

CHAROTAR UNIVERSITY OF SCIENCE AND TECHNOLOGY

University Examination

Date: 22/05/2018

Day: Tuesday

Time: 10:00am to 10:30am

Total Marks: 20

Student's ID No.									
Student's Name: _____									
Student's Sign : _____									
Supervisor's Name : _____									
Supervisor's Sign: _____									

Answer Sheet for Multiple Choice Questions (MCQs), True or false and Match the following	
Examination : BMRIT/BOTAT- May 2018	
Semester: II	
Section : I	
Course Code : BMRIT201/BOTAT201	
Course Name: Human Anatomy and physiology part I	

Important Instructions:

- There are two sections in the paper. **SECTION –I** contains 20 Questions and **SECTION – II** contains 3 Questions.
- **SECTION –I** should be answered in the question paper itself & **SECTION – II** should be answered in separate answer book.
- Marks on the right side suggest the total marks of that question.
- Maximum time allotted for **SECTION – I** is 30 minutes Question paper for **SECTION – II** will be given once the **SECTION – I** is completed within the stipulated time and returned. However, Candidates who complete **SECTION – I** earlier than 30 minutes can collect main question paper for **SECTION –II** immediately after handing over the **SECTION-I** question paper with answers.
- **SECTION – I** should be attached with the main answer book at the end of the examination and should be submitted to the supervisor.

SECTION-I

Multiple Choice Questions: (MCQs)
(Encircle the correct answer)

(10 × 1 = 10)

1. The medullary cavity of a long bone is lined with a thin layer of connective tissue called the
 - a. Diaphysis
 - b. Endosteum
 - c. Periosteum
 - d. Epiphysis
2. What portion of the scapula articulates with the clavicle
 - a. Coracoid process
 - b. Acromion process
 - c. Glenoid cavity
 - d. Both a and b

3. Which location in the Humerus is the site of frequent fracture
- Anatomical neck
 - Surgical neck
 - Deltoid tuberosity
 - Intertubercular groove
4. There are _____ cranial bones and _____ facial bones in the adult skull.
- 14,8
 - 8,14
 - 13,14
 - 14,13
5. The type of joint that is distinguished by having fluid filled cavity joint is.
- Fibrous
 - Synovial
 - Suture
 - Cartilaginous
6. Which of the following is known as voice box
- Larynx
 - Epiglottis
 - Pharynx
 - Cricoids cartilage
7. During the process of respiration in human beings the exchange of gas takes place in
- Alveoli
 - Bronchi
 - Bronchioles
 - Pleura
8. Which of the following is an example of long bone
- Sternum
 - Carpel
 - Femur
 - Vertebrae
9. Which of the following type of bone cell that tears down bone during the building and remodeling process?
- Osteoblast
 - Osteocyte
 - Osteoclast
 - All of the above
10. The shoulder and hip joint are of this type
- Plane
 - Hinges
 - Pivot
 - Ball and socket

Identify the sentence as True or False:

(Please tick mark the answer)

(5 × 1 = 5)

True False

11. Skeletal muscle has multiple nuclei per cell.
12. The axial skeleton is made up of 80 bones.
13. Fibula is also known as shin bone
14. The vertebral column is in the appendicular skeleton.
15. Striated muscle is involuntary muscle and is not under the control of the Central nervous system

☐	☐
☐	☐
☐	☐
☐	☐
☐	☐

Match the following

(5 × 1 = 5)

16. The spongy tissue at the ends of many bones. It cushions the ends of bones and forms flexible parts like your ears and nose.		A. Foramen
17. The bones form the prominence of cheek		B. Axon
18. Branch like parts of a neuron that are specialized to receive information.		C. Cartilage
19. An opening through which blood vessels, nerves, & ligaments pass		D. Dendrite
20. A threadlike extension of a neuron that carries nerve impulses away from the cell body.		E. Zygomatic
		F. Mastoid process
		G. Muscular system

(16 -), (17-), (18-), (19-), (20-)

II Semester of BMRIT/BOTAT Examination

201 May 2018

BMRIT/BOTAT Human anatomy and physiology part I

Date: 22/05/2018

Time: 10:30am to 1:00pm

Maximum Marks: 50

Instructions:

1. There are two Sections in the paper. **SECTION –I** contains 20 Questions and **SECTION – II** contains 3 Questions.
2. **SECTION –I** should be answered in the question paper itself & **SECTION – II** should be answered in separate answer book.
3. Marks on the right side suggest the total marks of that question.
4. Maximum time allotted for **SECTION – II** is 2 Hr 30 min.
5. Draw the figure where necessary.

SECTION-II

Q.1. Short answers (10 out of 11)

(10 × 2 = 20)

- a. Draw a labeled diagram of cell.
- b. Enlist the types of fracture and abnormal curvature of spine.
- c. Compare anatomy of male and female pelvis.
- d. Draw a well labeled diagram of long bone.
- e. Enlist the structural and functional classification of joints.
- f. List out type of Epithelium tissue with example each.
- g. Diagram of structural classification of neurons.
- h. List out planes, relative and directional terms of the body.
- i. Names of body membrane with example each.
- j. List out cranial bones.
- k. Explain anatomy of pelvic Girdle.

Q.2. Short Notes (4 out of 5)

(4 × 5 = 20)

- a. Explain stages of mitosis.
- b. Describes the type of cartilage.
- c. Enlist the type of synovial joint with example each.
- d. Differentiate between skeletal smooth and cardiac muscle.
- e. Explain types of bone with example each.

Q.3. Essay (1 out of 2)

(1 × 10 = 10)

- a. Elaborate the anatomy of respiratory system in details.
- b. Explain anatomy of Pelvic Girdle and pectoral Girdle.
