

CHAROTAR UNIVERSITY OF SCIENCE AND TECHNOLOGY

University Examination

Date: 09/06/2018

Day: Saturday

Time: 10 am to 10:30 am

Total Marks: 20

Student's ID No.									
Student's Name: _____									
Student's Sign : _____									
Supervisor's Name : _____									
Supervisor's Sign: _____									

Answer Sheet for Multiple Choice Questions (MCQs), True or false and Match the following
Examination : BPT/MPT- June 2018
Semester: 2 nd
Section : I
Course Code : PT862
Course Name: Outcome Measures For Musculoskeletal Disorders

Important Instructions:

- There are two sections in the paper. **SECTION –I** contains 20 Questions and **SECTION – II** contains 3 Questions.
- **SECTION –I** should be answered in the question paper itself & **SECTION – II** should be answered in separate answer book.
- Marks on the right side suggest the total marks of that question.
- Maximum time allotted for **SECTION – I** is 30 minutes. Question paper for **SECTION – II** will be given once the **SECTION – I** is completed within the stipulated time and returned. However, Candidates who complete **SECTION – I** earlier than 30 minutes can collect main question paper for **SECTION –II** immediately after handing over the **SECTION-I** question paper with answers.
- **SECTION – I** should be attached with the main answer book at the end of the examination and should be submitted to the supervisor.

SECTION-I

Multiple Choice Questions: (MCQs) (Encircle the correct answer)

(10 × 1 = 10)

1. Which of the following tool is originally standardized and designed for work-limit test?
 - a. Jebson-Taylor Hand Function Test
 - b. Minnesota Rate of Manipulation Test
 - c. Purdue Pegboard Test
 - d. Crawford Small Parts Dexterity Test
2. Following are the domains of WHO quality of life scale, except _____
 - a. Physical health
 - b. Emotional
 - c. Social relationships
 - d. Environment
3. Which of the following is not a component of patellofemoral joint evaluation scale?
 - a. Squatting
 - b. Pain
 - c. Limp
 - d. Assistive devices

4. Which of the following refers to inter-rater reliability?
 - a. The degree to which two tests measure the same construct.
 - b. The degree to which a clinician can predict future behaviour.
 - c. The degree to which two clinicians will agree on interpretation or scoring of a test.
 - d. The degree to which the items in the test relate to each other.
5. Face validity refers to which of the following:
 - a. Facial expression is used to make a diagnosis.
 - b. The scale of emotional responding.
 - c. The notion that an assessment method may appear to be valid simply because it has questions which intuitively seem relevant to the trait or characteristic being measured.
 - d. A construct is a hypothetical or inferred attribute that may not be directly observable or directly measurable
6. Michigan Hand Outcomes Questionnaire (MHQ) is a hand-specific outcomes instrument which measures the chronic health outcomes consisted of _____
 - a. 72 questions
 - b. 78 questions
 - c. 85 questions
 - d. 100 questions
7. Construct validity is a notion that refers to _____
 - a. The notion that scores on a test correlate highly with scores from tests that measure the same attribute.
 - b. The level of which a construct is related to other similar measures.
 - c. The degree to which the items in the test consistently relate to each other.
 - d. The test will produce consistent results.
8. Which of the following tool is developed with the objective to evaluation of fine and gross motor hand function using simulated activities of daily living?
 - a. Minnesota Rate of Manipulation Test
 - b. Jebson-Taylor Hand Function Test
 - c. Crawford Small Parts Dexterity Test
 - d. Purdue Pegboard Test
9. _____ was developed to classify handicap from the descriptive system presented in the ICIDH.
 - a. SF-36
 - b. WHO quality of life
 - c. London Handicap Scale
 - d. DASH
10. Maximum points for functional activities component in Harris Hip Function Scale is ____
 - a. 12 points
 - b. 14 points
 - c. 16 points
 - d. 18 points

Identify the sentence as True or False:

(Please tick mark the answer)

(5 × 1 = 5)

- | | True | False |
|---|--------------------------|--------------------------|
| 11. Upper extremity functional index assess problem as per assessment week. | ☐ | ☐ |
| 12. Cincinnati knee rating system assess function based on 5 abilities. | ☐ | ☐ |
| 13. Lower extremity functional scale assess difficulty as per assessment day. | ☐ | ☐ |
| 14. RMDQ is limited as it only covers specific physical problems. | ☐ | ☐ |
| 15. WOMAC Index varies for different subscales and types of interventions. | ☐ | ☐ |

(P.T.O.)

Match the following**(5 × 1 = 5)**

16.	Most sensitive for LBP patients with mild to moderate disability.	A. SF-36
17.	Cannot be computed if greater than three items are missing.	B. +20° to 30°
18.	Consists of eight scaled scores	C. RMDQ
19.	Function Subscale = (Specific Activities + Usual Activities) / 2	D. ODI
20.	Flexion limit of PIP joint in moderate Swan-neck fingers	E. +30° to 10°
		F. PRTEE
		G. DASH

(16-), (17-), (18-), (19-), (20-)

CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY

2nd Semester of M.P.T. Examination

June 2018

PT862 OUTCOME MEASURES FOR MUSCULOSKELETAL DISORDERS

Date: 09/06/2018

Time: 10:30 – 1 pm

Maximum Marks: 50

Instructions:

1. There are two Sections in the paper. **SECTION –I** contains 20 Questions and **SECTION – II** contains 3 Questions.
2. **SECTION –I** should be answered in the question paper itself & **SECTION – II** should be answered in separate answer book.
3. Marks on the right side suggest the total marks of that question.
4. Maximum time allotted for **SECTION – II** is 2 Hr 30 min.
5. Draw the figure where necessary.

SECTION-II

Q.1. Short answers (5 out of 7) (Answer not exceeding 50 words) (5 × 2 = 10)

- a. Properties of outcomes measure
- b. Enumerate the types of outcome measures with example.
- c. Enlist uses of Purdue Pegboard Test
- d. Interpretations of the Cincinnati knee Rating System Questionnaire
- e. Responsiveness
- f. Advantage of knee injury & osteoarthritis outcome score (KOOS)
- g. Interpretation of neck disability index

Q.2. Short Notes (4 out of 5) (Answer not exceeding 150 words) (4 × 5 = 20)

- a. Use of outcome measures.
- b. Explain in detail about criteria for selecting a patient-based outcome measure.
- c. Discuss the scoring of Disabilities of the Arm, Shoulder and Hand (DASH).
- d. Patient-Rated Tennis Elbow Evaluation (PRTEE) Questionnaire and scoring.
- e. International classification of function ICF)

Q.3. Essay (2 out of 3) (2 × 10 = 20)

- a. Discuss in detail about Western Ontario and McMaster Universities Osteoarthritis Index (WOMAC). Add a note on evidence of its psychometric properties.
- b. Discuss the recommendations of future development of the neck disability index (NDI).
- c. Discuss in the objective, scoring instructions and interpretation of Oswestry Disability Index (ODI).
