

CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY
Master of Science in Information Technology (M.Sc.(IT))
Semester-III University Examination November 2019
MS 317 Web Development using Advanced Java

Date: 13.11.19, Wednesday**Time: 01.30 p.m. to 04.30 p.m.****Maximum Marks: 70****Instructions:**

1. Attempt both sections in separate answer books.
2. Figure to the right indicates full marks.
3. Make a suitable assumption when necessary.

SECTION- I**Q1 Do as directed. [11]**

1. PreparedStatement interface extends the _____ interface.
2. executeUpdate() returns ResultSet object. State True/False.
3. Servlet embeds HTML in Java. State True/False.
4. Which package contains HTTP specific interfaces and classes?
a. javax.servlet.http b. javax.http.servlet
5. List out any one key element of HTTP Response.
6. In get<datatype>() method, the index starts from _____.
7. A web container is the component of a web server that interacts with Java servlets. State True/False.
8. Write the name of any one interface implemented by the GenericServlet class.
9. The getRow() method of the ResultSet interface retrieves the current row number of the ResultSet pointer. State True/False.
10. HTTP Request line does not include the HTTP protocol and its version. State True/False.
11. Which JSP tag is used to place the content of another resource? (May be jsp, html or servlet)
a. jsp:forward b. jsp: include

Q2 Answer the following questions.

- [A] What is JDBC Driver? Explain the types of drivers available in JDBC. [06]
[B] Explain Statement and PreparedStatement with suitable example. [06]

OR**Q2 Answer the following questions.**

- [A] What is Container? Explain the steps taken by the container to handle the Servlet request. [06]
[B] Write the code of Servlet to read a form data, that includes Employee ID, Employee Name, Employee Designation, Employee Department. Display these details including number of leaves offered by the organization, the organization offers 30 Casual Leaves for 'Manager' and 20 Casual Leaves for 'Clerk'. [06]

Q3 Answer the following questions. (Any Three)**[12]**

- [A] Explain Hidden Form Field with example.
[B] Differentiate between forward and sendRedirect method.
[C] What is Deployment Descriptor file? Write an example of Deployment Descriptor file to map the servlet url.
[D] Explain JSP Life cycle in brief with diagram.
[E] List and explain briefly all the steps required to build a JDBC application.

SECTION – II

Q4 Do as directed. [11]

1. JSP is eventually compiled into Java servlets, you can do as much with JSP as you can do with Java servlets. State True/False.
2. Which page directive attribute should be used in JSP to generate a PDF page?
3. `_jspService()` method of `HttpJspPage` class should not be overridden. State True/False.
4. `getRequestDispatcher` is the method of _____ interface.
a. `ServletRequest` b. `ServletResponse`
5. List out any one key element of HTTP Request.
6. The `<jsp:scriptlet>` tag can be used only to declare the variables. State True/False.
7. Which is not a directive?
a. `include` b. `useBean`
8. JSTL stands for _____.
9. `GenericServlet` class can handle any type of request so that it is protocol-independent. State True/False.
10. _____ type of servlet uses `doGet()`, `doPost()`, `doHead()`, `doDelete()`, `doTrace()` methods.
11. `delims` attribute is used in the `<c:forEach>` tag. State True/False.

Q5 Answer the following questions.

- [A] What is Cookie? How it works? Write the advantages and disadvantages of Cookies. [06]
[B] What is `RequestDispatcher`? Explain the methods of `RequestDispatcher` in detail. [06]

OR

Q5 Answer the following questions.

- [A] What is URL Rewriting? Write pros and cons of it. Give an example for URL Rewriting. [06]
[B] Explain any six JSTL core tags. [06]

Q6 Answer the following questions. (Any Three)

- [A] What is JSTL? List and explain any three categories of tags provided by JSTL. [12]
[B] Differentiate between `ServletConfig` and `ServletContext` interface.
[C] List and explain briefly any four methods of `ResultSet` Interface.
[D] Explain the syntax and usage of JSP Scriptlet and Expression.
[E] Explain `FilterConfig` interface with its methods.
-
