

CHAROTAR UNIVERSITY OF SCIENCE AND TECHNOLOGY

University Examination

Date: 06.06.2018

Day: Wednesday

Time: 10.00 am to 10.30 am

Total Marks: 20

Student's ID No.									
Student's Name: _____									
Student's Sign : _____									
Supervisor's Name : _____									
Supervisor's Sign: _____									

Answer Sheet for Multiple Choice Questions (MCQs), True or false and Match the following
Examination : MPT- June 2018
Semester:[4]
Section : I
Course Code : PT 908
Course Name: Advanced Physiotherapeutics II for Musculoskeletal Sciences

Important Instructions:

- There are two sections in the paper. **SECTION –I** contains 20 Questions and **SECTION – II** contains 3 Questions.
- **SECTION –I** should be answered in the question paper itself & **SECTION – II** should be answered in separate answer book.
- Marks on the right side suggest the total marks of that question.
- Maximum time allotted for **SECTION – I** is 30 minutes. Question paper for **SECTION – II** will be given once the **SECTION – I** is completed within the stipulated time and returned. However, Candidates who complete **SECTION – I** earlier than 30 minutes can collect main question paper for **SECTION –II** immediately after handing over the **SECTION-I** question paper with answers.
- **SECTION – I** should be attached with the main answer book at the end of the examination and should be submitted to the supervisor.

SECTION-I

Multiple Choice Questions: (MCQs) (Encircle the correct answer)

(10 × 1 = 10)

1. Detectable bony enlargements in proximal inter phalangeal joints are known as
 - a. Kohler's node
 - b. Bouchard's node
 - c. Heber den's node
 - d. Keinbock's node
2. Aerobic exercise is capable of improving serum lipid profile by except
 - a. Decreasing HDL (high density lipoprotein)
 - b. Increasing lactate threshold
 - c. Increasing mitochondria
 - d. Decreasing LDL (low density lipoprotein)

3. Deficiency of one or more central digits of hand is called as
 - a. Ectrodactyly
 - b. Syndactyly
 - c. Oligodactyly
 - d. Polydactyly
4. Trendelenburg test is positive due to injury of nerve.
 - a. Superior gluteal nerve
 - b. Pudendal nerve
 - c. Inferior gluteal nerve
 - d. Obturator nerve
5. Which exercise equipment is more appropriately used for the proprioceptive training of the lower extremity?
 - a. Pro-fitter
 - b. Body blade
 - c. Stair master
 - d. BAPS system
6. In order to decrease the fall risk due to orthostatic hypotension, what advice should be given to an older patient who is taking medication for hypertension?
 - a. Ambulate with walker
 - b. Avoid hot bath
 - c. Sit on the side of the bed for a moment before ambulation
 - d. Avoid climbing stair
7. Sprengel's deformity is
 - a. Congenital absence of clavicle
 - b. A-C joint dislocation
 - c. Congenital elevation of scapula
 - d. Recurrent dislocation of shoulder
8. The level of strength can be determined by using the following devices except
 - a. Dynamometer
 - b. Nautilus
 - c. Cyber isokinetic dynamometer
 - d. Cable tensiometer

9. Which of the following is not one of the most common work related musculoskeletal disorder (WRMSD) activities?
- Sitting for prolonged period of time
 - Working in cramped spaces
 - Outdoor exposure
 - Force concentrated on the hands, wrists, feet or ankles
10. The best example of open chain exercise of the quadriceps is
- Stair climbing machine
 - A wind resistance exercise bicycle
 - An isokinetic knee extension machine
 - A treadmill inclined to 5 degrees

Identify the sentence as True or False:
(Please tick mark the answer)

(5 × 1 = 5)

True False

- | | | |
|--|--------------------------|--------------------------|
| 11. Eccentric isokinetic exercises are appropriate to use in the early phase of rehabilitation. | ☐ | ☐ |
| 12. In ankylosing spondylitis, the basic pathological lesion is at the enthuses. | ☐ | ☐ |
| 13. Anaerobic exercise is associated with high intensity exercises performed over extended period of time. | ☐ | ☐ |
| 14. Most common type of nerve damage when traction force is applied to a nerve is Axonotmesis. | ☐ | ☐ |
| 15. Classic military stepping exercise and figure of eight running are examples of speed training. | ☐ | ☐ |

Match the following

(5 × 1 = 5)

16.	Osteoid osteoma	A. Cancer of plasma cell
17.	Ewing's sarcoma	B. Benign tumor originates from cartilage
18.	Metastatic tumor	C. Arises from osteoblasts
19.	Multiple myeloma	D. Small round blue cell tumor
20.	Enchondroma	E. Multinucleated osteoclast like cells
		F. Secondary tumor, spreads from other organs
		G. Osteosarcoma

(16 -), (17-), (18-), (19-), (20-)

CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY

4th Semester of M.P.T Examination (Musculoskeletal Sciences)

June 2018

PT908 Advanced Physiotherapeutics II for Musculoskeletal Sciences

Date: 6.6.2018 Day: Wednesday Time: 10.30 am to 1.00 pm Maximum Marks: 50

Instructions:

1. There are two Sections in the paper. **SECTION –I** contains 20 Questions and **SECTION – II** contains 3 Questions.
2. **SECTION –I** should be answered in the question paper itself **SECTION – II** should be answered in separate answer book.
3. Marks on the right side suggest the total marks of that question.
4. Maximum time allotted for **SECTION – II** is 2 Hr 30 min.
5. Draw the figure where necessary.

SECTION-II

Q.1. Short answers (5 out of 7) (Answer not exceeding 50 words) (5 × 2 = 10)

- a. Any two advanced methods of physiotherapy for CTEV.
- b. Protective equipment for sports injury prevention.
- c. Deformities of Rheumatoid Arthritis.
- d. Any four factors affecting posture.
- e. Periodization principle in sports training.
- f. Any four causes of Common peroneal nerve palsy.
- g. Define Metatarsalgia.

Q.2. Short Notes (4 out of 5) (Answer not exceeding 150 words) (4 × 5 = 20)

- a. Plyometric training.
- b. Strategies to improve exercises adherence in geriatric population.
- c. Management of Scoliosis.
- d. Role of exercises in osteoporosis.
- e. Management of a 2 year old child with Erb's palsy.

Q.3. Essay (2 out of 3) (2 × 10 = 20)

- a. Discuss the different approaches and exercises to prevent musculoskeletal problems in computer professionals.
- b. Describe the principles and components of muscle conditioning in sports sciences.
- c. Describe the prevention and treatment of falls in elderly.
