

CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY

2nd Semester of B. Pharm. Examination

University Theory Examination April/May 2015

PH118 Pharmacognosy-I

Date: 22.05.2015 , Friday

Time: 10.00 a.m. to 01.00 p.m.

Maximum Marks: 80

Instructions:

1. There are three sections in this question paper.
2. SECTION – I comprises of Question 1. Total marks for Section 1 are 20. There are 20 sub-questions (MCQ type). Answers to SECTION – I are to be given in Answer Sheet for MCQ type questions provided to you. Maximum time allotted for SECTION – I is 30 minutes. Answers to SECTION – I must be written during the first 30 minutes of the examination.
3. Answers to SECTION – II and SECTION – III are to be provided in separate Main Answer Books provided to you.
4. Figures to right indicate marks.
5. Draw neat sketches wherever necessary.

SECTION - I

- Q 1** Attempt all questions. Each question is of one mark. **20**
1. Which one is Botanical Source of Jalap
 - A. *Ipomoea purga*
 - B. *Ipomoea hederaceae*
 - C. *Styrax benzoin*
 - D. *Commiphora molmol*
 2. One of following is pathological resin
 - A. Asafoetida
 - B. Jalap
 - C. Ginger
 - D. Turmeric
 3. Myrrh contains
 - A. Commiphoric acid
 - B. Abietic acid
 - C. Cinnamic acid
 - D. Alleuritic acid
 4. One of following is not variety of cardamom
 - A. Bombay
 - B. Mysore
 - C. Long Native
 - D. Indian
 5. One of following compounds is volatile at room temperature
 - A. Fixed Oil
 - B. Wax
 - C. Volatile Oil
 - D. Resin
 6. Which one of following is used as dental Analgesic
 - A. Cardamom Oil
 - B. Clove Oil
 - C. Nutmag Oil
 - D. Eucalyptus Oil
 7. Which one is solid at room temperature
 - A. Olive Oil
 - B. Castor Oil
 - C. Theobroma Oil
 - D. Cardamom Oil
 8. Lipids are soluble in
 - A. Water

9. One of following oil bearing plant is predominantly cultivated in Gujarat :
 A. Castor seed
 B. Linseed
 C. Olive
 D. Honey
10. Find the odd thing:
 A. Tragacanth
 B. Acacia
 C. Honey
 D. Bees Wax
11. Which type of constituents does present in Acacia :
 A. Uronic Acid
 B. Cholesterol
 C. Arabin
 D. Lanoic Acid
12. One of following is the substitute of Tragacanth:
 A. Guar Gum
 B. Acacia
 C. Sterculia
 D. Pectin
13. Which heterocyclic ring does present in structure of Flavonoids :
 A. Furan
 B. Nephthalene
 C. Imine
 D. Butadiene
14. Find the odd thing :
 A. Alkaloid
 B. Carbohydrate
 C. Sugar
 D. Mucilage
15. Terpenoids follow _____ rule for structure construction:
 A. SN – 1
 B. Woodward -Fischer
 C. Isoprene
 D. Fischer
16. Amino Acids are building units of :
 A. Glycoside
 B. Polypeptide
 C. Carbohydrate
 D. Alkaloid
17. One of the following is the example of Resin containing drug:
 A. Fennel
 B. Senna
 C. Jalap
 D. Rauwolfia
18. One of the following is not true for Tannins:
 E. They are Nitrogenous compounds
 F. They are phenolic in nature
 G. They possess property to tan proteins
 H. They precipitate proteins
19. Resins are :
 E. Poly aldehyde
 F. Poly ketone
 G. Poly phenol
 H. Olefinic
20. One of the following is nitrogen containing Metabolite :
 A. Terpenoid

- B. Resin
- C. Polypeptide
- D. Glycoside

SECTION – II

- Q 2** Attempt any **FOUR** of the following
- A** What does it mean by Term Alkaloid. Write general Physico chemical properties of alkaloids 05
 - B** Prepare a note on classification of Glycosides obtained from plant drugs 05
 - C** Differentiate Following; 05
Primary Metabolite and Secondary Metabolites
True Alkaloids and Pseudo Alkaloids
 - D** Prepare a detailed note on Starch 05
 - E** Enumerate different parameters proposed to evaluate quality of Fixed Oil. 05
Describe any Two of them in details
 - F** Do as Directed 05
 - 1. Justify: Linseed oil is considered as drying oil
 - 2. Justify: Virgin Castor Oil should be used for medicated purposes
 - 3. Justify: Few resins may give positive to tests for sugar
 - 4. Justify: Resins are considered as pathogenic product
 - 5. How will you differentiate Oil and Wax

SECTION – III

- Q 3** Attempt any **FOUR** of the following
- A** What are resins? Describe properties and classification of resins containing drugs. 05
 - B** Write a note on Devil's dung or Himalayan may-apple 05
 - C** Write a short note on Ginger. 05
 - D** Prepare a detailed note on Castor Oil 05
 - E** Write a note on Theobroma Oil. 05
 - F** Write biological source, cultivation, Morphology, Chemical constituents and uses of Isapgol. 05
- Q 4** Attempt any **FOUR** of the following
- A** Explain the different methods for extraction of volatile oil. 05
 - B** Write a note on Botanical source, Family and adulterants of *Clove* 05
 - C** Differentiate following 05
 - (a) Indian dill and European dill
 - (b) Cinnamon and Cassia bark
 - D** Write the note on botanical source, chemical constituents and medicinal usefulness of *Valeriana officinalis* and Nutmag 05
 - E** Write biological source, family, chemical constituents and uses of turmeric & Capsicum. 05
 - F** Write biological source, preparation, chemical tests and uses of Honey. 05
