

CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY

1st Semester of B. Pharm. Examination

University Theory Examination April 2016

PH113 Elementary Pharmacognosy

Date: 12.04.16, Tuesday

Time: 10:00 am to 1:00 pm

Maximum Marks: 80

Instructions:

1. There are three sections in this question paper.
2. SECTION – I comprises of Question 1. Total marks for Section 1 are 20. There are 20 sub-questions (MCQ type). Answers to SECTION – I are to be given in Answer Sheet for MCQ type questions provided to you. Maximum time allotted for SECTION – I is 30 minutes. Answers to SECTION – I must be written during the first 30 minutes of the examination.
3. Answers to SECTION – II and SECTION – III are to be provided in separate Main Answer Books provided to you.
4. Figures to right indicate marks.
5. Draw neat sketches wherever necessary.

SECTION - I

- Q 1** Attempt all questions. Each question is of one mark. **20**
1. Who is known as "Father of Medicine"
[A] Dioscorides
[B] Pliny
[C] Hippocrates
[D] Galen
 2. Charak Samhita describe uses of different
[A] Plants
[B] Animals
[C] Minerals
[D] All of the above
 3. Who gave the word Pharmacognosy?
[A] Pliny
[B] Seydler
[C] Ebers
[D] Aristotle
 4. In the word, Phytochemicals, Phyto is stand for _____
[A] Physical
[B] Plant
[C] Tissue
[D] None of the above
 5. Morphological classification is based upon.
[A] External Part of Plants
[B] Internal Parts of Plants
[C] Secretory parts of Plants
[D] None of the above
 6. Crude drugs include _____
[A] Extracts
[B] Isolates
[C] Leaves
[D] None of above
 7. Unorganized drugs means
[A] Having Thorns
[B] Having acellular parts
[C] Having fibrous parts
[D] None of the above

8. There is some definite relationship between _____ and taxonomical status of the plant.
 [A] name of scientist
 [B] country of origin
 [C] chemical constituents
 [D] family
9. The crude drugs are classified according to plants or animals from which they are obtained in _____ classification.
 [A] Chemical
 [B] Morphological
 [C] Taxonomic
 [D] None of the above
10. Below mention is not type of soil,
 [A] Clay soil
 [B] Fibrous soil
 [C] Sandy soil
 [D] Silt soil
11. What are the function of Plant hormones,
 [A] Growth of tissue
 [B] Inhibit the growth of tissue
 [C] Ripening fruits
 [D] All of the above
12. Chemical classification included _____
 [A] Starch
 [B] Fixed oil
 [C] Resin
 [D] Amino acid
13. Adulteration done with intention is called as _____
 [A] Determinate Adulteration
 [B] Indeterminate Adulteration
 [C] Induce Adulteration
 [D] Random Adulteration
14. Stomatal Index give idea about
 [A] Stomata types
 [B] Stomata number
 [C] Both of the above
 [D] None of the above
15. In ancient, First time plant and animal extract prepared were known as _____
 [A] Extraction
 [B] Galenical
 [C] Isolation
 [D] solution
16. ABA is known as plant _____
 [A] Growth hormones
 [B] Inhibitor hormones
 [C] Induce hormones
 [D] Devison induce hormones
17. Quality control of drugs methods deal with
 [A] Increase production
 [B] Resistant to disease
 [C] Healthy crop
 [D] All of the above
18. In word Pharmacognosy, Gignosco means
 [A] Acquire of drug
 [B] Acquire of Plants
 [C] Acquire of science
 [D] Acuire of Knowledge
19. Hybridization techniques are generally used for
 [A] Disease resistance plants
 [B] Increase Stature
 [C] More production
 [D] All of the above

20. Which are the typical effects of Cytokinin
 [A] Cell elongation
 [B] Inhibition of root growth
 [C] Fruits setting
 [D] All the above

SECTION – II

- Q 2 Attempt any FOUR of the following**
- | | | |
|----------|--|-----------|
| A | Describe brief History of Pharmacognosy. | 05 |
| B | Define – Hybridization and explain it in detail. | 05 |
| C | Write down short note on Auxin. | 05 |
| D | Write a note on chemical method for evaluation of Adulteration. | 05 |
| E | Write a note on detail pharmacological classification of crude drug. | 05 |
| F | Explain- Animals as source of crude drug. | 05 |

SECTION – III

- Q 3 Attempt any FOUR of the following**
- | | | |
|----------|--|-----------|
| A | Explain the scope of Pharmacognosy. | 05 |
| B | What are Plant growth hormones? Write a note on Gibberellins. | 05 |
| C | What is Adulteration? And explain various method used for adulteration. | 05 |
| D | What are the factor affecting the cultivation, collection and processing of crude drugs? | 05 |
| E | Explain in detail about chemical classification of crude drug. | 05 |
| F | What is importance of Quality control for evaluation of crude drug. | 05 |
-
- Q 4 Attempt any FOUR of the following**
- | | | |
|----------|---|-----------|
| A | Explain in detail about chemotaxonomical classification. | 05 |
| B | What are the plant growth regulators? Classify and differentiate them with examples. | 05 |
| C | Explain in detail about alphabetical classification with examples. Write its merits and demerits. | 05 |
| D | Define: Pharmacognosy, Crude drugs, Ayurvedic drugs, Herbal drugs, Mutation | 05 |
| E | Describe development and future trends in Pharmacognosy. | 05 |
| F | Which precaution are taken for storage of crude drug. | 05 |
-
