

CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY

VI- Semester of B.Sc. (Microbiology) Examination April 2019

Course code & Name MI604: Medical Microbiology

Date: 29/04/2019 Day: Monday Time: 1: 30 PM To 1:50 PM Maximum Marks: 10

MCQ

Important Instructions:

- Tick the correct answer and it should be written in question paper itself.
- Use of non-programmable calculator is allowed.

Q I	Choose the correct answer for the following questions.		10
1.	PPD test is diagnostic test for the disease caused by		
	(i) <i>Treponema palladium</i>	(ii) <i>Mycobacterium tuberculosis</i>	
	(iii) <i>Mycobacterium leperae</i>	(iv) <i>Mycobacterium avium</i>	
2.	Which of the following disease is dubbed as “Black death”?		
	(i) Syphilis	(ii) HIV	
	(iii) Dengue	(iv) Plague	
3.	Which of the following is associated with antibiotic induced diarrhoea?		
	(i) <i>Clostridium difficile</i>	(ii) EPEC	
	(iii) <i>Vibrio cholerae</i>	(iv) <i>Salmonella Typhimurium</i>	
4.	Which of the following is not associated with bioterrorism?		
	(i) <i>Clostridium botulinum</i>	(ii) <i>Yersinia pestis</i>	
	(iii) <i>Bacillus anthrax</i>	(iv) <i>Streptococcus pyogenes</i>	
5.	Match the following		
	(i) <i>Staphylococcus aureus</i>	a) Traveller’s diarrhea	
	(ii) <i>Streptococcus pyogenes</i>	b) Food poisoning	
	(iii) ETEC	c) Necrotizing fasciitis	
	(iv) <i>Clostridium botulinum</i>	d) The scalded skin syndrome	
	(i) i)-d; ii)-a; iii)-b; iv)- c	(ii) i)-d; ii)-c; iii)-a; iv)- b	
	(iii) i)-d; ii)-c; iii)-b; iv)- a	(iv) i)-c; ii)-d; iii)-a; iv)- b	
6.	“Typhoid Mary ” was an asymptomatic carrier of the disease caused by		
	(i) <i>Salmonella Typhimurium</i>	(ii) <i>Vibrio cholerae</i>	
	(iii) <i>E.coli</i>	(iv) <i>Shigella dysenteriae</i>	
7.	Which of the following mode of transmission of an infectious disease is termed as vertical		

	transmission?		
	(i) Through food	(ii) Sexually transmitted	
	(iii) Through fomite	(iv) Through Mother to her child	
8.	Spastic paralysis is caused by toxin produced by which of the following organism?		
	(i) <i>C.difficile</i>	(ii) <i>C.perferigenes</i>	
	(iii) <i>C.tetani</i>	(iv) <i>C.botulinum</i>	
9.	<i>Streptococcus pyogenes</i> when streaked on blood agar plate gives ___ zone of haemolysis		
	(i) α	(ii) β	
	(iii) γ	(iv) δ	
10.	Which of the following part of the alimentary canal has maximum occupancy by bacteria?		
	(i) Ileum	(ii) Stomach	
	(iii) Oesophagus	(iv) Large intestine	

CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY**VI- Semester of B.Sc. (Biochemistry) Examination April 2019****Course code & Name MI604: Medical Microbiology****Date: 29/04/2019****Day: Monday****Time: 1: 50 PM To 3:30 PM****Maximum Marks: 25****Instructions:**

1. Section I and II must be attempted in SINGLE ANSWER SHEET.
2. Make suitable assumptions and draw neat figures wherever required.
3. Use of non-programmable calculator is allowed.
4. Show necessary calculations.

SECTION -I		10
Q - II Answer the following questions as directed		
Q- II (A)	Briefly describe (Any two) a) The contribution of immune response in developing disease caused by <i>Mycobacterium tuberculosis</i> b) Describe the pathogenesis of Syphilis. c) Antigenic structures of <i>N.gonorrhoeae</i> .	6
Q- II (B)	Answer any two a) Why is pseudomembranous colitis often seen in patients on prolonged treatment of antibiotics? b) Write a short note on the post-streptococcal disease. c) Briefly describe the antigenic structures of the family <i>Enterobacteriaceae</i>	4
Q- II	SECTION -II	15
Q-III A)	Define the following (Any five) a) Virulence b) Invasion c) Nosocomial Infection d) Endemic disease e) Septic shock f) Asymptomatic carrier	5
Q- III B)	With an appropriate diagram describe any two of the following a) Entry of <i>Shigellae</i> in intestinal epithelial cells. b) Antigenic toxins and enzymes produced by <i>Streptococcus pyogenes</i> c) Mode of action of toxin produced by <i>Vibrio cholerae</i>	6
Q- III C)	Answer any two a) What is the role of antigenic structure in transmission of the disease caused by <i>Yersinia pestis</i> . b) Write a short note on disease caused by <i>Clostridium perfringens</i> c) Describe the role of microflora.	4
