

CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY

5th Semester of B. Pharm. Examination

University Theory Examination Nov/Dec- 2015

PH305 Pharmaceutical Microbiology

Date: 02/12/15, Wednesday

Time: 10:00 a.m to 1:00 p.m

Maximum Marks: 80

Instructions:

- 1. Figures to right indicate marks.**
- 2. Section wise separate answer book to be used.**
- 3. Draw neat sketches wherever necessary.**

SECTION- I

Q 1 Attempt any TWO of the following

A Differentiate Disinfection & Sterilization. What are the ideal characters of the disinfectants and write mode of action of phenol. 10

B Why test for sterility is carried out? What is the importance of Control test in the test for sterility? How to sterilize Oily injections, Transfusion sets, Surgical Powders, Blood products, Insulin preparation? 10

C Discuss the Scope of Microbiology and Give a brief account on cultivation methods of Anaerobic organisms. 10

Q 2 Attempt any TWO of the following

A Describe the construction and working of Horizontal Autoclave with a neat labeled diagram. 10

B Define: Pasteurization, Tyndallization, Z -value, D-value, Bio burden and discuss gram staining and spore staining methods in brief. 10

C Differentiate Depth filters and Screen filters. Write short notes on Cold sterilization and Radiation sterilization. 10

SECTION- II

Q 3 Attempt any TWO of the following

- A
1. Write a note on electron microscope. 7
 2. Classify the microbial assay. 3

	1. Given the difference.	
	a. Light field microscope Vs TEM	3
B	b. Spirochets Vs bacteria	3
	c. Eucariotic cell Vs procariotic cell	3
	2. Define bacteriophage.	1
C	Write a note on bacterial cell wall.	10
Q 4	Attempt any <u>TWO</u> of the following	
A	Explain the microbial assay of tetracycline drug	10
	1. What is the application of microbial limit test.	5
B	2. Enlist the methods for microbial limit test and explain any one.	5
	Justify the comments-	
	1. Polio vaccine contain the dead virus of polio.	2.5
	2. Antigen antibody reaction can be observe in dark field microscope.	2.5
C	3. Nucleus of bacteria is well developed than rat nucleus.	2.5
	4. Cell of gram positive bacterial contain large amount of lipid.	2.5
