

CHAROTAR UNIVERSITY OF SCIENCE AND TECHNOLOGY

University Examination

Date: 04/06/2018

Day: Monday

Time: 10.00 AM to 10.30 AM

Total Marks: 20

Student's ID No.									
Student's Name: _____									
Student's Sign : _____									
Supervisor's Name : _____									
Supervisor's Sign: _____									

Answer Sheet for Multiple Choice Questions (MCQs), True or false and Match the following
Examination : MPT- June 2018
Semester: 4
Section : I
Course Code : PT915
Course Name: Physical Activity & Exercise Adherence

Important Instructions:

- There are two sections in the paper. **SECTION –I** contains 20 Questions and **SECTION – II** contains 3 Questions.
- **SECTION –I** should be answered in the question paper itself & **SECTION – II** should be answered in separate answer book.
- Marks on the right side suggest the total marks of that question.
- Maximum time allotted for **SECTION – I** is 30 minutes Question paper for **SECTION – II** will be given once the **SECTION – I** is completed within the stipulated time and returned. However, Candidates who complete **SECTION – I** earlier than 30 minutes can collect main question paper for **SECTION –II** immediately after handing over the **SECTION-I** question paper with answers.
- **SECTION – I** should be attached with the main answer book at the end of the examination and should be submitted to the supervisor.

SECTION-I

Multiple Choice Questions: (MCQs) (Encircle the correct answer)

(10 × 1 = 10)

1. Physical inactivity is identified as _____ leading factor for mortality globally.
 - a. 2nd
 - b. 4th
 - c. 5th
 - d. 7th
2. Identify statement representing recommended Physical activity for adults.
 - a. At least 90 minutes moderate exercise or 30 minutes vigorous exercise in a week
 - b. At least 120 minutes moderate exercise or 60 minutes vigorous exercise in a week
 - c. At least 150 minutes moderate exercise or 75 minutes vigorous exercise in a week
 - d. At least 120 minutes moderate exercise or 75 minutes vigorous exercise in a week
3. Identify the tool developed by WHO to monitor physical activity globally.
 - a. WHO activity monitoring questionnaire
 - b. PAR- Q
 - c. IPAQ
 - d. GPAQ

4. Identify the commonly used tool in research for measuring Physical activity from below mentioned options.
 - a. Mobile application
 - b. Fitbit monitor
 - c. Actigraph
 - d. Patient reported information
5. Identify the most relevant statement in application difficulty faced in usage of questionnaire to measure physical activity.
 - a. It has many irrelevant questions
 - b. It requires patient to be educated
 - c. It requires higher explanation and information
 - d. It may have recall bias.
6. Physically activity is defined as _____.
 - a. Any bodily movement produced by skeletal muscle
 - b. Any bodily movement produced by skeletal muscle that requires energy expenditure
 - c. Any bodily movement produced by skeletal muscle with energy expenditure above basal level
 - d. Any bodily movement produced by skeletal muscle with energy expenditure recommended for the specific population
7. Regular exercise will have which one of following effect?
 - a. Increase in resting Blood pressure
 - b. Decrease in lactate threshold
 - c. Increase in lactate threshold
 - d. Controls chronic respiratory disease
8. Which one of the following is added component to Theory of planned behavior as compared to theory of reasoned action?
 - a. Subject norm
 - b. Attitude to behavior
 - c. Behavior intention
 - d. Behavior control
9. A smoker who has taken appointment for professional help in smoking cessation is considered to be in _____ stage as per trans theoretical model.
 - a. Precontemplation
 - b. Contemplation
 - c. Preparation
 - d. Action
10. Taking medication for prevention of condition worsening is _____.
 - a. Secondary Prevention
 - b. Tertiary prevention
 - c. Primary prevention
 - d. Premordial prevention

Identify the sentence as True or False:
(Please tick mark the answer)

11. Application of Health belief model is limited in patient with depression.
12. Physical activity is important for pediatric to geriatric population.
13. Non adherence to exercise is not an issue in the western countries.
14. Physical activity prescription doesn't need any assessment.
15. Societal factors play a major role in attitude towards exercise in India.

(5 × 1 = 5)	
True	False
☐	☐
☐	☐
☐	☐
☐	☐
☐	☐

(P.T.O.)

Match the following**(5 × 1 = 5)**

16.	Theory of reasoned action	A. P.M. Marcus
17.	Protection motivation theory	B. R.W. Rogers
18.	Trans theoretical model	C. Edwin B. Holt
19.	Social cognitive theory	D. Irwin M. Rosenstock
20.	Health belief model	E. Ajzen and Fishbein
		F. James O. Prochaska
		G. Jhonty M.

(16 -), (17-), (18-), (19-), (20-)

CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY

4th Semester of M.P.T Examination

June 2018

PT915 Physical Activity & Exercise Adherence

Date: 04/06/2018

Time: 10.30 AM – 1.00 PM

Maximum Marks: 50

Instructions:

1. There are two Sections in the paper. **SECTION –I** contains 20 Questions and **SECTION – II** contains 3 Questions.
2. **SECTION –I** should be answered in the question paper itself&**SECTION – II** should be answered in separate answer book.
3. Marks on the right side suggest the total marks of that question.
4. Maximum time allotted for **SECTION – II** is 2 Hr 30 min.
5. Draw the figure where necessary.

SECTION-II

Q.1. Short answers (5 out of 7) (Answer not exceeding 50 words)

(5 × 2 = 10)

- a. Write down the importance of physical activity?
- b. What is the difference between adherence and compliance?
- c. Name any four non-modifiable risk factors?
- d. How will technology promote physical activity?
- e. Describe components of cognitive behavior therapy
- f. Explain theory of reasoned action.
- g. List barriers of Physical activity?

Q.2. Short Notes (4 out of 5) (Answer not exceeding 150 words)

(4 × 5 = 20)

- a. Explain risk factors for non-adherence?
- b. Health belief model?
- c. Importance of Patient education in health care
- d. Therapist as a manager of a stress
- e. Personal factors for physical activity

Q.3. Essay (2 out of 3)

(2 × 10 = 20)

- a. Explain in detail about environmental, societal and technological intervention for physical activity.
