

Instructions: 1. Figures to the right indicate full marks for that question.
2. Use separate answer book for each section.
3. Assume suitable data whenever necessary and mention them clearly.

SECTION 1

Q.1

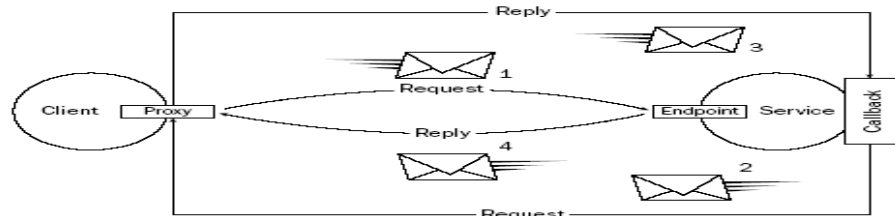

(A) Answer the following

[07]

1. What is the port number in following address:
<http://localhost/service1>
2. Explain interoperability with one suitable example.
3. Which part is not compulsory in SOAP message?
4. Pick odd one out from the following:
(a) Created (b) Opened (c) Creating (d) Closed
5. Define distributed computing.
6. Identify the machine name from the following address:
net.tcp://cmpica-100:9080/TestDemo3
7. List any one binding which is secured by default.

(B) Identify the concept in the following image and explain it.

[04]

Q.2

(A) Explain about endpoint with suitable example.

[06]

(B) Write in details about principles of Service Oriented Architecture (SOA)

[06]

OR

Q.2

(A) Write in details about channel in WCF.

[06]

(B) Explain in details about following message patterns with suitable examples:

[06]

- (i) Simplex (ii) Duplex

Q.3

(A) Explain about following programming methods in WCF with suitable example:

[06]

- (i) Declarative (ii) Configuration

(B) Discuss about (i) Client (ii) Service (iii) Intermediaries with proper diagrams and examples.

[06]

OR

Q.3

(A) Discuss about EndpointAddress class.

[06]

(B) Explain about following address formats in details:

[06]

- (i) Named Pipe Address (ii) Http Address (iii) IIS Address

SECTION 2

Q.4 Answer the following [11]

1. List any one communication object.
2. What is use of svcutil.exe utility?
3. What is the use of NET STOP command?
4. Generally_____initiates transaction.
5. Highest level of isolation is_____
6. Define volatile data.
7. Checking the hall ticket of student during the examination is an example of _____concept of security.
8. What is the use of Service Configuration Editor?
9. Explain authorization with suitable example.
10. What is the meaning of following code segment:
.....
[ServiceBehavior (IncludeExceptionDetailsInFaults=True)]
.....
11. List any one hosting option available in WCF.

Q.5

(A) Discuss about following ServiceBehaviors with suitable example: [06]

(i) InstanceContextMode (ii) ConcurrencyMode

(B) Explain about following components of service trace viewer: [06]

(i) Activity (ii) Project (iii) Message

OR

Q.5

(A) What is state transition? Explain about any two methods for state transition. Also explain about ICommunicationObject Interface. [06]

(B) Explain about following Nodes of Service Configuration Editor: [06]

(i) Services (ii) Bindings (iii) Advanced

Q.6

(A) How to troubleshoot WCF installation? [06]

(B) In which conditions queue can be useful? Explain basic working of the queue. [06]

OR

Q.6

(A) Explain about following message logging levels: [06]

(i) Malformed (ii) Service (iii) Transport

(B) Explain about hosting WCF service at: [06]

(i) Managed Code (ii) IIS (iii) Windows Service
