

CHAROTAR UNIVERSITY OF SCIENCE AND TECHNOLOGY

University Examination

Date: 11/11/2019

Day: Monday

Time: 10:00 a.m. to 10:30 a.m.

Total Marks: 20

Student's ID No.	Answer Sheet for Multiple Choice Questions (MCQs).										
<table border="1"><tr><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td></tr></table>											Examination : BPT- November 2019
Student's Name: _____	Semester: [6]										
Student's Sign : _____	Section : I										
Supervisor's Name : _____	Course Code : PT356										
Supervisor's Sign: _____	Course Name: Clinical cardiorespiratory conditions										

Important Instructions:

- There are two sections in the paper. **SECTION –I** contains 20 Questions and **SECTION – II** contains 3 Questions.
- **SECTION –I** should be answered in the question paper itself & **SECTION – II** should be answered in separate answer book.
- Marks on the right side suggest the total marks of that question.
- Maximum time allotted for **SECTION – I** is 30 minutes Question paper for **SECTION – II** will be given once the **SECTION – I** is completed within the stipulated time and returned. However, Candidates who complete **SECTION – I** earlier than 30 minutes can collect main question paper for **SECTION –II** immediately after handing over the **SECTION-I** question paper with answers.
- **SECTION – I** should be attached with the main answer book at the end of the examination and should be submitted to the supervisor.

SECTION-I

Multiple Choice Questions: (MCQs)

(20 × 1 = 20)

(Encircle the correct answer)

1. Which of the following muscles is NOT involved in inspiration?
 - a. External Intercostal
 - b. Subcostals
 - c. Levator costarum
 - d. Transversus thoracis
2. The inferior border of the heart :
 - a. Is primarily the left ventricle
 - b. Is the right atrium
 - c. Is primarily the right ventricle
 - d. Is the junction where the great vessels leave and enter the heart
3. The site of respiration inside the lungs are:
 - a. Alveoli
 - b. Bronchi
 - c. Diaphragm
 - d. Bronchioles

4. Which of the following is the most common symptom of myocardial infarction?
 - a. Chest pain
 - b. Dyspnea
 - c. Edema
 - d. Palpitations
5. Atherosclerosis impedes coronary blood flow by which of the following mechanism?
 - a. Plaques obstruct the vein
 - b. Plaques obstruct the artery
 - c. Blood clots from outside the vessel wall
 - d. Hardened vessels dilated to allow the blood to flow through
6. Which of the following risk factors for coronary artery disease cannot be corrected
 - a. Cigarette smoking
 - b. DM
 - c. Heredity
 - d. HTN
7. Which of the following symptoms is most commonly associated with left sided heart failure?
 - a. Crackles
 - b. Arrhythmias
 - c. Hepatic engorgement
 - d. Hypotension
8. Stimulation of the sympathetic nervous system produce which of the following responses?
 - a. Bradycardia
 - b. Tachycardia
 - c. Hypotension
 - d. Decreased myocardial contractility
9. What is the term used to describe an enlargement of the heart muscle?
 - a. Cardiomegaly
 - b. Cardiomyopathy
 - c. Myocarditis
 - d. Pericarditis
10. Most patient with COPD have a history of :
 - a. Cigarette smoking
 - b. Excessive alcohol consumption
 - c. Seasonal allergies
 - d. Injection drug use
11. A history of smoking , abnormal permanent enlargement of the alveoli, cough and dyspnea suggest:
 - a. Asthma
 - b. Emphysema
 - c. Chronic bronchitis
 - d. Obstructive sleep apnea
12. Pneumonia may be caused by any of the following except:
 - a. Bee sting
 - b. Bacteria
 - c. Viruses
 - d. Mycoplasmas

- 13. Inflammation of bronchi or bronchioles is called**
- a. Emphysema
 - b. Bronchitis
 - c. Asthma
 - d. Lung cancer
- 14. Respiratory disorder in which cells division takes place without control and causes tumors is called**
- a. Emphysema
 - b. Lung cancer
 - c. Bronchi cancer
 - d. Bronchioles cancer
- 15. Respiratory disorder in which walls of alveoli is destructed is called**
- a. Asthma
 - b. Emphysema
 - c. Bronchitis
 - d. Pneumonia
- 16. Normative value for tidal volume**
- a. 500 ml
 - b. 36600ml
 - c. 1200ml
 - d. 6000ml
- 17. Which among this is the muscles cut during posterolateral incision**
- a. Trapezius
 - b. Diaphragm
 - c. Deltoid
 - d. Latissimus dorsi
- 18. Orthopnea means**
- a. Dyspnea at rest
 - b. Dyspnea on basic ADL
 - c. Dyspnea in supine position and relive by sitting up
 - d. Dyspnea in prone position
- 19. Bronchopulmonary fistula is a complication of following which surgery?**
- a. Thoracotomy
 - b. Thoracoplasty
 - c. Lobectomy
 - d. Pneumonectomy
- 20. Ideally the endotracheal tube should not extend beyond the**
- a. Base of tongue
 - b. Larynx
 - c. Pharynx
 - d. Carina

CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY

6th Semester of B.P.T. Examination

November 2019

PT356 Clinical Cardiorespiratory Conditions

Date: 11/11/2019

Time: 10:30a.m. To 1:00 p.m.

Maximum Marks: 50

Instructions:

1. There are two Sections in the paper. **SECTION –I** contains 20 Questions and **SECTION – II** contains 3 Questions.
2. **SECTION –I** should be answered in the question paper itself & **SECTION – II** should be answered in separate answer book.
3. Marks on the right side suggest the total marks of that question.
4. Maximum time allotted for **SECTION – II** is 2 Hr 30 min.
5. Draw the figure where necessary.

SECTION-II

Q. 1. Short answers (5 out of 7) (Answer not exceeding 50 words) (5 × 2 = 10)

- a. Define auto-rhythmicity
- b. Systolic Vs. diastolic cardiac failure
- c. Trendelenburg's test for venous function
- d. Complications of mechanical ventilation
- e. Effects of anesthesia on cardiopulmonary system
- f. Thoracotomy Vs. Thoracostomy
- g. Jones criteria for diagnosis for rheumatic fever

Q. 2. Short Notes (4 out of 5) (Answer not exceeding 150 words) (4 × 5 = 20)

- a. Conservative and surgical management of lymphedema.
- b. Explain pathophysiology of pneumothorax
- c. What is Cardiopulmonary resuscitation? Explain recent guideline of basic life support for adults.
- d. What is hypertension? Discuss pathophysiology and clinical features of hypertension
- e. Difference between pink puffers and blue bloaters

Q. 3. Essay (2 out of 3) (2 × 10 = 20)

- a. Enlist Bronchopulmonary segments. Explain in detail etiology, clinical features, diagnosis and medical, surgical management of bronchial asthma.

- b. A 60 year old male diagnosed with triple vessel disease, under gone for on pump coronary artery bypass grafting surgery. Explain the procedure of surgery along with its complication**
- c. Briefly describe the blood supply of the heart. Explain in detail etiology, clinical features and diagnosis, medical and surgical management of myocardial infarction.**
