

CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY

Fourth Semester of B. Tech. Examination (CL)

May 2014

CL 215 Building & Town Planning

Date: 09.05.2014, Friday

Time: 10:00 a.m. To 01:00 p.m.

Maximum Marks: 70

Instructions:

1. The question paper comprises of two sections.
2. Section I and II must be attempted in separate answer sheets.
3. Make suitable assumptions and draw neat figures wherever required.
4. Use of scientific calculator is allowed.

SECTION – I

Q – 1 (a) State True/False and Justify:

[07]

- (i) All the plans of proposed buildings are not approved by local authority.
- (ii) FSI indicates hidden value of land.
- (iii) Function of local authority is to keep watch on behavior of bye laws.
- (iv) Building bye laws are applicable when building occupancy is changed.
- (v) For the development of land, bye-laws are not applied to entire land.
- (vi) In vertical growth, horizontal distance to be left from vertical face of the building is known as "light plane".
- (vii) In city area, set back is necessary when height of building = 1.5 x width of street/road.

Q - 2 (a) Do as directed:

- (i) Explain privacy with neat sketch. [04]
 - (ii) Write a note on grouping [02]
- (b) Refer figure – 3, draw a sectional view @ AA with all details. Assume suitable data. [08]

OR

Q - 2 (a) Do as directed:

- (i) Write a note on prospect. [04]
 - (ii) Enlist principles of architecture. [02]
- (b) Draw a wall thickness diagram of a building shown in figure – 4 with suitable scale. [08]
Mention all the details in diagram. Assume suitable data if required and clearly mention it.

Q - 3 Refer figure-1 and plan a detached bungalow for plot no A-2 with FSI = 0.9. The requirements of client are; Living room, Verandah, Kitchen (including dining), Pooja room, Master bedroom (with toilet), Wash area (with separate excess from kitchen), [14]

WC, Bath, Store room. Show your planning with neat wall thickness plan, drawn with suitable scale.

OR

- Q - 3 Refer figure – 4, draw a sectional view @ AA with all details. Assume suitable data if required. [14]

SECTION – II

- Q - 4 (a) Do as directed: [07]

- (i) Define: Town planning
- (ii) During which period town planning has been done as per “Vishwakarmaprakash”?
- (iii) “First lay out the towns and then lay out the houses”, which book contains this statement for town planning?
- (iv) During Vedic period, main streets were called _____ oriented East-West.
- (v) Give full form of “CIDCO”
- (vi) Disuses: “Defective road system resulting in the formation of narrow streets and lanes”
- (vii) Justify: “In Country planning, village industries should not be encouraged.”

- Q - 5 (a) Discuss the growth in which, people have the tendency to keep centre of town as near as possible. [04]

- (b) Enlist data collected for master plan. [04]

- (c) Write a note on “Swastika type” town planning. [06]

OR

- Q - 5 (a) What is zone of transition? Enlist drawbacks of growth where development takes place in form of line. [04]

- (b) Write objective of master plan. [04]

- (c) Enlist forms of planning and discuss any two. [06]

- Q - 6 (a) Attempt the following: [04]

- (i) Enlist features of Faridabad town.
- (ii) Define: shopping centre, civic centre.

- (b) Draw a two point perspective view of 2 BHK shown in Figure: 2. Height of observer is 3 m and station point is at 3 m away from picture plane. Assume suitable data. [10]

OR

Q - 6 (a) Attempt the following:

[04]

- (i) Give the benefits of a growth in which density of population is more.
- (ii) Explain the guiding principle, which is used on the periphery of town.

