

CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY

Second Semester of B. Pharm. Examination

University Theory Examination May 2017

PH118/PH126 PHARMACOGNOSY-I

Date: 08.05.2017, Monday

Time: 10.00 a.m. to 01.00 p.m.

Maximum Marks: 80

Instructions:

1. There are three sections in this question paper.
2. SECTION – I comprises of Question 1. Total marks for Section 1 are 20. There are 20 sub-questions (MCQ type). Answers to SECTION – I are to be given in Answer Sheet for MCQ type questions provided to you. Maximum time allotted for SECTION – I is 30 minutes. Answers to SECTION – I must be written during the first 30 minutes of the examination.
3. Answers to SECTION – II and SECTION – III are to be provided in separate Main Answer Books provided to you.
4. Figures to right indicate marks.
5. Draw neat labeled sketches wherever necessary.

SECTION - I

Q 1 Attempt all questions. Each question is of one mark.

20

1. Rancidity of Fat is due to
[A] Oxidation
[B] Hydrolysis
[C] Saponification
[D] Neutralisation
2. Volatile oils are extracted using
[A] Clavenger apparatus
[B] Soxhlet apparatus
[C] steam distillation
[D] all of above
3. Which one of the following is not O- glycoside
[A] Digoxin
[B] Sennoside A
[C] Digitoxin
[D] Sinigrin
4. Cardamom belongs to the family .
[A] Myrtaceae
[B] Umbelliferae
[C] Solanaceae
[D] Zingiberaceae
5. Thymol is the active constituent of
[A] Clove
[B] Dill
[C] Cinnamon
[D] Ajowan
6. Fennel is following type of fruit
[A] Drupe
[B] Schizocarp
[C] Berry
[D] Capsule
7. Steroids are example of
[A] Terpenoids
[B] Alkaloid
[C] Glycoside
[D] Resin

8. Identify monosaccharides
 - [A] Sucrose
 - [B] Starch
 - [C] Galactose
 - [D] Glucose
9. Which drug is used as bulk laxative?
 - [A] Honey
 - [B] Tragacanth
 - [C] Ispaghula
 - [D] Acacia
10. Which drug gives blue colour with iodine
 - [A] Sterculia
 - [B] Starch
 - [C] Mentha
 - [D] Acacia
11. Carbohydrates are identified by
 - [A] Mayer's test
 - [B] Molisch's test
 - [C] Iodine test
 - [D] Anthraquinone test
12. Which vitamin is insoluble in fat
 - [A] K
 - [B] D
 - [C] B
 - [D] A
13. Give the biological source of castor oil
 - [A] *Arachis hypogea*
 - [B] *Olea europaea*
 - [C] *Ricinus communis*
 - [D] *Helianthus annuus*
14. Flaxseed oil is the synonym of
 - [A] Linseed oil
 - [B] Olive oil
 - [C] Castor oil
 - [D] Sunflower oil
15. Which drug gives combine umbelliferone test positive?
 - [A] Ginger
 - [B] Colophony
 - [C] Benzoin
 - [D] Asafoetida
16. Pungent principle of capsicum is
 - [A] Curcumin
 - [B] Capsaicin
 - [C] Eugenol
 - [D] Gingerol
17. Curcumin is the active constituent of
 - [A] Ginger
 - [B] Podophyllum
 - [C] Turmeric
 - [D] Jalap
18. Identify convolvulaceous resins
 - [A] Ginger
 - [B] Capsicum
 - [C] Myrrh
 - [D] Jalap
19. Which drug is used as dental analgesic

- [A] Coriander
 [B] Clove
 [C] Mentha
 [D] Dill
20. Chinese Cinnamon is known as
 [A] Cinnamon bark
 [B] Cassia bark
 [C] Arjuna bark
 [D] Ashoka bark

SECTION – II

Q 2 Attempt any TWO of the following

- A**
1. A sample of arachis oil showed higher acid value than the limits prescribed in Pharmacopoeia. Can this oil be used for manufacturing formulation? Why? **05**
 2. A sample of drying oil showed lower iodine value. Can it be used for industrial application? Why?
- B**
1. A compound, isolated from plant, found to possess nitrogen. Can this compound be considered as alkaloid? Justify your answer. **05**
 2. How will you confirm that isolated compound is a glycosidic one?
- C** Write, which plant material/product of plant you would like to incorporate in formulations: **05**
1. Formulation to be used as topical applications for symptomatic relief in common cold
 2. As viscosity enhancing agent in cough preparation to be administered orally
 3. As flavouring agent in Chewing gum
 4. As antiseptic and colorant in herbal topical cream
 5. As suspending agent.

Q 3 Attempt any TWO of the following

- A** What are gums? Write a note on Gum Acacia **05**
- B** Write down method of preparation of Honey. How do you test it? Write its Uses of Honey. **05**
- C** Prepare a note on Starch **05**

SECTION – III

Q 4 Attempt any FOUR of the following

- A** Describe in Brief: Resin, Balsams, Tannins, Terpenes, Fixed Oils **05**
- B** How can you differentiate Indian and American podophyllum? **05**
- C** Write down physical properties and classification of resins with appropriate examples. **05**
- D** Write biological source, chemical constituents and uses of Ginger and Asafoetida **05**
- E** Write important physico chemical properties of Alkaloids and Glycosides **05**
- F** Write detailed note on Colophony **05**

Q 5 Attempt any FOUR of the following

- A** Draw a well labeled diagram of T. S. of Ceylon Cinnamon. How will you differentiate Ceylon cinnamon from Chinese cinnamon using histology. **05**
- B** How can you differentiate Fennel and Coriander Fruit. **05**
- C** Write a detailed pharmacognostic note on Eucalyptus **05**
- D** Enumerate methods of production of volatile oils with suitable examples. Describe any one of them. **05**
- E** Write a detail note on Clove. **05**
- F** Prepare a note on volatile oil used to treat mild symptoms of mental stress and to aid sleep **05**
