

CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY

First Semester of B. Tech. Examination (EC/ME/CL/CE/IT/EE)

December 2011

CS 101.01: Communication Skills – 1

Date: 06.12.2011, Tuesday

Time: 01:30 p.m. To 04:30 p.m.

Maximum Marks: 70

Instructions:

1. The question paper comprises of two sections.
2. Section I and II must be attempted in separate answer sheets.
3. Make suitable assumptions and draw neat figures wherever required.

SECTION - I

Q - 1 Make a list of various barriers to effective communication. Elaborate ANY TWO in detail with relevant examples. [07]

Q - 2 State the types of listening. Exemplify and elaborate any five. [14]

OR

Q - 2 Write short notes.

(a) Styles of communication [07]

(b) The process of communication [07]

Q - 3 Make a list of the Visual Aids used in a Presentation and show how they facilitate it. [14]

OR

Q - 3 (a) Explain the characteristics of a good listener. [07]

(b) Write a note on the purposes of a Presentation. [07]

SECTION - II

Q - 4 Read the following passage carefully and answer the questions given below. [07]

Many great inventions are greeted with ridicule and disbelief. The invention of the airplane was no exception. Although many people who heard about the first powered flight on December 17, 1903, were excited and impressed, others reacted with peals of laughter. The idea of flying an aircraft was repulsive to some people. Such people called Wilbur and Orville Wright, the inventors of the first flying machine, impulsive fools. Negative reactions, however, did not stop the Wrights. Impelled by their desire to succeed, they continued their experiments in aviation.

Orville and Wilbur Wright had always had a compelling interest in aeronautics and mechanics. As young boys they earned money by making and selling kites and mechanical toys. Later, they designed a newspaper-folding machine, built a printing press, and operated a bicycle-repair shop. In 1896, when they read about the death of Otto Lilienthal, the brother's interest in flight grew into a compulsion.

Lilienthal, a pioneer in hang-gliding, had controlled his gliders by shifting his body in the desired direction. This idea was repellent to the Wright brothers, however, and they searched for more efficient methods to control the balance of airborne vehicles. In 1900 and 1901, the Wrights tested numerous gliders and developed control techniques. The brothers' inability to obtain enough lift power for the gliders almost led them to abandon their efforts.

After further study, the Wright brothers concluded that the published tables of air pressure on curved surfaces must be wrong. They set up a wind tunnel and began a series of experiments with model wings. Because of their efforts, the old tables were repealed in time and replaced by the first reliable figures for air pressure on curved surfaces. This work, in turn, made it possible for them to design a machine that would fly. In 1903 the Wrights built their first airplane, which cost less than one thousand dollars. They even designed and built their own source of propulsion- a lightweight gasoline engine. When they started the engine on December 17, the airplane pulsed wildly before taking off. The plane managed to stay aloft for twelve seconds,

however, and it flew one hundred twenty feet.

By 1905 the Wrights had perfected the first airplane that could turn, circle, and remain airborne for half an hour at a time. Others had flown in balloons or in hang gliders, but the Wright brothers were the first to build a full-size machine that could fly under its own power. As the contributors of one of the most outstanding engineering achievements in history, the Wright brothers are accurately called the fathers of aviation.

Questions:

1. The idea of flying an aircraft was _____ to some people.
 - A. boring
 - B. distasteful
 - C. exciting
 - D. needless
 - E. answer not available
2. People thought that the Wright brothers had _____.
 - A. acted without thinking
 - B. been negatively influenced
 - C. been too cautious
 - D. had not given enough thought
 - E. acted in a negative way
3. The Wright's interest in flight grew into a _____.
 - A. financial empire
 - B. plan
 - C. need to act
 - D. foolish thought
 - E. answer not in article
4. Lilenthal's idea about controlling airborne vehicles was _____ the Wrights.
 - A. proven wrong by
 - B. opposite to the ideas of
 - C. disliked by
 - D. accepted by
 - E. opposed by
5. The old tables were _____ and replaced by the first reliable figures for air pressure on curved surfaces.
 - A. destroyed
 - B. canceled
 - C. multiplied
 - D. discarded
 - E. not used
6. The Wrights designed and built their own source of _____.
 - A. force for moving forward
 - B. force for turning around
 - C. turning
 - D. force to going backward
 - E. none of the above
7. Give a suitable title to the passage.

- Q - 5 (a) Develop a Paragraph on **TV advertisements and children**. [07]
(b) Define technical communication and show how it is different from general communication. [07]

OR

- Q - 5 (a) How does Body Language enhance a Presentation? [07]
(b) Charotar University of Science & Technology (CHARUSAT), Changa is in need of Professors in the department of computer engineering. Prepare a suitable resume stating your age, educational qualification, experience and expected salary. [07]

- Q - 6 (a) Fill in the blanks with appropriate forms of the verbs given in the brackets. [08]
1. Rajvee _____ to school every morning. (go)
 2. Look, Kaival, the train _____ on platform no. 01. (come)
 3. Yesterday afternoon, they _____ the children library. (visit)
 4. When we reached the theatre, *Rockstar* _____. (start)
 5. You _____ French now. (learn)
 6. We _____ not yet _____ our lunch. (take)
 7. Last night, I _____ that I was elected as the Chief Minister of Gujarat. (dream)

(b) Change the voice.

[06]

1. The Nobel Foundation awarded President Obama the Nobel Peace Prize.
2. A happy Thanksgiving is wished by me for everyone.
3. The acceptance letter from Harvard University was received by me last Tuesday.
4. The dog is fed by an old man.
5. The house will be built by the construction crew in five months.
6. Each student answered the question.

OR

Q - 6 (a) (A). Give one word substitutes for the following:

[08]

1. One who can speak two languages
2. One who works for free
3. One who thinks only of himself

(B) Give synonym for the following:

1. Obscure
2. Peculiar

(C) Fill in the blanks with the appropriate prepositions.

1. She spent the entire afternoon _____ phone.
2. They usually travel to Mumbai _____ plane.
3. My parents have been married _____ forty-nine years.

(b) Write a letter to your friend inviting him/her for the marriage function of your sister. State the details of the function. [06]
