

CHAROTAR UNIVERSITY OF SCIENCE AND TECHNOLOGY

**Bachelor of Science- Nursing
SEMESTER-I/1ST YEAR [BACK LOG]**

University Examination 2011-12

Subject: Nutrition and Biochemistry (Subject Code: NR102)

Date: 15/05/2012

Day: Tuesday

Time: 10.00 a.m. To 01.00 p.m.

Maximum Marks-75 Marks

INSTRUCTIONS

- ❖ Write each section in separate answer booklet.

Section-I (Nutrition and Biochemistry)

Maximum Marks- 15

Q. 1 Match the following

[5×1=5]

	Group A	Answers	Group B
1	Vitamin C		a. Poly unsaturated fatty acids
2	Linoleic acid		b. Obesity
3	Sodium chloride		c. Ascorbic acid
4	Meat hygiene		d. Hypertension
5	Cholesterol		e. Anthrax

True or False

[4×1=4]

6. Canning is a process of food preservation []
7. Potassium chloride is not a composition of ORS []
8. ATP is the energy currency of cell []
9. Vitamin D promote intestinal absorption of calcium []

Multiple choice questions

[6×1=6]

10. ICDS stands for
a. International child development scheme
b. Indian child development scheme
c. Integrated child development scheme
d. Indian child development society
11. Absorption of fats occur mainly in
a. Stomach
b. Duodenum
c. Jejunum
d. Ileum
12. Major site of urea synthesis is
a. Brain
b. Liver
c. Kidney
d. Muscles
13. Which of the carbohydrate is a monosaccharide
a. Glucose
b. Iron
c. Sucrose
d. Maltose
14. The highest content of vitamin C is present in
a. Orange
b. Lemon
c. Mango
d. Amla
15. Renal calculi may be deficiency of
a. Vitamin A
b. Vitamin K
c. Vitamin D
d. Folic acid

CHAROTAR UNIVERSITY OF SCIENCE AND TECHNOLOGY

**Bachelor of Science- Nursing
SEMESTER-I/1ST YEAR [BACK LOG]**

University Examination 2011-12

Subject: Nutrition and Biochemistry (Subject Code: NR102)

Date: 15/05/2012

Day: Tuesday

Time: 10.00 a.m. To 01.00 p.m.

Section- II (Nutrition)

Maximum Marks-36

- Q.2. a. Define balanced diet [2+3+6=11]
b. Components of balanced diet
c. Make a menu plan for diabetic patient
- Q.3. a. Enlist methods of cooking [3+7=10]
b. Explain any two
or
- Q.3. a. Define PEM [2+8=10]
b. Differentiate Marasmus and Kwashiorkor
- Q.4. Short notes (Any five) [5×3=15]
a. Dietary sources and functions of calcium
b. Essential amino acids
c. Nutritional problem in India
d. Mid day meal programme
e. Vitamin C
f. Functions of water in body

Section- III (Biochemistry)

Maximum Marks- 24

- Q. 5. Four difference between prokaryote and eukaryote cell 4
Or
- Q.5. Sources, functions and clinical importance of Iron 1+1+2=4
- Q.6. Glycolysis pathway in cell 10
Or
- Q.6. a. Define lipid
b. Classification of lipid
c. Biomedical importance of lipid 2+4+4=10
- Q.7. Short notes (Any two) 2×5=10
a Structure and functions of cell membrane
b. Regulation of blood glucose level
c. Chromatography
