

CHAROTAR UNIVERSITY OF SCIENCE AND TECHNOLOGY (CHARUSAT)
FACULTY OF MANAGEMENT STUDIES (FMS)
BACHELOR OF BUSINESS ADMINISTRATION (BBA PROGRAMME)
SEMESTER – IV, UNIVERSITY EXAMINATION, MAY 2018
BM207.1 APPLICATION OF RESEARCH METHODOLOGY

Date: 01/05/2018, Tuesday

Time: 10.00 AM to 10.30 AM

Total Marks: 15

Student's ID No.									
Student's Name: _____									
Student's Sign : _____									
Supervisor's Name : _____									
Supervisor's Sign: _____									

Important Instructions:

- All questions are compulsory.
- This is a closed book examination.
- There are two sections in the question paper. Section – I contains Q. No.: 1 which is of 15 marks and Section – II contains total five questions wherein Q. No.: 2 to 5 are of 10 marks each and Q. 6 is a Case study of 15 marks.
- Section – I should be answered in the given question paper and Section – II should be answered in a separate answer book.
- Maximum time allotted for Section – I is 30 minutes. Answer Book for Section – II will be given when the Question Paper for Section – I is returned. However, candidates who complete Section – I earlier than 30 minutes, can collect Answer Book for Section – II immediately after handing over Section – I question paper.
- Figures on the right indicate marks for each question.

SECTION – I

Q.1 Objective Type Questions:

A) Match the following: (i – vi)

15
06

Q. No.:		Probable Answer Keys		Write Your Answer Here
i.	Quota Sampling	a)	Qualitative Data	i. -
ii.	T-Test	b)	Non-Probability Sampling	ii. -
iii.	Focus Group Interview	c)	Quantitative Data	iii. -
iv.	Regression	d)	Probability Sampling	iv. -
v.	Cluster Sampling	e)	Prediction Equation	v. -
vi.	Survey Questionnaire	f)	Comparison of Means	vi. -
		g)	Convenience Sampling	
		h)	Stratified Sampling	
		i)	Chi-Square	
		j)	Snow Ball Sampling	

B) Multiple-Choice Questions (vii – ix) (Note: Encircle the correct answer)

03

vii. Age group is _____ measure of data.

- a) Ratio
- b) Interval
- c) Nominal
- d) Ordinal

viii. Blood group is _____ measure of data.

- a) Ratio
- b) Interval
- c) Nominal
- d) Ordinal

ix. Runs scored by a batsman in a single test match is _____ measure of data

- a) Ratio
- b) Interval
- c) Nominal
- d) Ordinal

C) Fill-in the Blanks (x – xii) You may choose from the following answers:

03

Likert Scale	Semantic Differential Scale	Independent Sample	Paired Sample	Scale Variables	Categorical Variables
--------------	-----------------------------------	-----------------------	------------------	--------------------	--------------------------

- x.** Satisfaction, perception, attitude etc. are most widely measure by _____ scale in social science research.
- xi.** _____ t-test is used for comparing mean values for pre-test and post-test.
- xii.** Correlation can always be performed on _____.

D) True or False (xiii – xv) (Note: Encircle the correct answer)

03

- xiii.** Random sampling is used when the population is unknown.
(True) or (False)
- xiv.** Depth Interview is a type of Quantitative research method.
(True) or (False)
- xv.** The variable depending on another variable is termed as 'Dependent Variable'.
(True) or (False)

CHAROTAR UNIVERSITY OF SCIENCE AND TECHNOLOGY (CHARUSAT)
FACULTY OF MANAGEMENT STUDIES (FMS)
BACHELOR OF BUSINESS ADMINISTRATION (BBA PROGRAMME)
SEMESTER – IV, UNIVERSITY EXAMINATION, MAY 2018
BM207.1 APPLICATION OF RESEARCH METHODOLOGY

Date: 01/05/2018, Tuesday

Time: 10.30 AM to 01:00 PM

Total Marks: 55

Note: - (i) All questions are compulsory.

(ii) This is a closed book examination.

(iii) There are two sections in the question paper. **Section – I** contains Q. No.: 1 of 15 marks and **Section – II** contains total five questions where in Q. No.: 2 to 5 are of 10 marks each and Q. 6 is a Case study of 15 marks.

(iv) **Section – I** should be answered in the given question paper and **Section – II** should be answered in a separate answer book.

(v) Maximum time allotted for **Section – II** is 150 minutes.

(vi) Figures on the right indicate marks for each question.

SECTION – II

Q.2 ‘Research, is the systematic gathering and interpretation of information about individuals or organizations using statistical and analytical methods and techniques of the applied social sciences to gain insight or support decision making’. Do you agree? Justify your answer keeping research process in context. **10**

OR

Q.2 There are four basic methods by which a researcher can gather exploratory / Qualitative data. Explain each of them briefly with suitable examples. **10**

Q.3 Consider any hypothetical examples of your choice and explain sampling techniques in detail. **10**

Q.4 There are three types of typewriters available in the organization. A researcher believes that all three types of typewriters are having the same typing speed (number of words typed per minute). Researcher had gathered the required data and performed the analysis. As an output, following result had been generated: **10**

ANOVA Statistics for Typing Speed					
	Sum of Squares	Degrees of Freedom	Mean Square	F	Sig.
Between Groups	83.25	2	41.625	3.507	0.049
Within Groups	249.25	21	11.869		
Total	332.50	23			

You are required to:

- Identify the test
- Frame the hypothesis
- Interpret the result based on the output.

OR

Q.4 Read the following title carefully: **10**
“A Study of Factors Influencing Students’ Selection of B-School in the State of Gujarat”.
You are required to prepare a research model by clearly stating its objectives, respondents and assumption, if any.

- Q.5** Design a questionnaire to measure students' satisfaction level with sports facilities in the institute. Include demographic variables as required. Justify the use of variables and questions to measure satisfaction. **10**
- Q.6** Parle Ltd. is a leading manufacturing company of biscuits in FMCG sector. They have recently changed the packaging of 'Hide and Seek' biscuits. The objective behind the move was to increase sales of the biscuit. To measure the impact of the move, they have gathered sales data of previous month (Old Packaging) and sales data of following month (New Packaging). Refer to Table:1 for output. **15**

Table:1

Paired Sample Statistics						
		Paired Difference				
		Mean	Std. Dev	t	df	Sig. (2-tailed)
Pair-1	Sales in the following month – Sales in the previous month	2.75	4.71	1.65	7	0.143

You are required to:

- Identify the test, dependent variable, independent variable, cause, effect, type of research design
- Frame the hypothesis
- Interpret the result based on the output.
