

CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY
2nd Semester of B. Pharm. Examination
University Theory Examination November 2016
PH107 Basic Pharmacognosy-II

Date: 11.11.2016, Friday Time: 10:00a.m. to 01:00p.m. Maximum Marks: 80

Instructions:

1. Figures to right indicate marks.
2. Section wise separate answer book to be used.
3. Draw neat sketches wherever necessary.

SECTION- I

- Q 1 Attempt any TWO of the following**
- A** Define adulteration. Discuss methods of adulteration used in market. Explain Physical parameters to evaluate adulteration. **10**
- B** i) Enlist methods of evaluation of crude drugs. Explain organoleptic evaluation for same. **05**
ii) Write definitions of following :
1. Palisade ratio 2. Vein islet number 3. Deterioration 4. Stomatal index 5. Admixture **05**
- C** i) Classify glycosides, explain its chemical tests **05**
ii) Explain how chromatography method is useful to evaluate crude drugs? **05**
- Q 2 Attempt any TWO of the following**
- A** i) How preliminary phytochemical screening performed for crude drugs? **05**
ii) Write a note on chemical evaluation of crude drugs. **05**
- B** Define carbohydrates, classify them and explain its chemical tests. **10**
- C** Write definitions of alkaloids and tannins and explain chemical test for both. **10**

SECTION- II

- Q 3 Attempt any TWO of the following**
- A** Write the source, method of preparation, chemical constituent and uses of Castor oil **10**
- B** Write the source, method of preparation, chemical constituent and uses and adulterants of Honey **10**
- C** i) Draw the well labeled detailed diagram of T.S. of Isapgol seed. **05**
ii) Prepare a note on pharmacognosy of Linseed **05**
- Q 4 Attempt any TWO of the following**
- A** Prepare a note on natural colors with its advantages and limitations. **10**
- B** Define and classify fibre. Prepare a note on Raw cotton **10**
- C** Prepare a note on Nylon and Glasswool as fibre **10**
