

**CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY
CHANGA**

B.Tech. (CL/EC/ME) Sem - I Examination, 2009-10

CL 102 Environmental Sciences

Date: 22-12-09, Tuesday

Time: 02 p.m to 05 p.m

Maximum Marks:70

Instructions:

1. Attempt all the questions.
2. Figures to the right indicate full marks.
3. Make suitable assumptions.

SECTION- I

- Q - 1** (A) Define the term Environmental Study and Write objectives of Environmental studies. (02)
(B) Explain Man – Environmental relationship. (02)
(C) Describe physical components of environment. (03)

- Q - 2** (A) Give general classification of pollutants and explain classification of pollutants based on its origin. (04)
(B) Give the term Environmental degradation and list out all possible types of Environmental pollution. (05)
(C) Enlist current Global Environmental issues and describe Acid-rain. (05)

OR

- Q - 2** (A) Explain the term Pollution and give general sources of pollution. (04)
(B) Describe the term Noise Pollution and sources of Noise pollution. (05)
(C) With neat sketch draw the temperature profile of Atmosphere. (05)

- Q - 3** (A) Write common effects of air pollution on human being. (04)
(B) Enlist Drinking Water quality standards used in India and describe them. (05)
(C) Describe sources and effects of water pollutants. (05)

OR

- Q - 3** (A) Give classification of water pollutants and describe organic water pollutants. (04)
(B) Describe Turbidity and Hardness as water quality parameter. (05)
(C) Describe the term Eutrophication. (05)

(P.T.O)

SECTION- II

- Q - 4 (A)** Define following (02)
(a) Ecological pyramid of energy.
(b) Autecology.

(B) Describe Food chain. (02)

(C) Explain Bio-Geo-Chemical cycles and their Environmental significance. (03)

Q - 5 (A) Explain Conventional and Non - Conventional resources. (04)

(B) Define Ecology and classify components of Ecosystem. (05)

(C) Explain causes and effects of deforestation. (05)

OR

Q - 5 (A) Explain Hydrological Cycle and its importance with neat sketch. (04)

(B) Show how energy "flows" in an ecosystem. (05)

(C) Explain environmental problem due to overexploitation of energy resources. (05)

Q - 6 (A) Explain demographic transition theory. (04)

(B) Describe the environmental impact due to overexploitation of water resources. (05)

(C) Compare Malthusian theory and optimum population theory. (05)

OR

Q - 6 (A) Define Human settlement and enlist environmental factors affecting it. (04)

(B) Enlist methods for population forecasting and explain how overpopulation is acting as pollutants. (05)

(C) Explain advantages and limitations of Non – Conventional energy resources. (05)
