

CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY

VII Semester of B. Pharm. Examination

University Theory Examination, November 2015

PH406 PHARMACEUTICAL TECHNOLOGY -I

Date: 28.11.2015, Saturday Time: 10:00a.m. to 1:00p.m

Maximum Marks: 80

Instructions:

1. Figures to right indicate marks.
2. Section wise separate answer book to be used.
3. Draw neat sketches wherever necessary.

SECTION- I

Q 1 Attempt any TWO of the following

- | | | |
|---|--|----|
| A | a. Describe role of diluents in tablet manufacturing. Discuss directly compressible diluents with suitable examples. | 05 |
| | b. Explain in process quality control parameters of tablets. | 05 |
| B | a. Enumerate defects observed in tablet compression process. Explain causes and remedies for coated tablet | 05 |
| | b. Enlist various methods of microencapsulation and explain spray congealing method. | 05 |
| C | a. Describe soft gelatin capsule manufacturing process. | 05 |
| | b. Discuss quality control parameters of soft gelatin capsule. | 05 |

Q 2 Attempt any TWO of the following

- | | | |
|---|--|----|
| A | Discuss the evaluation parameters for semisolid formulations. | 10 |
| B | Answer the following questions (Any five) | |
| | i) Why plastic containers are more preferable than Glass containers in Large Volume Parenterals? | |
| | ii) Why Mannitol is used extensively as diluent in chewable tablets? | |
| | iii) Seal coating is essential for sugar coating process - justify. | 10 |
| | iv) Explain "Orange peel effects" on coating. | |
| | v) Explain the disintegration test for enteric coated tablets as per USP. | |
| | vi) What are "Anti frictional agents" used in tablet? give its importance with example. | |
| C | a. Explain the classification of solid dosage forms with examples. | 05 |
| | b. Explain the production of semisolid dosage form by Silverson - Mixer. | 05 |

SECTION- II

Q 3 Attempt any TWO of the following

- | | | |
|---|---|----|
| A | Describe significance of GMP in pharmaceutical industry. Discuss Schedule M requirement for Tablets and Capsules. | 10 |
| B | a. Discuss pelletization technology in detail. | 05 |
| | b. Explain the tests for Plastic containers. | 05 |
| C | a. Explain in brief about the excipients used in Semisolid dosage forms. | 05 |
| | b. Answer the following questions. (Each carries 1 mark) | |
| | 1. Define Tablet. | 05 |
| | 2. Write the advantages of effervescent tablet. | |

3. Give the use of Rotary Pulsation Apparatus in manufacturing of Pharmaceutical products.

4. Define Mottling.

5. Classify Rubber used as packaging material in pharmaceutical industry.

Q 4 Attempt any TWO of the following

- | | | |
|---|--|----|
| A | Explain packaging of solid dosage form in blister packs. | 10 |
| B | Explain the benefits of Microencapsulation process and explain in detail about Coacervation technique for the preparation of it. | 10 |
| C | Describe the preparation and filling of hard gelatin capsules. | 10 |
-
