

CHAROTAR UNIVERSITY OF SCIENCE AND TECHNOLOGY

FIRST SEMESTER B. SC. NURSING EXAMINATION

April - 2018

NR 102.01 –Nutrition and Biochemistry

Date & Day: 04.04 .2018, Wednesday Time: 10.00 am To 10.30 am Maximum Marks-15

SECTION-I

Q.1. Multiple choice questions: Write the correct answers in the given box. (1X15= 15)

I. Food item rich in fiber among the following is

- | | | |
|----------|----------|--------------------------|
| a. Sugar | c. Apple | ☐ |
| b. Beans | d. Lemon | |

II. Patient with cardiovascular disease and kidney disease are usually asked to take

- | | | |
|--------------------------|----------------------|--------------------------|
| a. Low carbohydrate diet | c. Low residual diet | ☐ |
| b. Low sodium diet | d. High sodium diet | |

III. Formulas to regulate the quality of food is called as

- | | | |
|----------------------|-------------------|--------------------------|
| a. Food formulas | c. Food standards | ☐ |
| b. Food adulteration | d. Food scarcity | |

IV. Deficiency of protein in the presence of adequate calorie is known as

- | | | |
|----------------|-------------|--------------------------|
| a. Beri beri | c. Marasmus | ☐ |
| b. Kwashiorkor | d. Anemia | |

V. Which among the following is considered as good cholesterol?

- | | | |
|---------|-----------------|--------------------------|
| a. HDL | c. LDL | ☐ |
| b. VLDL | d. Chylomicrons | |

VI. All are moist heat method of cooking EXCEPT

- | | | |
|--------------|-------------|--------------------------|
| a. Simmering | c. Boiling | ☐ |
| b. Poaching | d. Grilling | |

VII. The RDA to be increased for lactating mother during first six months after delivery is

- | | | |
|----------|----------|--------------------------|
| a. + 200 | c. + 300 | ☐ |
| b. + 500 | d. + 600 | |

VIII. Which among the following food is considered as complete protein?

- | | | |
|-----------|------------|--------------------------|
| a. Milk | c. Cereals | ☐ |
| b. Pulses | d. Egg | |

IX. Food items rich in carbohydrates and fats are termed as

- | | | |
|------------------------|------------------------|--------------------------|
| a. Energy giving foods | c. Body building foods | ☐ |
| b. Protective foods | d. Dangerous foods | |

X. Activation of _____ Vitamin requires UV light

a. A

c. D

b. E

d. K

☐

XI. Apoprotein Apo B48 is present on _____

a. Chylomicron

c. VLDL

b. LDL

d. HDL

☐

XII. Which organelle is called the suicidal bag

a. Mitochondria

c. Ribosomes

b. Golgi apparatus

d. Lysosomes

☐

XIII. What antibody has the largest structure

a. IgM

c. IgG

b. IgE

d. IgD

☐

XIV. What is the end product of glucose oxidation

a. carbon dioxide

c. carbon monoxide

b. Nitric oxide

d. nitrogen dioxide

☐

XV. Special group present in amino acid arginine _____

a. Imidazole

c. Indole

b. Guanidinium

d. Hydroxyl

☐

CHAROTAR UNIVERSITY OF SCIENCE AND TECHNOLOGY

FIRST SEMESTER B. SC. NURSING EXAMINATION

April - 2018

NR 102.01 –Nutrition and Biochemistry

Date & Day: 04.04 .2018, Wednesday Time: 10.30 am To 01.00 pm Maximum Marks-60

Instructions

- ❖ Write each section in separate answer booklet.
- ❖ Draw neat labeled diagram wherever necessary.

SECTION-II

Maximum Marks: 36

- Q.2. A.** Classify foods based on nutritive value with suitable examples **[5+5=10]**
B. Explain the process of digestion of fat
- Q.3. A.** Define balanced diet
B. Write down the methods of cooking with suitable examples. **[2+4+4=10]**
C. What are the advantages and disadvantages of RDA.

OR

- Q.3. A.** Define essential and non-essential amino acids **[2+4+4=10]**
B. Write down the difference between marasmus and Kwashiorkor
C. Write down how you will prevent protein energy malnutrition
- Q.4. Answer Any Four of the following: [4X4=16]**
A. Write a note on basal metabolic rate.
B. Functions and deficiency disorders of Vitamin A
C. Write down the sources and distribution of body water.
D. Steps in calculation of balanced diet
E. Define food adulteration. Write down the effects of food adulteration on health

Section-III

Maximum Marks: 24

- Q.5. A.** Describe urea cycle. **[4+6=10]**
B. Write down the dietary sources, structure, daily requirements, absorption, storage, biochemical functions and Deficiency disorders of vitamin D
- Q.6.** Explain the pathways showing complete oxidation of Glucose as well as give it's Energetics **[8]**

OR

- Q.6. Write shorn note on [4 +4 =8]**
A. Nucleus and Ribosomes
B. LDL and HDL
- Q.7. Answer Any Two of the following: [2X3=6]**
A. Define minerals and write down the classification of minerals.
B. Explain primary and secondary immune response.
C. Outline reactions of Glycogenolysis.
