

CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY

7th Semester of B. Pharm. Examination

University Theory Examination November 2016

PH401 Clinical Pharmacy & Pharmacotherapeutics-I

Date: 22.11.2016, Tuesday

Time: 10 a.m to 1 p.m

Maximum Marks: 80

Instructions:

1. Figures to right indicate marks.
2. Section wise separate answer book to be used.
3. Draw neat sketches wherever necessary.

SECTION- I

Q 1 Attempt any TWO of the following

- A 1. Enlist the common hematological tests. Write in brief about RBC indices (MCV, MCH, MCHC, PCV and RDW) and their clinical importance. 05

2. Define Pharmacovigilance. Define Adverse Drug Reaction (ADR) and Serious ADR (SADR). What are the objectives of Pharmacovigilance? Describe the role of pharmacist in ADR reporting. 05

- B 1. Write a note on liver function tests. 05
2. Write clinical presentation, investigations and management of Mammary carcinoma. 05

- C 1. Enlist the various etiologies in anemia. Write down the treatment approaches in management of iron deficiency anemia. 05
2. Differentiate between vitamin B12 deficiency and folic acid deficiency anemia 05

Q 2 Attempt any TWO of the following

- A 1. Write in brief about each biochemical test for renal function assessment (serum creatinine, BUN, serum urea) with their disadvantages. 05

2. Define pharmacoepidemiology. What is the importance of pharmacoepidemiological surveys? How are they useful to health industry ? 05

- B Differentiate between Acute and Chronic Renal Failure. Enlist the various causes of Renal Failure. Enlist the signs, symptoms and complications of CRF (hemodynamic, acid-base and electrolyte imbalance). Enlist the types of dialysis. Brief out their principles. 10

- C Write Define and goals of Therapeutic Drug Monitoring (TDM). Why certain drugs require TDM ? Enlist the drugs that required TDM. Enlist the common bioanalytical techniques used for TDM. What is trough sample ? what is the most commonly used sample for analysis ? 10

PTO

SECTION- II

Q 3 Attempt any **TWO** of the following

- A**
1. Explain general principle of Clinical toxicology management **05**
 2. Explain basic concept of Pharmacotherapy **05**
- B**
1. Write types of Angina with treatment and management **05**
 2. Explain types and clinical manifestation and diagnosis of Congestive heart failure. **05**
- C**
1. Describe types and mechanism of drug drug interaction and give parameters of prescription audit **05**
 2. Give treatment and management of Ventricular arrhythmia **05**

Q 4 Attempt any **TWO** of the following

- A**
1. Write development, scope and future of Clinical Pharmacy **05**
 2. Explain Clinical Pharmacists behavioral and interpersonal skill with patient and health care team members **05**
- B**
1. Define OTC and give merits and demerits of self medication **05**
 2. Explain risk factors, diagnosis and classification of Hypertension **05**
- C**
1. Write clinical manifestation, diagnosis and treatment of Myocardial Infarction **05**
 2. Write types and pharmacotherapy of Stroke **05**
-
