7. What is botnet?

[B] Choose the correct answer from available options **[04]**

1. Sending large numbers of mails to the mail servers, which results into crashing is called _____.
(a) Phishing Attack (b) Vishing (c) Email Bombing (d) Industrial Spying
2. If you get an SMS of winning lottery of 1000000 Rs . It is an example of
a) Bottom Phishing (b) Smishing (c) Vishing (d) Swishing
3. Several cybercafés had installed the software called _____ for protecting the computers from prospective malware attacks
(a) ClearIt (b) Deep Freeze (c) Freeze All (d) SmartDelete
4. In login screen of e-banking it is safe to use _____
(a) Virtual keyboard (b) Hardware Keyboard (c) Smart keyboard (d) None of these

Q.2

[A] Explain about following classification of cybercrimes: **[06]**

- (a) Cybercrime against individual (b) Cybercrime against property (c) Cybercrime against society

[B] What is cybercrime? Explain the reasons for commission of cyber-crime. **[06]**

OR

Q.2

[A] Explain about any three common cyber threats. **[06]**

[B] Explain types of cloud computing. What are the advantages of cloud computing? **[06]**

Q.3

[A] Explain about following methods used for cybercrime: **[06]**

- (a) Proxy server (b) Anonymizer

[B] Explain about following key loggers: **[06]**

- (a) Hardware keylogger (b) Software keylogger

OR

Q.3

[A] Explain about following attacks on wireless network: [06]

(a) Sniffing (b) Spoofing

[B] Explain about following methods used for cybercrime: [06]

(a) Phishing (b) Password cracking

SECTION-II

Q.4 Answer the questions [11]

1. What is steganography?
2. What is Disk Cloning?
3. What is wireless?
4. What is cyber security?
5. What is the use of anti-key logger?
6. What is malicious code?
7. How many keys are required in symmetric key encryption?
8. Give any one example of Personally Identifiable Information (PII).
9. What is identity theft?
10. Write any one tip to secure your mobile phone being theft or stolen.
11. What is blue jacking?

Q.5

[A] Explain about following area for long-term protection of business: [06]

(a) Incident Response Plan (b) Disaster Recovery Plan

[B] Explain about following types of mobile computers: [06]

(a) Tablet PC (b) Capturer (c) Internet tablet

OR

Q.5

[A] Explain about following area for short-term protection of business: [06]

(a) Risk Assessment (b) Physical security

[B] Explain techniques of steganography. [06]

Q.6

[A] Explain advantages of digital evidence collection. [06]

[B] Explain in details about browser forensic. [06]

OR

Q.6

[A] What is asymmetric key cryptography? In RSA algorithm if $p=3$ and $q=7$ are given then find out value of encryption key e and decryption key d . [06]

[B] Write about any six sections of Offences and Penalties under IT Act. [06]
