

CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY

4th Semester of B. Pharm. Examination

University Theory Examination April 2015

PH209 Pharmacognosy & Phytochemistry-II

Date: 22.04.2015, Wednesday Time:10:00a.m. to 01:00p.m. Maximum Marks: 80

Instructions:

1. Figures to right indicate marks.
2. Section wise separate answer book to be used.
3. Draw neat sketches wherever necessary.

SECTION- I

Q 1 Attempt any TWO of the following

- | | | | |
|---|-----|---|----|
| A | i) | Enlist examples of anthraquinone glycoside. Write chemical test for anthraquinone glycoside. | 04 |
| | ii) | Write a note on source, chemical constituents, uses and preparation of different varieties of Aloe. | 06 |
| B | i) | Enlist saponin glycosides containing drugs. Write general chemical test for saponin glycoside. | 04 |
| | ii) | Write a note on Dioscorea. | 06 |
| C | i) | Write source, chemical constituents, uses of Quassia wood. | 05 |
| | ii) | Draw the detail diagram of T.S. of Senna leaf | 05 |

Q 2 Attempt any TWO of the following

- | | | | |
|---|---------------------------------|--|-----|
| A | i) | Write a note on "Man root" | 05 |
| | ii) | Write in detail about drug used in treatment of Psoriasis. | 05 |
| B | i) | Enlist examples of cardiac glycoside. Write chemical test for cardiac glycode. | 04 |
| | ii) | Write source, chemical constituents and uses of any two cardiac glycoside containing drug. | 06 |
| C | Differentiate following: | | |
| | i) | Indian Senna & Alexandrian Senna | 2.5 |
| | ii) | <i>Ammi majus</i> & <i>Ammi Visanaga</i> | 2.5 |
| | iii) | White Mustard & Black Mustard | 2.5 |
| | iv) | Cardenolide & Bufadenolode | 2.5 |

SECTION- II

Q 3 Attempt any TWO of the following

- | | | |
|---|--|----|
| A | Enlist techniques used to study biosynthetic pathway of phytochemicals and describe those in detail. | 10 |
| B | What is allergens? Write a note on various types of allergens with examples. | 10 |
| C | Write a note on biosynthetic pathway for synthesis of terpenoids in plants. | 10 |

Q 4 Attempt any TWO of the following

- | | | |
|---|--|----|
| A | Explain biosynthetic pathway: i) for synthesis of amino acid ii) for synthesis of fatty acids. | 10 |
| B | Describe sources and method of preparation and uses of Papain | 10 |
| C | Discuss application of Pepsin and Pancreatin. | 10 |
