

CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY

Bachelor of Physiotherapy (B.P.T)

Semester – VI Examination – APRIL 2012

PT307 CLINICAL CARDIO RESPIRATORY CONDITIONS

Date: 30/04/12, Monday

Time: 1.50p.m to 4.30p.m

Maximum Marks: 60

Instructions:

1. There are two parts in the paper. PART –I contains 10 Questions and PART – II contains 4 Questions.
2. PART –I should be answered in MCQ 'S question paper & PART – II should be answered in two separate answer books which has two sections.
3. Marks on the right side suggest the total marks of that question.
4. Maximum time allotted for PART – II is 2 Hr 40min.
5. Draw the figure wherever necessary.

PART-II

SECTION –I

Q.1. Long Question (1 out of 2)

(1× 10= 10)

Discuss etiology, clinical features and investigations of Chronic Bronchitis.

OR

Write down classification, investigations and management of Bronchial Asthma.

Q.2. Write short notes on: (4 out of 5)

(4× 5 = 20)

- a. Write indications, incisions and post-operative management of Lobectomy.
- b. Discuss broncho-pulmonary segments.
- c. Discuss pathogenesis and medical treatment of Pulmonary Tuberculosis.
- d. Pulmonary Function Tests.
- e. Discuss clinical features and treatment of Pneumothorax.

SECTION –II

Q.3. Long Question (1 out of 2)

(1× 10= 10)

Define cardiac arrest. Describe its causes, pathology, diagnosis & management in detail.

OR

Write down aetiology, pathophysiology, clinical features, investigation & management of Mitral stenosis

Q.4. Write short notes on: (4 out of 5)

(4× 5 = 20)

- a. Deep vein thrombosis.
- b. Intercostal drainage tube.
- c. Ventricular septal defect.
- d. Angina pectoris.
- e. Types of cardiac surgery.

Bachelor of Physiotherapy (B.P.T)

Semester – VI Examination – APRIL 2012

PT307 CLINICAL CARDIO RESPIRATORY CONDITIONS

Date: 30/04/12, Monday

Time: 1.30p.m to 1.50p.m

Maximum Marks: 10

Instructions:

1. There are two parts in the paper. PART – I contains 10 Questions and PART – II contains 4 Questions.
2. PART – I should be answered in MCQ 'S question paper & PART – II should be answered in two separate answer books which has two sections.
3. Marks on the right side suggest the total marks of that question.
4. Maximum time allotted for PART – I is 20 min. Question paper for PART – II will be given at the table when the answer sheet for PART – I is returned. However, Candidates who complete PART – I earlier than 20 min, can collect main question paper for PART – II immediately after handing over the PART-I question paper.

PART-I

Multiple Choice Questions: (MCQs)

(10 × 1 = 10)

(Encircle the correct answer)

1. Shifting of mediastinum to right may occur in
 - a. Right lung collapse
 - b. Left lung collapse
 - c. Right pleurisy
 - d. None of the above
2. Which of the following respiratory disease affects acinus
 - a. Bronchitis
 - b. Asthma
 - c. Emphysema
 - d. Pneumonia
3. Resection of the entire lung on one side is known as
 - a. Thoracotomy
 - b. Lobectomy
 - c. Bilobectomy
 - d. Pneumonectomy
4. Which of the following chronic obstructive pulmonary disorder is 'blue bloaters'?
 - a. Emphysema
 - b. Asthma
 - c. Cystic fibrosis
 - d. Chronic bronchitis
5. The total volume of air moved during either inhalation or exhalation at each breath is termed as:
 - a. Vital capacity
 - b. Tidal Volume
 - c. Expiratory reserve volume
 - d. Inspiratory reserve volume

6. Which of the following is not an indication for Coronary artery Bypass grafting (CABG)?
- Left main coronary artery disease stenosis more than 60%.
 - One, two or three vessel disease with proximal left Anterior descending artery (LAD) stenosis
 - Three vessel disease with impaired ventricular function (less than 50%)
 - Double vessel disease with patent left anterior descending artery (LAD)
7. Which of the following pathological change occur in mitral stenosis?
- Increase in left atrial pressure
 - Increase in pulmonary vascular resistance
 - Decrease in cardiac output
 - All of above
8. Which of the following arteries is most likely to be involved with serious atherosclerosis?
- The right coronary artery.
 - The left coronary artery.
 - The anterior descending coronary artery.
 - The circumflex coronary artery.
9. Which of the following is not the part of tracheostomy tube?
- Obturator
 - Outer cannula
 - Stoma
 - Inner cannula
10. Which is not true for cardiopulmonary resuscitation (CPR) according to newer guideline?
- Encourage Hands only (compressions only) CPR for the untrained lay rescuer.
 - CPR sequence changed from A-B-C to C-A-B
 - Depth of compressions also changed for BLS
 - Check Ulnar pulse first
