

CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY

1st Semester of B. Pharm. Examination

University Theory Examination March 2018

PH113/PH122 Elementary Pharmacognosy

Date: 26.03.2018 ,Monday Time: 10:00 a.m. to 01:00 p.m.

Maximum Marks: 80

Instructions:

1. There are three sections in this question paper.
 2. SECTION – I comprises of Question 1. Total marks for Section 1 are 20. There are 20 sub-questions (MCQ type). Answers to SECTION – I are to be given in Answer Sheet for MCQ type questions provided to you. Maximum time allotted for SECTION – I is 30 minutes. Answers to SECTION – I must be written during the first 30 minutes of the examination.
 3. Answers to SECTION – II and SECTION – III are to be provided in separate Main Answer Books provided to you.
 4. Figures to right indicate marks.
 5. Draw neat labeled sketches wherever necessary.
-

SECTION - I

Q-1 Attempt all questions. Each question is of one mark. **20**

1. Propagation of plants from seeds is known as _____method
[A] Sexual method
[B] Artificial method of vegetative propagation
[C] natural method of vegetative propagation
[D] Aseptic method of vegetative propagation
2. Who is considered as father of surgery?
[A] Seydler
[B] Sushrut
[C] Charak
[D] Hippocrates
3. One of the following is obtained from animal source
[A] Talc
[B] Clove
[C] Vasaka
[D] Honey
4. Study of external appearance of crude drug is _____ classification.
[A]Pharmacological
[B]Alphabatical
[C]Chemical
[D]Morphological
5. One of the following is unorganized drug
[A] Latex

- [B] Gum
 - [C] Juice
 - [D] All of above
6. One of the following is an example of marine drug
- [A] Cod liver oil
 - [B] Ginger
 - [C] Talc
 - [D] Honey
7. Why seeds are treated with sulfuric acid or soaked in water?
- [A] To provide nutrition
 - [B] To remove dust
 - [C] To improve germination
 - [D] To decolorize seeds
8. _____ gave the term Pharmcognosy
- [A] Seydler
 - [B] Charak
 - [C] Hippocrates
 - [D] Edison
9. Determination of stomatal index is _____type of evaluation
- [A] Macroscopical
 - [B] Physical
 - [C] Chemical
 - [D] Microscopical
10. "Cinchona bark is used as antimalarial".Mention classification system
- [A] Pharmacological
 - [B] Alphabatical
 - [C] Chemical
 - [D] Morphological
11. Estimation of content of clove oil in clove flowerbud is _____type of evaluation
- [A] Physical
 - [B] Chemical
 - [C] Morphological
 - [D] Biological
12. All are physical methods of evaluation of drugs except
- [A] Optical density
 - [B] pH
 - [C] Viscosity

[D] Stomatal Number

- 13.** To prevent mechanical damage to the plant we should,
[A] Avoid mixing toxic weeds mix with harvested medicinal plants
[B] Avoid stacking up of sacks
[C] Clean and free of contamination
[D] Protected from pests, mice/rodents
- 14.** Adulteration types includes
[A] Substitution
[B] Admixture
[C] Spoilage
[D] All of above
- 15.** One of the following is intrinsic factor affecting the cultivation of medicinal plants
[A] Rainfall
[B] Soil
[C] Polyploidy
[D] Temperature
- 16.** Indian pharmacopoeia follows which classification system?
[A] Pharmacological
[B] Morphological
[C] Chemical
[D] Alphabetical
- 17.** One of the following phytohormone responsible for stomatal opening
[A] Auxin
[B] Absciscic acid
[C] Ethylene
[D] Cytokinin
- 18.** Ethylene is responsible for
[A] Ripening of fruits
[B] Falling of leaves
[C] Opening of stomata
[D] All of above
- 19.** The determination of ash value is useful for detecting
[A] low grade products
[B] Exhausted drug
[C] Excess of sandy or earthy material
[D] All of above
- 20.** All are leaf constant EXCEPT

- [A] Vein islet number
- [B] Stomatal number
- [C] Pallisade ratio
- [D] Foreign organic matter

