

CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY

1st Semester of B. Pharm (Old Syllabus) Examination

April 2016

PH103 Pharmaceutical Chemistry-I (Inorganic)

Date: 12.04.2016, Tuesday

Time: 10:00 a.m. to 01:00 p.m.

Maximum Marks: 80

Instructions:

1. Figures to right indicate marks.
2. Section wise separate answer book to be used.
3. Draw neat sketches wherever necessary.

SECTION- I

Q 1 Attempt any TWO of the following;

- | | | |
|---|--|----|
| A | What is Monograph? Explain the content of Monograph. | 10 |
| B | Short Note on principle and procedure for the Limit test of Iron and Chloride. | 10 |
| C | i. Water for injection and sterile water for Injection | 05 |
| | ii. History of Pharmacopeia | 05 |

Q 2 Attempt any TWO of the following

- | | | |
|---|---|----|
| A | i. Write details on various factors affecting purity of pharmaceuticals | 05 |
| | ii. Discuss the physiological role of oxygen and describe its method of preparation, properties, storage conditions and uses. | 05 |
| B | i. Enlist different types of official waters and enumerate official quality control tests for waters | 05 |
| | ii. Write a detail note on limit test of sulphate. | 05 |
| C | i. Short note on sources of impurities in pharmaceuticals. | 05 |
| | ii. Short note on Milk of Magnesia. | 05 |

SECTION- II

Q 3 Attempt any TWO of the following

- | | | |
|---|--|----|
| A | Define Anacid. Classify them with suitable examples. Explain preparation, assay principle, uses and storage condition of Aluminum hydroxide. | 10 |
| B | i. Write down the preparation, assay principle, uses and storage condition of titanium dioxide solution. | 05 |
| | ii. Physiological role of Zinc and Copper. | 05 |
| C | i. Write a short note on anti-carries agents. | 05 |
| | ii. Enlist Antidote and write a note on cyanide poisoning and its treatment. | 05 |

Q 4 Attempt any TWO of the following

- | | | |
|---|--|----|
| A | Classify antimicrobial agent and write down the preparation, assay principle, uses and storage condition of H ₂ O ₂ solution | 10 |
| B | i. Write a physiological role of iron and iodine. | 05 |
| | ii. Explain Following Terms; (05X 01 = 05 Marks) | 05 |
| | 1. Protectives, 2. Expectorants, 3. Astringents, 4. Emetics, 5. Adsorbents | |
| C | i. Define topical agents. Classify them with suitable examples. | 05 |
| | ii. Write a short note on complexing and chelating agents. | 05 |
