

CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY

2nd Semester of B. Pharm. Examination (New)

University Theory Examination October 2015

PH117 Human Anatomy & Physiology-II

Date: 12.10.2015 , Monday

Time: 10.00 a.m. to 1.00 p.m.

Maximum Marks: 80

Instructions:

1. There are three sections in this question paper.
2. SECTION – I comprises of Question 1. Total marks for Section 1 are 20. There are 20 sub-questions (MCQ type). Answers to SECTION – I are to be given in Answer Sheet for MCQ type questions provided to you. Maximum time allotted for SECTION – I is 30 minutes. Answers to SECTION – I must be written during the first 30 minutes of the examination.
3. Answers to SECTION – II and SECTION – III are to be provided in separate Main Answer Books provided to you.
4. Figures to right indicate marks.
5. Draw neat sketches wherever necessary.

SECTION – I

Q.1 Attempt all questions. Each question is of one mark. 20

1. Neurons consists of following parts
 - A. Cell body
 - B. Dendrites
 - C. Axon
 - D. All of above
2. One of the following is not a part of Anterior pituitary hormone system
 - A. FSH
 - B. LH
 - C. Aldosterone
 - D. Thyroid stimulating hormone
3. What is neurolemma?
 - A. Lymph node
 - B. Sheath of Schwann
 - C. Axon
 - D. Nerve terminal
4. What is the full form of ADH ?
 - A. Aldosterone
 - B. Anti diabetic hormone
 - C. Aldehyde
 - D. Antidiuretic hormone
5. The following is not a type of Neurotransmitter
 - A. Kinin
 - B. Dopamine
 - C. Acetylcholine
 - D. GABA

6. Which hormone is produced by parafollicular cells of thyroid gland?
 - A. ADH
 - B. Calcitonin
 - C. Androgen
 - D. Aldosterone
7. CSF has following function except
 - A. Mechanical Protection
 - B. Provide immunity
 - C. Homeostatic Function
 - D. Circulation
8. One of the following is not a water soluble hormone
 - A. Epinephrine
 - B. Cholesterol
 - C. Insulin
 - D. prostaglandins
9. One of the following is not a part of astrocyte
 - A. Protoplasmic
 - B. Fibrous
 - C. Collagenous
 - D. All of above
10. Following hormones are secreted through pancreas
 - A. Glucagon
 - B. Insulin
 - C. Somatostatin
 - D. All of above
11. Depolarizing Phase of action potential requires..
 - A. Na^+ Channel Opening rapidly
 - B. Closing Mg channels
 - C. Opening of K^+ channels
 - D. Cl^- Channel opening
12. One of the following is not a Ovarian Hormone
 - A. Estrogen
 - B. Relaxin
 - C. Testosterone
 - D. Progesterone
13. Following are the layer of Meninges.
 - A. Dura matter
 - B. Arachnid matter
 - C. Pia matter
 - D. All of above
14. The middle zone of Adrenal cortex as Zona fasciculata mainly secretes which hormone?
 - A. Androgen
 - B. Glucocorticoid
 - C. Mineralocorticoids
 - D. FSH
15. What is the Full form of RAA pathways of adrenal cortex?
 - A. Renin arachinoid pathways
 - B. Renin aldehyde pathways
 - C. Renin angiotensin aldosterone pathways
 - D. None of above

16. What is the beginning phase of Spermatogenesis?
 - A. Spermatogonia
 - B. Spermatid phase
 - C. Spermatocyte phase
 - D. None of above
17. Which anatomical regions included in Accessary sex glands in Males?
 - A. Seminal vesicle
 - B. Prostate
 - C. Bulbourethral gland
 - D. All of above
18. The inner most layer of Uterus as endometrium has following components
 - A. Cervical mucus, myometrium, perimetrium
 - B. Columnar epithelium, stroma, uterine gland
 - C. Uterine tube, ovary, ligaments
 - D. Uterine tube, vagina, mucus membrane
19. Following are different types of bone tissue
 - A. Osteoclast
 - B. Osteoblast
 - C. Osteocytes
 - D. All of above
20. Which hormone promotes absorption of calcium from food to G.I Tract to Blood stream?
 - A. Mineralocorticoid
 - B. Glucocorticoid
 - C. Calcitriol
 - D. Calcitonin

SECTION – II

- Q.2** Attempt any **FOUR** of the following
- | | | |
|----------|--|-----------|
| A | Explain hormonal regulations of Pituitary gland in brief | 05 |
| B | Explain anatomy of Pancreatic gland with release of various hormone | 05 |
| C | I. Explain Renin angiotensin aldosterone system
II. Provide brief of Throid hormone | 05 |
| D | Explain mechanism and formation of spermatogenesis in detail | 05 |
| E | Explain following local hormone in short | |
| | I. Histamine
II. 5-HT | 05 |
| F | Explain functions of Prostaglandin and leukotrienes in the body | 05 |

SECTION – III

- Q.3** Attempt any **FOUR** of the followings
- | | | |
|----------|--|-----------|
| A | Draw neat labelled diagram of spinal cord. Add a note on reflex action | 05 |
| B | Write the difference between Parasympathetic and sympathetic nervous system. | 05 |
| C | Provide detail functions of different parts of brain | 05 |
| D | What is CSF? Write its composition and Functions. | 05 |
| E | Explain physiology of thalamus and hypothalamus. | 05 |
| F | What are cranial nerves? Discuss Cranial nerve. | 05 |

- Q.4** Attempt any **FOUR** of the followings
- | | | |
|----------|---|-----------|
| A | Define arthritis, osteoporosis. Explain difference between male and female pelvis . | 05 |
| B | Classify Joints. Write a note on synovial joint. | 05 |
| C | Draw a neat labeled diagram of male reproductive system. | 05 |
| D | Write a note on Menstrual cycle. | 05 |
| E | Explain the process of Spermatogenesis. | 05 |
| F | Explain in brief about male and female reproductive hormones | 05 |
-
