

Date: 18.06.11, Saturday

Time: 1.30p.m to 1.50 p.m

Maximum Marks: 10

Instructions:

1. There are two parts in the paper. **PART –I** contains 10 Questions and **PART – II** contains 4 Questions.
2. **PART –I** should be answered in MCQ 'S question paper & **PART – II** should be answered in two separate answer books which has two sections.
3. Marks on the right side suggest the total marks of that question.
4. Maximum time allotted for **PART – I** is 20 min. Question paper for **PART – II** will be given at the table when the answer sheet for **PART – I** is returned. However, Candidates who complete **PART – I** earlier than 20 min, can collect main question paper for **PART –II** immediately after handing over the **PART-I** question paper.

PART-I

Multiple Choice Questions: (MCQs)

(1 × 10 = 10)

(Encircle the correct answer)

1. Hip extensors and abdominal muscle contraction results in.....?
 - a. Anterior pelvic tilt
 - b. Posterior pelvic tilt
 - c. Lateral pelvic tilt
 - d. None of above
2. Measurement of axillary crutches (with shoes on) is?
 - a. 5 cm vertically down from apex of axilla to a point 20 cm lateral to the heel of shoe
 - b. 8 cm vertically down from apex of axilla to a point 28 cm lateral to the heel of shoe
 - c. 2 cm vertically down from apex of axilla to a point 20 cm lateral to the heel of shoe
 - d. 5 cm vertically down from apex of axilla to a point 40 cm lateral to the heel of shoe
3. In Fick equation $VO_2 = \dots\dots\dots?$
 - a. Stroke volume × arteriovenous O_2 difference
 - b. Heart rate × arteriovenous O_2 difference
 - c. Cardiac output × arterial O_2
 - d. Cardiac output × arteriovenous O_2 difference
4. In PNF pattern of upper extremity, supination of forearm is combined with.....?
 - a. Extension and internal rotation of shoulder joint
 - b. Flexion and internal rotation of shoulder joint
 - c. Extension and external rotation of shoulder joint
 - d. Flexion and external rotation of shoulder joint
5. Which of the following is responsible for coordinated movement?
 - a. The cerebral cortex
 - b. The cerebellum
 - c. Kinesthetic sensation
 - d. All of the above

6. Manual muscle testing is the application of by the tester or by the to the voluntary maximum of the patient's muscle.
- Resistance, Force of gravity, Contraction
 - Pressure, Force of resistance, Volume
 - Force of gravity, Contraction, Resistance
 - Bandages, Assistant, Torc
7. is a method devised by de Lorme, and Watkins as a basis for progressive resistance exercise?
- Static power test
 - Dynamic power test
 - Endurance test
 - Speed test
8. Contract-relax is a form of.....?
- Ballistic stretching
 - PNF stretching
 - Passive stretching
 - All of the above
9. Which of the following is not an indication for joint mobilization?
- Pain
 - Muscle spasm
 - Joint hypomobility
 - Joint effusion
10. Which of the factor will influence on vertebral separation during spinal traction?
- Spinal position
 - Angle of pull
 - Amount of force
 - All of the above
-

CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY

Bachelor of Physiotherapy (B.P.T)

Semester – IV Examination – JUNE 2011

PT 207 EXERCISE THERAPY II

Date: 18.06.11, Saturday

Time: 1.50p.m to 4.30 p.m

Maximum Marks: 60

Instructions:

1. There are two parts in the paper. **PART –I** contains 10 Questions and **PART – II** contains 4 Questions.
2. **PART –I** should be answered in MCQ 'S question paper & **PART – II** should be answered in two separate answer books which has two sections.
3. Marks on the right side suggest the total marks of that question.
4. Maximum time allotted for **PART – II** is 2 Hr 40min.
5. Draw the figure wherever necessary.

PART-II

SECTION –I

Q.1. Long Question (1 out of 2)

(1× 10= 10)

1. Write down the fundamental principles of Manual Muscle testing. How will you test & isolate the gluteus Maximus from Hamstring Muscles. (OR)
2. Define P.N.F. Discuss the principles & application of technique for mobilization, strengthening & coordination.

Q.2. Write short notes on: (4 out of 5)

(4× 5 = 20)

1. Difference between open & Closed Chain exercises.
2. Different types of canes & its gait pattern for use of canes.
3. Stress testing for Convalescing Individuals.
4. Write down the technique of manual stretching of IT band.
5. Factors predisposing to poor posture & write down the principles of reeducation to correct it.

SECTION –II

Q.3. Long Question (1 out of 2)

(1× 10= 10)

1. Define Mobilization. Write down the technique & procedure to improve flexion range of movement of shoulder joint & its Contraindications. (OR)
2. Define Co -ordination. Write down its technique & uses of Frenkle's exercises.

Q.4. Write short notes on: (4 out of 5)

(4× 5 = 20)

1. Rhythmic stabilization.
2. Isokinetic exercise & Multiple angle isometrics.
3. Different types of traction & its effects.
4. Fitness testing.
5. Test for Coordination.
