

CHAROTAR UNIVERSITY OF SCIENCE AND TECHNOLOGY
CHANDUBHAI S. PATEL INSTITUTE OF TECHNOLOGY
M&V PATEL DEPARTMENT OF ELECTRICAL ENGINEERING
ACADEMIC YEAR: 2018-19

INDEX

Name of Subject with Code No.: **EE407: Commissioning of Electrical Equipments**

Practical No.	Date	Title	Sign of Faculty
1		To understand the Name Plate & other Specifications of transformer, dc machine, alternator and induction machine.	
2		To find out number of poles for three phase induction motor without energizing the motor.	
3		To perform the polarity test on current transformer.	
4		To find out CT ratio and saturation characteristics.	
5		To perform the polarity test of 1-phase transformer.	
6		To perform the polarity test of 3- ϕ transformer.	
7		To check the phase sequence of 3 phase supply.	
8		To study the types of faults, causes, remedies and troubleshooting chart for transformer.	
9		To study the types of faults, causes, remedies and troubleshooting chart for induction machines.	
10		To study the types of faults, causes, remedies and troubleshooting chart for dc machines.	
11		To study the types of faults, causes, remedies and troubleshooting chart for synchronous machines.	
12		To study the types of faults, causes, remedies and troubleshooting chart for circuit breakers.	
13		To study the types of faults, causes, remedies and troubleshooting chart for contactors	
14		To generate the commissioning test report for transformer, dc machine, alternator and induction machine.	
15		To check the reflection of load on secondary of three phase transformer
