

CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY
6th Semester of B. Pharm. Examination
University Theory Examination April/May 2016
PH310 Medicinal Chemistry-II

Date: 30.04.2016, Saturday Time: 10:00 a.m. to 01:00 p.m. Maximum Marks: 80

Instructions:

1. Figures to right indicate marks.
2. Section wise separate answer book to be used.
3. Draw neat sketches wherever necessary.

SECTION- I

Q 1 Attempt any TWO of the following

- A Give the chemical classification of Non Steroidal Anti- Inflammatory Agents (NSAID'S) with atleast one Structure of each class. Explain common SAR of NSAID'S. **10**
- B I. Classify anti-histaminic agents with suitable structural examples. **05**
II. Synthesis of Chlorpheniramine and diethylstilbestrol. **05**
- C Write down the various steroids secreting from adrenal cortex. Explain SAR and Physiological Role of Glucocorticoids. **10**

Q 2 Attempt any TWO of the following

- A I. Describe the biosynthesis of prostaglandins and its physiological significance. **05**
II. Explain nomenclature of prostaglandins. **05**
- B I. What are pharmaceutical aids? Enlist various pharmaceutical aids. Explain any one anti oxidant in details. **05**
II. Enlist various diagnostic agents and give the applications of various diagnostic agents. **05**
- C I. Give the classification of antidepressant with their structure. Write a synthesis of Amitriptyline **05**
II. Classify the Anxiolytic agents explain Non- Benzodiazepines anxiolytics in details. **05**

SECTION- II

Q 3 Attempt any TWO of the following

- A What are neuroleptic agents? Classify them with their structure and explain SAR of phenothiazines. **10**
- B I. Write a detailed note on CNS stimulants. **05**
II. Give the classification of antiparkinsonism agents with atleast one structure from each category. Justify the use of combination of L-Dopa and Carbidopa. **05**
- C Classify Opioid analgesics. Explain chemistry and SAR of morphine derivatives in detail. **10**

Q 4 Attempt any TWO of the following

- A I. Write a short note on oral hypoglycemic agents. **05**
II. Write a classification of drug action on thyroid gland functions with suitable structural examples **05**
- B I. Explain Mechanism of Action and SAR of hydantoin derivatives in details. **05**
II. Explain SAR of benzodiazepines. **05**
- C Give the SAR and Mechanism of barbiturates as hypnotics and sedatives agents. Write a synthesis of Methohexital **10**
