

CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY

Bachelor of Technology (B Tech)

Semester - II Examination May 2010

B.Tech. (CE/EE/IT) Regular Exam &

B.Tech. (CL/EC/ME) Backlog Examination

CL102 Environmental Sciences

Date: 19.05.10, Wednesday

Time: 12:30p.m to 03:30p.m

Maximum Marks:70

Instructions:

1. Attempt all the questions.
2. Figures to the right indicate full marks.
3. Make suitable assumptions.

SECTION- I

- Q - 1 (A) Define environment in context of human being. Briefly describe components of the Environment. (02)
- (B) What is the impact of technology on environment? (02)
- (C) Draw the temperature profile of atmosphere. (03)
- Q - 2 (A) Explain general classification of pollutants. (04)
- (B) Enlist current Global Environmental issues and describe any one. (05)
- (C) What are the types and causes of the environmental pollution? (05)
- OR
- Q - 2 (A) Explain the effects of air pollution on human beings. (04)
- (B) Define noise. Enlist major sources of noise pollution and explain any one briefly. (05)
- (C) Which are the steps to be taken to reduce land pollution? (05)
- Q - 3 (A) Explain Physical characteristics of drinking water. (04)
- (B) Describe organic water pollutants. (05)
- (C) What is Eutrophication? What are the causes and effects of Eutrophication? (05)
- OR
- Q - 3 (A) What is global warming? Enlist its consequences. (04)
- (B) Describe TDS and Hardness as water quality parameter. (05)
- (C) Give classification of Air pollutants and describe classification according to state of matter. (05)

(P.T.O)

SECTION- II

- Q - 4 (A)** What is the concept of an eco-system? Write objectives of ecological studies. (03)
- (B)** Define ecology and synecology. (02)
- (C)** What is nitrogen fixation and denitrification? (02)

- Q - 5 (A)** Explain in detail renewable and non-renewable sources of energy. (06)
- (B)** Define ecological pyramid of energy. Classify components of ecosystem. (04)
- (C)** Write advantages and disadvantages of solar energy. (04)

OR

- Q - 5 (A)** Explain Hydrological cycle and its importance with neat sketch. (05)
- (B)** Describe the environmental impact due to overexploitation of the forest resources. (05)
- (C)** Enlist the application of solar energy and describe any one. (04)

- Q - 6 (A)** Explain demographic transition theory. (05)
- (B)** Enlist population theories. Explain factors governing human settlements. (05)
- (C)** Explain problems due to Overexploitation of ground water Resources. (04)

OR

- Q - 6 (A)** Give reasons for overpopulation and mention problems created by overpopulation. (05)
- (B)** Enlist the current problems of natural resources. Describe limitations of conventional energy resources. (05)
- (C)** Give classification of natural resources. Why do we conserve natural resources? (04)
