

SECTION-1

Q.1 Multiple choice questions: Tick (✓) on the correct answer (1X15= 15)

- I. Pharmacokinetics is refers to
 - a. The study of biological and therapeutic effects of drugs
 - b. The study of absorption, distribution, metabolism and excretion of drugs
 - c. The study of mechanisms of drug action
 - d. The study of methods of new drug development
- II. An antagonist is a substance that:
 - a. Binds to the receptors and initiates changes in cell function, producing maximal effect
 - b. Binds to the receptors and initiates changes in cell function, producing submaximal effect
 - c. Interacts with plasma proteins and doesn't produce any effect
 - d. Binds to the receptors without directly altering their functions
- III. Which of the following opioid agents is used in the treatment of acute opioid overdose?
 - a. Pentazocine
 - b. Methadone
 - c. Naloxone
 - d. Remifentanyl
- IV. Indicate the drug belonging to proton pump inhibitors:
 - a. Pirenzepine
 - b. Ranitidine
 - c. Omeprazole
 - d. Trimethaphan
- V. Pick out the drug belonging to anticoagulants of direct action:
 - a. Aspirin
 - b. Heparin
 - c. Dicumarol
 - d. Phenprocoumon
- VI. Which of the following anti anginal agents is a calcium channel blocker?
 - a. Nitroglycerin
 - b. Dipyridamole
 - c. Minoxidil
 - d. Nifedipine
- VII. All of the following are central acting antihypertensive drugs EXCEPT:
 - a. Methyldopa
 - b. Clonidine
 - c. Moxonidine
 - d. Minoxidil
- VIII. Dermatitis, diarrhoea and dementia are characteristics of:
 - a. Dry beriberi
 - b. Pyridoxine deficiency
 - c. Scurvy
 - d. Pellagra

PTO

- IX. One of the following virus does not produce clinical effect on fetus
- a. Influenza virus
 - b. H1N1
 - c. Chlamydia virus
 - d. HIV
- X. Abnormality of _____ enzyme cause alkaptonuria
- a. Tyrosinase
 - b. Arginase
 - c. Phenylalanine hydroxylase
 - d. Homogentisate 1,2- dioxygenase
- XI. Metaplasia means:
- a. Inflammatory reaction
 - b. Conversion to differentiated epithelium
 - c. Increase in cell size
 - d. Metastatic calcification
- XII. Hematuria refers to:
- a. Blood in sputum
 - b. Blood in stool
 - c. Blood in urine
 - d. Blood in vomit
- XIII. Inflammation of liver is known as:
- a. Pancreatitis
 - b. Meningitis
 - c. Hepatitis
 - d. Encephalitis
- XIV. Hydrothorax is accumulation of
- a. Pleural cavity
 - b. Peritoneal cavity
 - c. Kidney
 - d. Meninges
- XV. Decrease in Platelet count is known as:
- a. Thrombocytosis
 - b. Thrombocythemia
 - c. Leukemia
 - d. Thrombocytopenia

CHAROTAR UNIVERSITY OF SCIENCE AND TECHNOLOGY

Third Semester of B.Sc. Nursing University Examination

May 2018

NR202.01 PHARMACOLOGY, PATHOLOGY & GENETICS

Date & Day: 14/05/2018 & Monday Time – 10:30 am to 1:00 pm Maximum marks- 60

INSTRUCTIONS

❖ **Write each section in separate answer booklet.**

SECTION II

Q.2 Enumerate various routes of administration of drugs and describe advantage and disadvantage of parental route. **(10)**

Q. 3 Answer the following.

- a) Write down classification of drugs used in Asthma **(3)**
- b) Write down pharmacological action of one of the each class. **(7)**

OR

Q.3 Answer the following.

- a) Write down definition of pharmacodynamics **(2)**
- b) Write down sources of drugs with example **(3)**
- c) Write down nursing management of patient with ingested poisoning **(5)**

Q. 4 Answer ANY TWO of the following **(2X5=10)**

- a) Write down classification of aminoglycoside and explain uses of it
- b) Write down on Injection lasix and Role of nurse while administration of diuretics drug
- c) Write down on Digoxin

SECTION III

Q.5 Answer the following.

- a) Write down definition of Myocardial infarction. **(3)**
- b) Write down mechanism and pathogenesis in detail. **(7)**

OR

Q.5

- a) Write down definition of Acute Inflammation. **(3)**
- b) Write down signs, causes and pathogenesis of acute inflammation **(7)**

Q.6 Answer ANY TWO of the following **(2X5=10)**

- a) Write down on liver cirrhosis
- b) Write down on Meningitis
- c) Write down Difference between benign and malignant tumors

Q.7 Answer ANY TWO of the following **(2X5=10)**

- a) Write down on Sickle cell Anemia
- b) Write down on gene therapy and explain briefly about vectors used in gene therapy
- c) Write down on sex-linked recessive inheritance; draw a label diagram showing marriage between normal woman and color-blind man.
