

CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY

3rd Semester of B. Pharm. Examination

University Theory Examination Nov 2015

PH216 Pharmacognosy-II

Date: 24.11.2015, Tuesday

Time: 10.00 a.m. to 01.00 p.m.

Maximum Marks: 80

Instructions:

1. There are three sections in this question paper.
2. SECTION – I comprises of Question 1. Total marks for Section 1 are 20. There are 20 sub-questions (MCQ type). Answers to SECTION – I are to be given in Answer Sheet for MCQ type questions provided to you. Maximum time allotted for SECTION – I is 30 minutes. Answers to SECTION – I must be written during the first 30 minutes of the examination.
3. Answers to SECTION – II and SECTION – III are to be provided in separate Main Answer Books provided to you.
4. Figures to right indicate marks.
5. Draw neat sketches wherever necessary.

SECTION - I

Q 1 Attempt all questions. Each question is of one mark.

20

1. Which one of the following is not anthracene glycoside containing drug?
A. *Rheum palmatum*
B. *Styrax benzoin*
C. *Cassia angustifolia*
D. *Rhamnus purshiana*
2. Glucosinolate compounds are also known as
A. Anthracene
B. Flavonoids
C. Saponins
D. Isothiocyanate
3. Which one of the following contain sulphur in their chemical structure
A. Cascaroside
B. Sennoside
C. Sinigrin
D. Aloin
4. Glycosides are made up of sugar and non-sugar portions combined through glycosidic linkage. They will get hydrolyzed by which of the following way?
A. On treatment with Enzyme
B. On treatment with hydrochloric acid/sulphuric acid
C. Boiling with water
D. All of above
5. Which of the following statement(s) is/are not related to glycosides?
I) They are derived from plants only II) They are soluble in polar solvents
III) They get hydrolyzed by acids IV) They are available in liquid forms only
A. I and IV
B. III and IV
C. II and III
D. I and II
6. Borntrager test is mainly used for which type of glycoside?
A. N-glycoside
B. C-glycoside
C. S-glycoside
D. O-glycoside
7. *Khella* is common name of

- A. Senna
 - B. Ammi visnaga
 - C. Aloe
 - D. Psoralea
8. Which of the following is cardioactive compound?
- A. Cascaroside
 - B. Sennoside
 - C. Digitoxin
 - D. Atropine
9. Chiketsosaponin is present in
- A. Dioscorea
 - B. Aloe
 - C. Gentian
 - D. Ginseng
10. Find the odd one from following
- A. Ergot
 - B. Squill
 - C. Strophanthus
 - D. Chirata
11. Which type of constituents are present in Datura?
- A. Pyridine alkaloids
 - B. Tropane alkaloids
 - C. Indole alkaloids
 - D. Purine alkaloids
12. The principal alkaloid of Belladonna is
- A. Atropine
 - B. Hyoscine
 - C. Hyoscyamus
 - D. Hyosciamine
13. Ipecacuanha belongs to family of
- A. Rubiaceae
 - B. Rutaceae
 - C. Rosaceae
 - D. Rhamnaceae
14. Thalleoquine test is used for the identification of
- A. Datura Leaves
 - B. Vasaka Leaves
 - C. Peruvian Bark
 - D. Thea
15. The role of alkaloid in the plant is
- A. To supply Nitrogen
 - B. As defensive mechanism for plants
 - C. For detoxification
 - D. All of above
16. One of following is alkaloidal amine
- A. Quinine
 - B. Ephedrine
 - C. Diosgenin
 - D. None of above
17. Which one of the following is imidazole alkaloid containing drug?
- A. Pilocarpus
 - B. Peruvian
 - C. Psoralea
 - D. Poppy
18. St. Antony's fire is
- A. Ergot poisoning
 - B. Nux-vomica poisoning

- C. Physostigma poisoning
- D. Vinca poisoning
- 19. *Prunus cerasifera* is botanical source of
 - A. Black Catechu
 - B. Pale Catechu
 - C. Myrobalan
 - D. None of above
- 20. Pale catechu gives green fluorescence on extraction with
 - A. Petroeum ether
 - B. Ethyl alcohol
 - C. Chloroform
 - D. Acetic acid

SECTION – II

- Q 2** Attempt any FOUR of the following
- A What does it mean by term Glycoside. Classify Glycosides according to Aglycone Moeity present 05
 - B Prepare introductory note on Alkaloids with chemical classification 05
 - C Differentiate: 05
 - 1. Alexendrian Senna and Indian Senna
 - 2. Black Catechu and Pale Catechu
 - D Prepare a detailed note on Rauwolfia 05
 - E Prepear a note on chemical detection of Anthraquinone glycosides and Cardiac glycosides 05
 - F Do as Directed 05
 - 1. Give botanical sources of alkaloida containing plant having anti cancer chemicals
 - 2. Jutify: Basification of plant powder may improve yield of alkaloids
 - 3. Write chemical tests proposed for detection of Atropine
 - 4. Write botanical source of Ergot
 - 5. What is the use of Vasaca leaf. Give name of chemical responsible for action.

SECTION – III

- Q 3** Attempt any FOUR of the following
- A Prepare a detailed note on Serpgandha 05
 - B Write botanical source , chemical constitutents, chemical tests and uses of Opium alkaloids 05
 - C Write botanical sources, chemical constituents and chemical tests for identification of plant drug used to isolate antimalerial alkaloid 05

- D Prepare a note on Purine alkaloids containing drugs 05
- E Write botanical source, cultivation-collection, chemical constituents and substitutes of Tobacco. 05
- F Prepare detailed note on Datura 05
- Q 4 Attempt any FOUR of the following
- A Write botanical source, chemical constituent and uses of Ginseng 05
- B Write a detailed note on drug containing c-glycoside as well as o-glycosides 05
- C Prepare a detailed note on Steroidal Glycoside containing Drug 05
- D Write a note on Digitalis 05
- E Write biological source, chemical constituents and uses of Aloe 05
- F Define Tannins. Classify Tannins with examples. 05
