

CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY

1st Semester of B. Pharm. Examination

University Theory Examination December 2016

PH113/PH122 Elementary Pharmacognosy

Date: 30.12.2016, Friday

Time: 10:00 a.m. to 01:00p.m.

Maximum Marks: 80

Instructions:

1. There are three sections in this question paper.
2. SECTION – I comprises of Question 1. Total marks for Section 1 are 20. There are 20 sub-questions (MCQ type). Answers to SECTION – I are to be given in Answer Sheet for MCQ type questions provided to you. Maximum time allotted for SECTION – I is 30 minutes. Answers to SECTION – I must be written during the first 30 minutes of the examination.
3. Answers to SECTION – II and SECTION – III are to be provided in separate Main Answer Books provided to you.
4. Figures to right indicate marks.
5. Draw neat labeled sketches wherever necessary.

SECTION - I

Q.1 Attempt all questions. Each question is of one mark.

20

- 1 Coarse sand has diameter
[A] <0.002mm
[B] 0.002-.02mm
[C] 0.002-0.2mm
[D] 0.2-2.0 mm
- 2 Ayurvedic Pharmacopoeia follows
[A] Alphabetical classification
[B] Therapeutic Classification
[C] Morphological Classification
[D] Chemical Classification
- 3 Agar is _____ source of drug
[A] Mineral
[B] Marine
[C] Animal
[D] Plants
- 4 One of the following is primary nutrient
[A] Sulphur
[B] Magnesium
[C] Calcium
[D] Potassium
- 5 Loamy soil contain _____ of clay
[A] more than 50% of clay
[B] 30-50% of clay
[C] 20-30% of clay
[D] 10-20% of clay
- 6 Garlic is propagated by
[A] Bulb
[B] Corm
[C] Tuber
[D] Rhizome

- 7 When plants are propagated in artificial medium in aseptic condition is known as
 [A] Broadcasting
 [B] Grafting
 [C] Natural method of vegetative propagation
 [D] Tissue culture
- 8 "Cinchona is used as antimalarial ".It follows-----
 [A] Alphabetical classification
 [B] Therapeutic Classification
 [C] Morphological Classification
 [D] Chemical Classification
- 9 One of the following is not physical parameter for evaluation of crude drug.
 [A] Moisture content
 [B] Extractive value
 [C] Ash value
 [D] Colour, odour, taste
- 10 Equation of Stomatal index is
 [A] $\frac{S}{E+S} \times 100$
 [B] $\frac{E}{E+S} \times 100$
 [C] $\frac{S+E}{E} \times 100$
 [D] $\frac{S+E}{S} \times 100$
- 11 All are leaf constant EXCEPT
 [A] Vein islet number
 [B] Stomatal number
 [C] Palisade ratio
 [D] Foreign organic matter
- 12 Unorganized drug includes
 [A] Black catechu
 [B] Senna
 [C] Cinnamon
 [D] Coriander
- 13 Who is considered as father of surgery?
 [A] Hippocrates
 [B] Charak
 [C] Sushruta
 [D] Seydler
- 14 The determination ash value is useful for detecting
 [A] low grade products
 [B] Exhausted drug
 [C] Excess of sandy or earthy material
 [D] All of above

- 15 Evaluation by color, odour and taste is known as
 [A]Microscopical
 [B]Organoleptic
 [C]Biological
 [D]Chemical
- 16 Phytochemical screening and chromatography is _____ evaluation method
 [A]Microscopical
 [B]Organoleptic
 [C]Biological
 [D]Chemical
- 17 One of the following phytohormone responsible for stomatal opening
 [A]Auxin
 [B]Absciscic acid
 [C]Ethylene
 [D]Cytokinin
- 18 Colchicine is used to induce
 [A]Polyploidy
 [B]Mutation
 [C]Hybridization
 [D]callus culture
- 19 Alteration in genetic makeup of plant drugs may alter _____
 [A] Amount of Phytoconstituents present
 [B] Formation on new Constituents
 [C]Appearance of plant
 [D] All of Above
- 20 _____gave the term Pharmacognosy
 [A]Hippocrates
 [B]Charak
 [C]Seydler
 [D]Sushrut

SECTION – II

- Q 2** Attempt any **TWO** of the following:
- A Define Pharmacognosy. Describe in brief “future scope of Pharmacognosy” 05
- B Write a note on morphological classification with its advantage and disadvantage. 05
- C Write a note on hybridization with reference to medicinal plants. 05
- Q 3** Attempt any **TWO** of the following:
- A Enlist classification system of crude drugs. Describe classification system which Ayurvedic pharmacopoeia follows. 05
- B Compare and contrast:Sexual method and Asexual method of propogation. 05
- C Classify sources of crude drug.Prepare a note any two sources. 05

SECTION – III

- Q.4** Attempt any **FOUR** of the following:
- A** Explain in detail function of Cytokinin and auxin. 05
 - B** Explain therapeutic classification in detail with its advantage and disadvantage. 05
 - C** What is mutation? Discuss in detail about its application in context to cultivation of medicinal plants. 05
 - D** Define:(i) stomatal number(ii)stomatal index(iii)vein islet number(iv)vein termination number(v)palisade ratio. 05
 - E** Define drug evaluation. Enlist method of evaluation of crude drug.Explain morphological method. 05
 - F** Explain in brief pharmacological classification. 05
- Q 5** Attempt any **FOUR** of the following
- A** Enlist factor affecting cultivation of medicinal plants.Explain in detail any four. 05
 - B** Write a note on physical evaluation of plant drug. 05
 - C** What is drug adulteration? Explain in detail about different types of drug adulteration. 05
 - D** Write a note on chemical classification of crude drug with example. 05
 - E** Explain in detail chemical evaluation method. 05
 - F** Define Plant hormones. Write application of plant hormones with reference to cultivation. 05
-