(b) Draw a two point perspective view of 1 BHK shown in **Figure: 3**. Height of observer is 3.5 m and station point is at 4 m away from picture plane. Assume suitable data. [10]

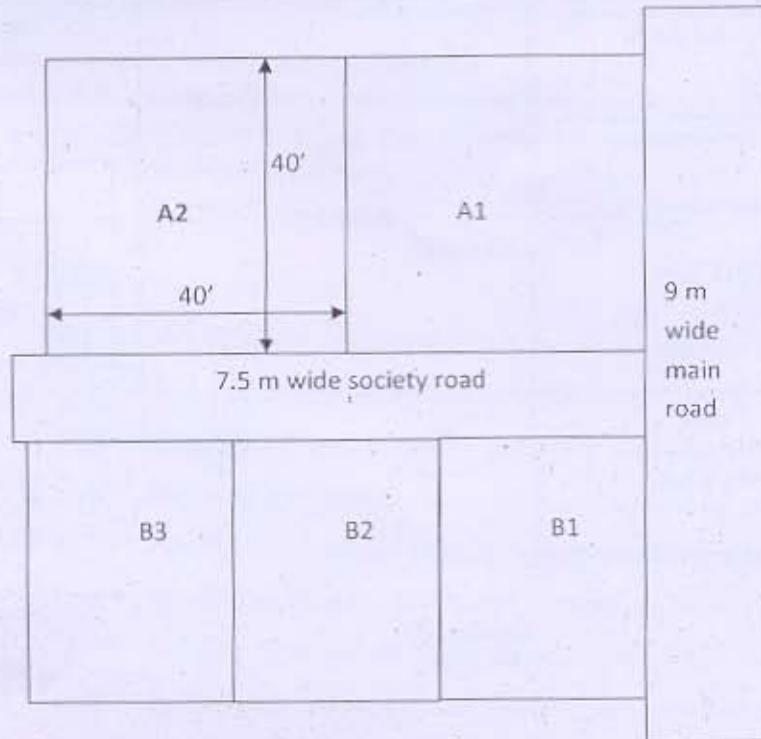

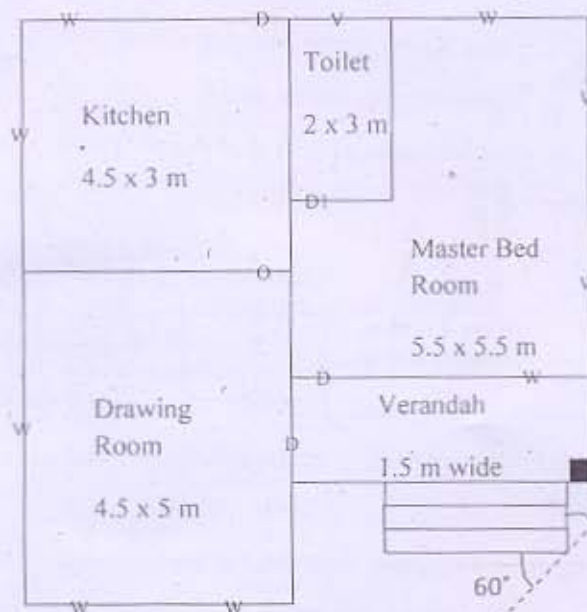

Figure: 1

Schedule of Opening:

D: 1.2 x 2.1 m

D1: 0.9 x 2.1 m

W: 1.5 x 1.2 m

V: 0.6 x 0.6 m

Column: 0.3 x 0.3 m

Riser: 0.15 m

Tread: 0.20 m

All walls are 0.3 m thick and partition walls are 0.1 m thick.

