

CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY

B.Tech. Computer Engineering Sem - III University Examination, 2009-10

CE – 203 Executive Information Systems (EIS)

Date: 20.05.11, Friday Time: 10:00 a.m to 01:00 p.m

Maximum Marks: 70

- Instructions:** (1) All questions are compulsory.
(2) Indicate clearly, the option you attempt along with its respective question number.
(3) Figures to right indicate marks
(4) Rough work is done in the last page of main supplementary, don't write anything on the question paper.

SECTION-I

Q-1 Answer the following questions.

1. List EIS roles and characteristics. 3
2. Discuss some of the common issues of Management Information System (MIS). 3
3. Describe the management control process. 2
4. Why there is a need for database in Management Information System (MIS)? 3

Q-2

- [A] What are some of the new roles Information Systems are playing in organization? 4
[B] What criteria would you consider to choose database of your choice for the development of CBIS (Computer Based Information System)? 4
[C] Explain the Marketing Information System and its function with the help of suitable examples. 4

OR

- [A] Explain the capabilities of an Executive Information System. Is it just a reporting system? 4
[B] Describe the role of governance in the four levels of an organization in determining the direction of the IT infrastructure. 4
[C] "The implementation of CBIS to replace manual systems generally requires grater formalization and more predetermination of rules for recording and providing information." Comment. 4

Q-3

- [A] What are some of the elements of managing and implementation of a new information system? 4
[B] Explain the uses and limitations of an Expert System. 4
[C] Differentiate: Centralized v/s decentralized organization. 4

OR

- [A] Explain KDD (Knowledge Discovery in Database) process in brief. 4
[B] What is a transaction? Write the process of Transaction Processing System (TPS) in detail. 4
[C] What benefits do group decision support systems provide to organization? 4

SECTION-II

Q-4

1. Write difference between structured and unstructured decision. 3
2. Discuss in detail various Customer Relationship Management Strategies. 4
3. How Expert System differs from Traditional System? 4

Q-5

- [A] What are the types of functions integrated by OAS (Office Automation System)? 4
- [B] Give the significance of the terms *Data integrity and consistency* with respect to database. 4
- [C] Explain the Decision making process in brief. How DSS would help in the overall process? 4

OR

- [A] Can it be possible to consider the Information as a resource? If yes, how to manage it? If no, give reasons. 4
- [B] Explain components of CBIS in general. What kind of infrastructural requirements are needed to have it? 4
- [C] What is Distributed System and how it is useful in EIS? 4

Q-6

- [A] Compare and contrast among EIS, DSS and MIS. 4
- [B] What are the essential features of systems analysis? 4

OR

- [B] Discuss the values affecting managerial decisions. 4
- [C] What do you mean by Business Logic? How it is captured? 4

OR

- [C] Differentiate: 4
 1. Database vs. Datawarehouse.
 2. SCM vs. CRM.
