

No Candidate

CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY

Second Semester of M. Tech. Examination (CE/IT)

December 2013

CE716 MOBILE COMPUTING & WIRELESS NETWORK

Date: 28.12.2013, Saturday

Time: 10:00 am To 01:00 pm

Maximum Marks: 70

Instructions:

1. The question paper comprises of two sections.
2. Section I and II must be attempted in separate answer sheets.
3. Make suitable assumptions and draw neat figures wherever required.
4. Use of scientific calculator is allowed.

SECTION-I

Q-1 Answer the following questions.

- [A] How Robustness and Mobile Transparency does achieved in Wireless Communication? [11]
- [B] What are the features of Symbian OS? [2]
- [C] What are the different types of inter-frame space used in WLAN? What is the duration of each inter-frame space? [2]
- [D] List the applications of 3G. [2]
- [E] What are the differences and similarities between CDMA and 3G? [3]

Q-2 Answer the following questions.

- [A] Compare and Contrast: CDMA v/s GSM [12]
- [B] Explain process of Mobile IP Registration. [5]

OR

- [B] Explain various frame format of tunneling and encapsulation of Mobile IP. Write down the significance of each field. [7]

Q-3 Answer the following questions.(Attempt any Two)

- [A] What are the differences between wired network and wireless network with respect to routing? [12]
- [B] How are the frequencies divided among the different cells of Wireless LAN?
- [C] Draw and explain: IN Conceptual Model

SECTION-II

Q-4 Answer the following questions.

- [A] What are the Features of kernel of Palm OS? [11]
- [B] In TCP, What are the implication of Windows Size and MTU Size in Wireless network, if we use same parameters which is used in Wireline Network? [2]
- [C] What are the Design Constraints in development of Applications for Handheld Devices? [2]
- [D] Why is necessity of Transaction Oriented TCP? [2]
- [E] List Advantages of Wireless Adhoc Network. [3]

Q-5 Answer the following questions.

- [A] What are the several steps suggested in Indirect TCP when mobile station moves to other network. [12]
- [B] Draw and explain, Frame format of DLL Layer of 802.11 protocol. [5]

OR

- [B] Write down advantages and disadvantages of Indirect TCP. [7]

Q-6 Answer the following questions.(Attempt any Two)

- [A] What is hidden terminal and exposed terminal? Suggest your solution for hidden and exposed terminal. [12]
- [B] What are the advantages and disadvantages of Wireless LAN?
- [C] Write down the working of Snooping TCP and also write down its disadvantages.
