

CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY

3rd Semester of B. Pharm. Examination

University Theory Examination November 2016

PH216 Pharmacognosy II

Date: 29/11/2016 , Tuesday

Time: 10.00 a.m. to 01.00 p.m.

Maximum Marks: 80

Instructions:

1. There are three sections in this question paper.
2. SECTION – I comprises of Question 1. Total marks for Section 1 are 20. There are 20 sub-questions (MCQ type). Answers to SECTION – I are to be given in Answer Sheet for MCQ type questions provided to you. Maximum time allotted for SECTION – I is 30 minutes. Answers to SECTION – I must be written during the first 30 minutes of the examination.
3. Answers to SECTION – II and SECTION – III are to be provided in separate Main Answer Books provided to you.
4. Figures to right indicate marks.
5. Draw neat labeled sketches wherever necessary.

SECTION - I

- | | | |
|------------|---|-----------|
| Q 1 | Attempt all questions. Each question is of one mark. | 20 |
| 1. | Goldbeater skin test is used for identification of:
a) Alkaloids
b) Glycosides
c) Tannins
d) Resins | |
| 2. | Gambir flurescin test is used for drug
a) Arjuna
b) Ashoka
c) Pale catechu
d) Black catechu | |
| 3. | Van-Urk's reagent chemically is
a) P-dimethylaminobenzaldehyde
b) Benzoic acid+Cinnamic acid
c) P-dimethylbenzoic acid
d) Cinnamaldehyde | |
| 4. | Which ergot alkaloid is water-soluble?
a) Ergotamine
b) Ergosine
c) Ergocristine
d) Ergometrine | |
| 5. | Which is not the chemical constituent naturally obtained from Opium?
a) Morphine
b) Papaverine
c) Quinine
d) Heroine | |
| 6. | Ipecac belongs to family _____.
a) Rubiaceae
b) Compositate
c) Labiatae
d) Papaveracea | |
| 7. | One of following is source of Caffeine
a) <i>Coffea arabica</i>
b) <i>Rauwolfia serrpentina</i>
c) <i>Nicotiana tobacum</i> | |

- d) *Piper nigrum*
8. 'Crow fig' is the synonym for the drug:
a) Nuxvomica
b) Rauwolfia
c) Cinchona
d) Catharanthus
9. The opium alkaloids are present in plant as salt of :
a) Benzoic acid
b) Tartaric acid
c) Meconic acid
d) Acetic acid
10. Find odd thing,
a) Digitalis
b) Belladonna
c) Hyoscyamus
d) Vasaka
11. _____ is not used as cardiotonic
a) Digitalis
b) Cinchona
c) Squill
d) Stropanthus
12. Borntrager test is used for one of the following drugs:
a) Senna
b) Aloe
c) Digitalis
d) Stropanthus
13. Out of the following, one is not the example of Cardenolide:
a) Digitoxin
b) Digoxin
c) Gitoxigenin
d) Scillaren A
14. Presence of star spots is the characteristic of drug:
a) Cascara
b) Senna
c) Aloe
d) Rhubarb
15. Which is the right test for the cardioactive glycosides of Foxglove leaf?
a) Murexide
b) Killer Killani
c) Wagner's Test
d) 2,4-dinitro-phenylhydrazine
16. Why Rheum raponticum is not used as substitute of Rheum palmatum ?
a) Because the Rheum raponticum contains a stilben derivative which has undesirable hormone activity.
b) Because the emodin content of Rheum raponticum is too much.
c) Because the rhein content of the Rheum raponticum is too low.
d) Because the chrysophanol content of Rheum palmatum is higher than in case of Rheum raponticum.
17. Sennosides are of type compound
a) Anthrone
b) Anthraquinone
c) Antranol
d) Dianthrone
18. One of following is an example of c- glycoside containing drug
a) Senna
b) Cascara
c) Digitalis
d) Dioscorea

19. **Glycyrrhetic acid is a following type of saponin**
 a) Steroidal
 b) α -amyrin
 c) Lupeol
 d) β -amyrin
20. **Oubain, a cardiac glycoside is present in _____**
 a) Nerium
 b) Thevetia
 c) Strophanthus
 d) Squill

SECTION – II

- Q 2** Attempt any **TWO** of the following
- A** Define the term Alkaloids. Differentiate True Alkaloids from proto and pseudo alkaloids. **05**
- B** Draw Life cycle of fungus, produces Ergot **05**
- C** Classify alkaloids, based on the heterocyclic ring structure present with suitable examples. **05**
- Q 3** Attempt any **TWO** of the following
- A** How will you identify Senna Leaves through Histological Observations? Write five important Histological Features of Senna Leaflet Transverse Section, taken from midrib. **05**
- B** **Justify following:**
 1. Dried powder of senna leaves is used as Laxative **05**
 2. Digitalis possesses cardiotonic action
- C** **How will you detect Following:**
 1. Steroidal ring in Diosgenin **05**
 2. Presence of Cardenolide (Write two Tests)
 3. C – Glycoside bond in Aloin

SECTION – III

- Q 4** Attempt any **FOUR** of the following
- A** Define and Classify tannins with suitable examples. Write general chemical tests to be employed to detect tannins. **05**
- B** Describe pharmacognosy of drug used as Antimalarial. **05**
- C** Write a note on cultivation and collection of Opium **05**
- D** Describe the alkaloidal drug used as antihypertensive. **05**
- E** Write a note on pharmacognosy of Vasaka leaf. **05**
- F** Write a note on indole alkaloid containing drug used as anticancer. **05**
- Q 5** Attempt any **FOUR** of the following
- A** Write a note on pharmacognosy of Liquorice. **05**
- B** Prepare a note on plant drug, being used as source to get photosensitive agents **05**
- C** Write pharmacognostic note on chirata, with special reference to Botanical Source, Chemical Constituents, Uses and substitutes/adulterants. **05**
- D** Write a note on plant drug containing Isothiocyanate glycosides **05**
- E** What does it mean by Immunomodulators. Write a note on glycoside containing plant drug, which is extensively used as immunomodulator. **05**
- F** Prepare a note on Strophanthus. **05**
