIENCE', 'Java Programming', 'LEARNING COMPUTERS', and 'Exploring C'. The footer contains the text 'copyright ©'.

The colours used are as follows:

Header text :- 06376D

Footer background:- # 222222

Lab Assignment || BCA || SEM II || CA128 : Advance Web Designing

menu background:- 2B5A8E

menu item border:- 213042 menu

font:- Arial, Helvetica, sans-serif active

menu item:- DCE5EE

menu hover:- 2B5A8E

aside border:- 2B5A8E

aside heading:- 2B5A8E

aside list:- 06376D

aside list font:- Arial, Helvetica, sans-serif gift voucher

first article background:- 99FFFF

article border:- 2B5A8E

3rd article font:- Verdana, Arial, Helvetica, sans-serif

Note:-

- When user move mouse cursor on aside list item then particular list item display with underline and increase font size
- When user move mouse cursor on image then image should be larger and display border