Figure- 2

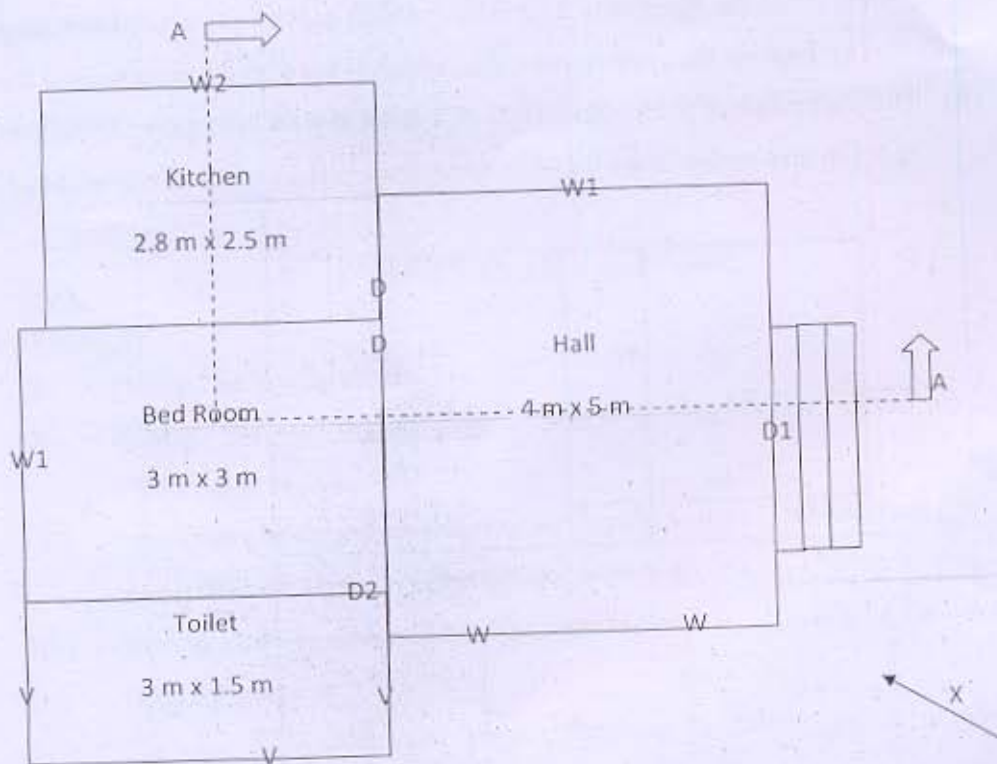

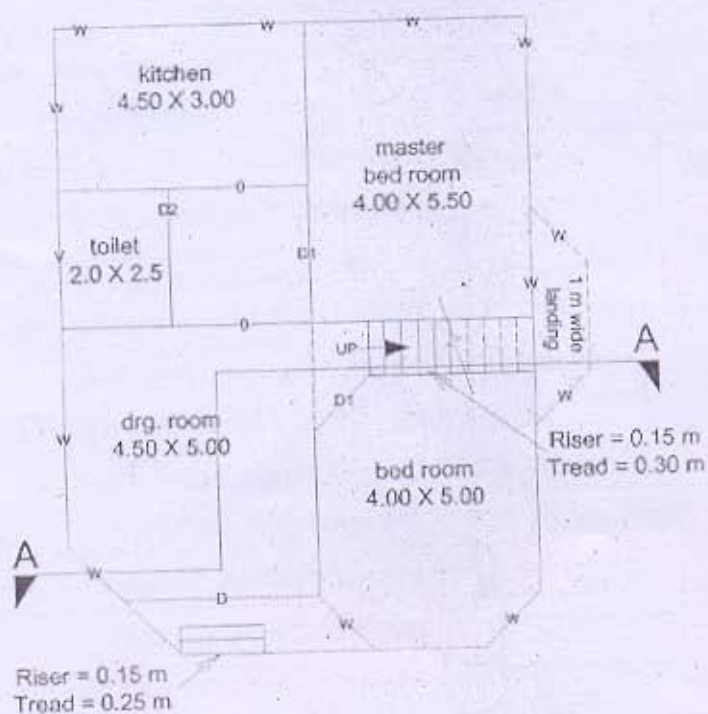

Figure: 3

Schedule of Opening:		
Notation	Size	Nos
D	1.5 X 2.0	1
D1	1.0 X 2.0	2
D2	0.9 X 2.0	1
O	1.2 X 2.0	2
W	1.0 X 1.0	11
V	1	
Note: All the walls have thickness = 0.30 m except toilet wall on which door- 'D2' is fixed.		

Figure: 4
