

CHAROTAR UNIVERSITY OF SCIENCE AND TECHNOLOGY (CHARUSAT)
FACULTY OF MANAGEMENT STUDIES (FMS)
BBA PROGRAMME
SEMESTER – I – UNIVERSITY EXAMINATION, MARCH 2018
BM105 INTRODUCTION TO LOGIC (OLD)
BM105.1 INTRODUCTION TO LOGIC (NEW)

Date: 30/03/2018, Friday

Time: 10.00 AM to 10.30 AM

Total Marks: 15

Student's ID No.									
Student's Name: _____									
Student's Sign : _____									
Supervisor's Name : _____									
Supervisor's Sign: _____									

Important Instructions:

- All questions are compulsory.
- This is a closed book examination.
- There are two sections in the question paper. Section – I contains Q. No.: 1 which is of 15 marks and Section – II contains total five questions wherein Q. No.: 2 to 5 are of 10 marks each and Q. 6 is a Case study of 15 marks.
- Section – I should be answered in the given question paper and Section – II should be answered in a separate answer book.
- Maximum time allotted for Section – I is 30 minutes. Answer Book for Section – II will be given when the Question Paper for Section – I is returned. However, candidates who complete Section – I earlier than 30 minutes, can collect Answer Book for Section – II immediately after handing over Section – I question paper.
- Figures on the right indicate marks for each question.

SECTION – I

Q.1 Objective Type Questions: This includes questions of the following types:

15

A) Match the Following:

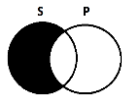

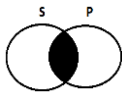

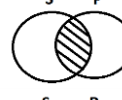

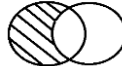

[6]

Q. No.:		Probable Answer		Write Your
(i)	Causal Argument	a)	Pattern of Deductive Reasoning	(i) -
(ii)	Not a Statement	b)	Pattern of Inductive Reasoning	(ii) -
(iii)	Statement	c)	Premise indicator word	(iii) -
(iv)	As a result	d)	Conclusion indicator word	(iv) -
(v)	Since	e)	Irrelevant statement	(v) -
(vi)	Argument by Elimination	f)	You wouldn't dare break your word to us, would you?	(vi) -
		g)	The most important thing in life is family.	
		h)	Hypothetical Syllogism	
		i)	Conditional statement	
		j)	Categorical statement	

B) Multiple-Choice Questions**[3]**

(Note: Encircle the correct answer)

vii. “Some S are P” can be diagrammatically written as?

- a) 
- b) 
- c) 
- d) 

viii. “France is in Europe and China is in Asia” is an example of;

- a) Not a statement
b) Compound statement
c) Simple statement
d) Incorrect statement
- ix.** “Parent to high school football coach: I admit my son Billy can’t run, pass, kick, catch, block, or tackle, but he deserves to make the football team. If he doesn’t make the team, he’s going to be an emotional wrecks, and he may even drop out of school.” is an example of;
- a) Appeal to Pity
b) Two Wrongs make a Right
c) Personal Attack
d) Look who is talking

C) Fill-in the Blanks**[3]**

(You may choose from following answers.)

Relevant Arguments	Causal Argument	Fallacies	Argument from Definition	Statements	Opinions
--------------------	-----------------	-----------	--------------------------	------------	----------

x. _____ are defects that weaken the argument.**xi.** “Alan has done a major heart surgery. Certainly Alan is a Heart Surgeon.” This is an example of _____.**xii.** _____ are not statements.**D) True or False****[3]**

(Note: Encircle the correct answer)

xiii. In Predictive arguments, prediction is defended with reasons. (True) or (False)**xiv.** A statement is true, false or controversial in nature. (True) or (False)**xv.** Hypothetical syllogism contains if – then relationships. (True) or (False)

Date: 30/03/2018, Friday **Time:** 10.30 AM to 01.00 PM **Total Marks:** 55

SECTION – II

- OR

- Page 1 of 3

Q.4 What are Fallacies? State and explain the classification of Fallacies under Fallacy of Relevance and Fallacy of Insufficient Evidence. **10**

OR

Q.4 A What are Inductive Arguments? State and explain the different Patterns of Inductive Reasoning. (05) **10**
 B Identify and state the Pattern of Inductive Reasoning present in the given Argument. Justify your answer.
 a. Cigarette smoking causes lung cancer. Therefore, because you have been a heavy cigarette smoker for many years, you will probably die of lung cancer. (2.5)
 b. In a random survey of one hundred students at Eastern State University, sixty-three said they believe in angels. Therefore, approximately 63 percent of students at Eastern State University believe in angels. (2.5)

Q.5 Diagram the given Short Arguments depending on the type of the Premises. **10**
 A Kids are very susceptible to the power of advertisers. Those kids who smoke tend to buy those brands that are most frequently advertised. It must be advertisement that influences kids to smoke. (05)
 B Since Mary visited a realtor in morning and her bank's mortgage department in afternoon, she must be planning on buying a home. (05)

Q.6 Identify and state Five different Arguments from the case along with the Premise/s or Conclusion/s and indicator words involved in it. **15**

Telecom operators including Bharti Airtel, Vodafone India, Idea Cellular and Reliance Jio Infocomm have been served notices for exaggerated credit claims under the Goods and Services Tax, said two people familiar with the development.

The indirect tax department has issued notices to all the major telecom companies, including tower companies, for claiming additional transitional credit for capital expenditure incurred under GST. The companies also got separate notices for adding education, Swachh Bharat and Krishi Kalyan cess to their transitional credit balances. The department suspects the companies may have claimed credit even in cases where they are not eligible, such as for capital expenditure incurred prior to July 1, 2017, when GST was introduced.

Under current rules, service companies can seek tax credit on capital expenditure — there was no such concept for services earlier — and use them to offset their GST liability. Telecom companies had claimed input credit for capital expenditure on erecting towers, cell sites and switching equipment.

The department alleged that telecom companies claimed credit even on capital expenditure partially incurred after GST was introduced. “In some cases, companies had completed 90% of the work but that did not reflect on their books. But 100% of the capital expenditure came on their books after July 1 as they can claim credit,” said a tax official.

Tax experts said validating the claims may be tough because revenue officials will have to go figure out the timeline of capital expenditure for thousands of cell sites. “The verification of transition credit claims would be a difficult task, depending on the industry and the nature of the claims. While the tax authorities should not be

subjected to undue hardship in the process,” said MS Mani, a partner at Deloitte India.

“GST legislation allows input tax credit of tax paid on immovable plant and machinery — but has specifically excluded mobile towers from the definition of plant and machinery for this purpose. The industry’s point of view — based on facts — is that towers are not immovable property, hence they can and are in fact easily movable from one place to another,” said Uday Pimprikar, partner, tax and regulatory services, EY India.

According to people aware of the matter, the department has disallowed about Rs. 4,000 crore claimed by top telecom companies. The average credit claimed by a company ranges between Rs 800 crore and Rs.1,000 crore, for which tax notices were served.

Detailed questionnaires emailed to Reliance Jio, Vodafone, Airtel and Idea on Monday did not elicit any response. ET reported on December 14 that telcos were under scrutiny for inflated tax credits.
