

CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY

4th Semester of B. Pharm Examination

University Theory Examination October 2017

PH209 Pharmacognosy & Phytochemistry-II

Date: 02/10/2017, Monday

Time: 1:30 pm to 4:30 pm

Maximum Marks: 80

Instructions:

1. Figures to right indicate marks.
2. Section wise separate answer book to be used.
3. Draw neat sketches wherever necessary.

SECTION- I

Q-1 Attempt any TWO of the following:

- A Write a note on sources, method of preparation, and uses of any two enzymes 10
from following:
- 1) Papain
 - 2) Diastase
 - 3) Trypsin
- B Discuss Common Names, Biological Sources, Family, Chemical constituents 10
and uses of any two bitter glycosides containing drugs.
- C Discuss Common Names, Biological Sources, Family, Chemical constituents 10
and uses of any two saponin glycosides containing drugs.

Q-2 Attempt any TWO of the following:

- A Discuss Common Names, Biological Sources, Family, Chemical constituents 10
with chemical structures, Uses & Adulterants of *Digitalis purpurea* &
Digitalis lanata.
- B Describe biological sources, methods of preparation, active constituents, uses 10
and chemical tests for Aloe.
- C Describe biological sources, active constituents and uses of following (Any 10
two)
1. Ammi
 2. Cascara
 3. Psoralea

SECTION- II

Q-3 Attempt any TWO of the following:

- A Write botanical sources, family, chemical constituents, chemical tests and uses of Dioscorea. 10
- B What are natural allergens? Describe different types of natural allergens giving suitable examples. 10
- C (1) Differentiate the following: 6
- (a) Indian Senna and Alexandrian Senna
 - (b) Indian Squill and European Squill
- (2) Write chemical tests for following class of glycosides (any two) 4
- (a) Anthraquinone glycosides
 - (b) Cardiac glycosides
 - (c) Saponin glycosides

Q-4 Attempt any TWO of the following:

- A What are plant primary and secondary metabolites? Give suitable examples. 10
- Explain inter-relationship between Primary and secondary metabolites.
- B Write a note on Acetate-Mevalonate pathway for generation of isoprenoids and Terpenoids like compounds. 10
- C Write a note on isotopic tracer technique for investigation of biogenesis of Plant Secondary Metabolites giving suitable examples. 10
