

CHAROTAR UNIVERSITY OF SCIENCE AND TECHNOLOGY

Bachelor of Science- Nursing SEMESTER-III

University Examination Dec.2011

Subject: Pharmacology, pathology and Genetics (paper code: NR202)

Date: 22/12/2011 Day: Thursday Time: 10.00 a.m. To 01.00 p.m.

Maximum Marks-15 Marks

STUDENT ID NO. _____

Section-I

Write your answer below the question at appropriate place.

Q. 1 Match the following:

- | | |
|----------------------|--------------------|
| 1) Insulin | a) CTZ |
| 2) Oral hypoglycemic | b) Aldehydes |
| 3) Haematinics | c) Insulin |
| 4) Emetics | d) Animals |
| 5) Disinfectants | e) Cyanocobalamine |

Answer:

- 1).....
- 2).....
- 3).....
- 4).....
- 5).....

Choose the correct answer:

6) Drug used as an acidifier in urinary system:

- | | |
|-----------------------------|---------------------------|
| a. Alluminium hydroxide gel | b. Betaine hydrochloride |
| c. Sodium citrate | d. Sodium bicarbonate () |

7) Abbreviation "Pc" refers to a dose to be taken:

- | | |
|--------------------|----------------------|
| a. Two times a day | b. Three times a day |
| c. After meals | d. Before meals () |

[P.T.O.]

8) Drug used for de-addiction:

- a. Disulfuram
 - b. Diclofenac
 - c. Salbutamol
 - d. Chloroquine
- ()

9) Adaptation of cell to injury includes

- a. Atrophy
 - b. Hypertrophy
 - c. Hyperplasia
 - d. All
- ()

10) Krukenberg tumor is

- a. Ovarian tumor
 - b. shows signet ring cells
 - c. mucinous tumor
 - d. All of the above
- ()

11) Normal hydrostatic pressure is

- a. 25 mm of mercury
 - b. 10 mm of mercury
 - c. 58 mm of mercury
 - d. 35 mm of mercury
- ()

12) Causes of cell injury are

- a) Hypoxia
 - b) Chemical and drugs
 - c) Microbiologic agent
 - d) Immunological injury
 - e) All of the above
- ()

13) Grey hepatization seen in:

- a) Bronchitis
 - b) Emphysema
 - c) Pneumonia
 - d) Lung carcinoma
- ()

14) Genetics is the study of:

- (a) Genes
 - (b) Heredity
 - (C) Variations
 - (d) All of the above
- ()

15) Which of the following is the correct sequence in **mitotic** phase?

- (a) Prophase → Anaphase → Metaphase → Telophase
 - (b) Metaphase → Prophase → Anaphase → Telophase
 - (c) Prophase → Metaphase → Anaphase → Telophase
 - (d) Prophase → Metaphase → Telophase → Anaphase
- ()

CHAROTAR UNIVERSITY OF SCIENCE AND TECHNOLOGY

Bachelor of Science- Nursing
SEMESTER-III

University Examination Dec.2011

Subject: Pharmacology, pathology and Genetics (paper code: NR202)

Date: 22/12/2011 Day: Thursday Time: 10.00 a.m. To 01.00 p.m.

Maximum Marks-60

Use separate answer sheet for each section.

Section-II (Pharmacology)

Q.2 Write a detailed note on life cycle of the malarial parasite? Classify the drugs used to treat malaria with short notes on each class used? (10 marks)

Q.3 Explain process to be followed in manufacturing, labeling, storage, sales, import and care to be taken in case of homeopathic medicines? (10 marks)

(OR)

Q.3 Classify types of convulsions occurring in patients? Classify various drugs used and explain pharmacology of one drug in each class?

Q. 4 Answer any four of the following: (10 marks)

- a) Define Prodrug with an example and its importance?
- b) Give a short note on anti-scabies drugs?
- c) What is the use of antacid? List out various classes of drugs used as antacid?
- d) What are tranquilizers? Explain one drug in detail?
- e) Write down short notes on cardio tonics?

Section-III (Pathology and Genetics)

Q. 5 Explain mechanism and consequences of thrombosis. (10 marks)

Q.6 Explain in details the morphological changes of Myocardial Infarction (Macroscopic and microscopy) (10 marks)

OR

Q.6 Define Pneumonia? Explain in details Lobar Pneumonia?

Q.7 Write a short note on (Any two) (10 marks)

- a) ABO blood grouping and Rh factor incompatibility in humans
- b) Infertility: Causes and Treatment
- c) Chromosomal abnormalities
