

CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY
5th Semester of B. Pharm. Examination
University Theory Examination Nov. 2017
PH302 PHARMACOGNOSY AND PHYTOCHEMISTRY-III

Date: 23.11.2017 , Thursday Time: 10.00 a.m to 01.00 p.m Maximum Marks: 80

Instructions:

1. Figures to right indicate marks.
2. Section wise separate answer book to be used.
3. Draw neat sketches wherever necessary.

SECTION- I

- Q 1** Attempt any **TWO** of the following
- | | | |
|---|--|----|
| A | Define Terpenoids. Classify them with examples. | 10 |
| B | Write a note on structure elucidation of Geraniol | 10 |
| C | Write a note on formation of terpenoidal compounds and Head to tail condensation in terpenoids | 10 |
- Q 2** Attempt any **TWO** of the following
- | | | |
|---|---|----|
| A | Draw structure of beta carotene and write important chemical features of it | 10 |
| B | Write a note on biosynthesis, uses and isolation of beta carotene | 10 |
| C | 1. What are functions of retinol in human body?
2. Write in brief general chemistry and method of isolation of lycopene. | 10 |

SECTION- II

- Q 3** Attempt any **TWO** of the following
- | | | |
|---|--|----|
| A | Describe important steps in isolation of Sennoside | 10 |
| B | Write chemical tests for detection of Cardiac Glycosides | 10 |
| C | Make a note with special reference to general chemistry of Cardiac Glycoside | 10 |
- Q 4** Attempt any **TWO** of the following
- | | | |
|---|--|----|
| A | Write uses and method of isolation of Rutin | 10 |
| B | Write in Details: Botanical sources, uses and methods of isolation of Diosgenin | 10 |
| C | 1. Write important steps involved in biosynthesis of Rutin.
2. Describe method of isolation of Glycerrhezinic acid from botanical source. | 10 |
