

CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY

Sixth Semester of B. Pharm. Examination

University Theory Examination October 2017

PH313 BIOPHARMACEUTICS AND PHARMACOKINETICS

Date: 07.10.17 , Saturday

Time: 10:00 a.m to 1:00 p.m

Maximum Marks: 80

Instructions:

1. Figures to right indicate marks.
2. Section wise separate answer book to be used.
3. Draw neat sketches wherever necessary.

SECTION- I

- Q 1 Attempt any TWO of the following**
- A Write a shortnote on : the role of biopharmaceutics and pharmacokinetics. 10
- B Explain in detail about active and passive transport of drug during absorption. 10
- C Write in detail about pharmaceutical and physiological factors affecting drug absorption. 10
- Q 2 Attempt any TWO of the following**
- A Answer the following:
- 1) Write about the mechanism of drug excretion. 05
- 2) Write in brief about 'BCS Classification System' . 05
- B Explain in detail about phase-I and phase-II reactions included in drug metabolism. 10
- C Write a shortnote on the role of Plasma protein in drug distribution. 10

SECTION- II

- Q 3 Attempt any TWO of the following**
- A Explain compartmental models' importance in brief and their applications. 10
- B Answer the following:
- 1) Discuss the difference between zero order and first order pharmacokinetics in drug absorption. 05
- 2) Explain method of residuals in brief. 05
- C Write a shortnote on Wagner –Nelson and LOO Riegelman method. 10
- Q 4 Attempt any TWO of the following**
- A Answer the following:
- 1) Discuss the difference between zero order and first order pharmacokinetics in drug absorption. 05
- 2) Explain method of residuals in brief. 05
- B Write a shortnote on Methods for bioavailability enhancement. 10