SECTION – II

- Q 2** Attempt any **TWO** of the following
- A** Cultivation of Medicinal Plant would be better option than to collect those from wild. Justify the sentence. **05**
- B** A manufacturing unit planned to manufacture herbal toothpaste . The toothpaste was planned to contain Pudina. A material of pudina has now reached and Q.C department has assigned the work to evaluate quality of pudina. Enumerate different experiments to be performed to evaluate quality of raw material with rationale. **05**
- C** How histological evaluation is helpful in plant drug evaluation? **05**
- Q 3** Attempt any **TWO** of the following
- A** Enlist the factors affecting Medicinal Plant Cultivation. Write a note of any two such extrinsic factors. **05**
- B** Define: Ash value, Stomatal Number, Vein islet Number, Extractive value, Veni termination number. **05**
- C** Make a note on different types of adulteration. **05**

SECTION – III

- Q 4** Attempt any **FOUR** of the following
- A** Define pharmacognosy. Write a brief note on history of pharmacognosy. **05**
- B** Comment: “Plant as source of crude drug”. **05**
- C** Explain alphabetical classification system with its merits and demerits. **05**
- D** Prepare a note on function of Auxin. **05**
- E** Prepare a note on Asexual method of plant propogation. **05**
- F** Define: Admixture, Substitution, Adulteration, Spoilage, Substitutes. **05**
- Q 5** Attempt any **FOUR** of the following
- A** Write future scope of pharmacognosy. **05**
- B** Explain morphological classification system with its merits and demerits. **05**
- C** How the storage of crude drug affect the quality of crude drugs? **05**
- D** Prepare a note on function of Absciscic acid. **05**
- E** Prepare a note on physical method of evaluation. **05**
- F** Classify the medicinal natural resources on basis of sources. **05**

SECTION - I

Q 1	Attempt all questions. Each question is of one mark.			
	Que.	Ans	Que.	Ans
	1	A	11	B
	2	B	12	D
	3	D	13	B
	4	D	14	D
	5	D	15	C
	6	A	16	D
	7	C	17	D
	8	A	18	A
	9	D	19	D
	10	A	20	D

SECTION – II

- Q 2** Attempt any **TWO** of the following
- A** Cultivation of Medicinal Plant would be better option than to collect those from wild. Justify the sentence. **05**
- B** A manufacturing unit planned to manufacture herbal toothpaste. The toothpaste was planned to contain Pudina. A material of pudina has now reached and Q.C department has assigned the work to evaluate quality of pudina. Enumerate different experiments to be performed to evaluate quality of raw material with rational. **05**
- (Answer should include morphological, microscopical, chemical evaluation)
- C** How histological evaluation is helpful in plant drug evaluation? **05**
- (Demerits of morphological evaluation, advantages of histological

evaluation with example)

- Q 3** Attempt any **TWO** of the following
- A** Enlist the factors affecting Medicinal Plant Cultivation.(1 marks) Write a note of any two (2x 2 marks)such extrinsic factors. **05**
- B** Define: Ash value, Stomatal Number, Vein islet Number, Extactive value, Veni termination number(1 x 5 marks) **05**
- C** Make a note on different types of adulteration (aleast 5 typr of adulteration(1x5marks)) **05**

SECTION – III

- Q 4** Attempt any **FOUR** of the following
- A** Define pharmacognosy(1 mark). Write a brief note on history of pharmacognosy. (4 mark) **05**
- B** Comment:” Plant as source of crude drug”(Atleast 5 plants and their parts used as medicine 5 marks) **05**
- C** Explain alphabetical classification system with its merits (2.5 marks)and demerits(2.5 marks). **05**
- D** Prepare a note on function of Auxin.(5 marks) **05**
- E** Prepare a note on Asexual method of plant propogation.(5 marks) **05**
- F** Define: Admixture, Substitution, Adulteration, Spoilage, Substitutes.(1 x 5 marks) **05**
- Q 5** Attempt any **FOUR** of the following
- A** Write future scope of pharmacognosy.(5 marks) **05**
- B** Explain morphological classification system with its merits(2.5 marks) and demerits(2.5 marks). **05**
- C** How the storage of crude drug affect the quality of crude drugs?(5 marks for corrected 5 points) **05**
- D** Prepare a note on function of Absciscic acid. (5cooreect point x 1)) **05**
- E** Prepare a note on physical method of evaluation. (atleast 5 correct physical parameter x 1) **05**
- F** Classify the medicinal natural resources on basis of sources. (atleast 5 correct point x 1) **05**
