|            | a. external route                                                     |  |
|            | b. respiration                                                        |  |
|            | c. contagious infection                                               |  |
|            | d. All of the above                                                   |  |
| <b>4.</b>  | <b>Iron deficiency anaemia occurs due to deficiency of _____.</b>     |  |
|            | a. vitamin B12                                                        |  |
|            | b. intrinsic factor                                                   |  |
|            | c. iron                                                               |  |
|            | d. hemoglobin                                                         |  |
| <b>5.</b>  | <b>Osteosarcoma is a type of malignant neoplasia affecting _____.</b> |  |
|            | a. salivary gland                                                     |  |
|            | b. bones                                                              |  |
|            | c. hepatocytes                                                        |  |
|            | d. eyes                                                               |  |
| <b>6.</b>  | <b>Venous obstruction can produce infarcts termed as:</b>             |  |
|            | a. stagnant blood flow                                                |  |
|            | b. stagnant hypoxia                                                   |  |
|            | c. stagnant ischaemia                                                 |  |
|            | d. none of the above                                                  |  |
| <b>7.</b>  | <b><i>Candidiasis</i> is caused by _____.</b>                         |  |
|            | a. <i>Candida albicans</i>                                            |  |
|            | b. All <i>Candida</i> species                                         |  |
|            | c. None of the above                                                  |  |
|            | d. All of the above                                                   |  |
| <b>8.</b>  | <b>Release of histamine leads to _____.</b>                           |  |
|            | a. vaso constriction                                                  |  |
|            | b. vaso blockage                                                      |  |
|            | c. vaso dialation                                                     |  |
|            | d. all of the above                                                   |  |
| <b>9.</b>  | <b>A clean uninfected wound will heal by _____.</b>                   |  |
|            | a. secondary union                                                    |  |
|            | b. primary union                                                      |  |
|            | c. tertiary union                                                     |  |
|            | d. quaternary union                                                   |  |
| <b>10.</b> | <b>Pus is an example of _____.</b>                                    |  |
|            | a. purulent exudate                                                   |  |
|            | b. transudate                                                         |  |
|            | c. oedema                                                             |  |
|            | d. macrophages                                                        |  |

# CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY

## IV<sup>th</sup> Semester of BOP Examination

November 2019

### BOP404: Pathology

**Date: 26/11/2019    Day: Tuesday    Time: 10:15 am to 12:00 pm    Maximum Marks: 25**

#### **Instructions:**

1. There are two sections in the paper.
2. **SECTION –I** contains 2 Questions:
  - a. MCQs for 10 marks answered in the question paper itself, should be submitted within 15 minutes.
  - b. Short answers for 10 marks (to be answered in separate answer book)
3. **SECTION – II** contains only 1 Question of Short notes and Essays (to be answered in answer book)
4. Marks on the right side suggest the total marks of that question.
5. Maximum time allotted for both section is 2 hours.
6. Candidates who complete **SECTION – I (MCQs)** earlier than 15 minutes can collect main question paper immediately after handing over the **SECTION-I (MCQs)** question paper with answers.
7. Non-programmable calculators are only allowed.
8. Draw the figures where necessary.

#### **SECTION-I**

|             |                                   |                     |
|-------------|-----------------------------------|---------------------|
| <b>Q.1.</b> | <b>Short answers (5 out of 6)</b> | <b>(5 × 2 = 10)</b> |
| <b>a.</b>   | Define anaemia.                   |                     |
| <b>b.</b>   | Define repair.                    |                     |
| <b>c.</b>   | Define Virchow's triad.           |                     |
| <b>d.</b>   | Define oedema.                    |                     |
| <b>e.</b>   | Define infarction.                |                     |
| <b>f.</b>   | Define shock.                     |                     |

#### **SECTION II**

|             |                                                                              |                     |
|-------------|------------------------------------------------------------------------------|---------------------|
| <b>Q.2.</b> | <b>Short Notes (3 out of 5)</b>                                              | <b>(3 × 5 = 15)</b> |
| <b>a.</b>   | Describe the fate of acute inflammation and write about the systemic effect. |                     |
| <b>b.</b>   | Classification of neoplasia.                                                 |                     |
| <b>c.</b>   | Give general details about infection.                                        |                     |
| <b>d.</b>   | Interpret the diseased urine examination of a diabetic patient.              |                     |
| <b>e.</b>   | Write about hypersensitivity reactions.                                      |                     |
