

CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY

7th Semester of B. Pharm Examination

University Theory Examination November 2017

PH416 Traditional Medicine and Herbal Drugs Technology

Date: 29/11/2017, Wednesday

Time: 10:00 am to 1:00 pm

Maximum Marks: 80

Instructions:

1. There are three sections in this question paper.
2. SECTION – I comprises of Question 1. Total marks for Section I are 20. There are 20 sub-questions (MCQ type). Answers to SECTION – I are to be given in Answer Sheet for MCQ type questions provided to you. Maximum time allotted for SECTION – I is 30 minutes. Answers to SECTION – I must be written during the first 30 minutes of the examination.
3. Answers to SECTION – II and SECTION – III are to be provided in separate Main Answer Books provided to you.
4. Figures to right indicate marks.
5. Draw neat labeled sketches wherever necessary.

SECTION-I

- Q 1 Attempt all questions. Each question is of one mark. 20
1. Following are the "Panchmahabhuta" of universe except
[A] Vayu
[B] Agni
[C] Akash
[D] Patal
 2. Following are the "Saptadhatu" of human body as per *Ayurveda* except.
[A] Ras
[B] Rakt
[C] Mala
[D] Majja
 3. Find the correct general ratio of Kalka, sneha and drava dravya in taila preparation.
[A] 16:4:2
[B] 16:4:1
[C] 8:4:2
[D] 8:4:1
 4. Following are synonyms of Galo. Which synonym represents its structure as Wheel.
[A] Amrita
[B] Chakrika
[C] Giloy
[D] Tantrika
 5. Find unorganized drugs obtained from rock.
[A] Guggulu
[B] Shatavari
[C] Nagod
[D] Shilajit

6. _____ is an example of micronutrients for plant.
 [A] Mo
 [B] P
 [C] S
 [D] Ca
7. Which parameter is determined to check quality of saponin drugs?
 [A] Extractive value
 [B] Swelling factor
 [C] Ash value
 [D] Foaming index
8. Find odd thing
 [A] Lycopodium spores
 [B] Type of trichome
 [C] Vein islet number
 [D] Starch particle size
9. Following heavy metal content is determined in herbal drug standardization.
 [A] Arsenic
 [B] Copper
 [C] Iron
 [D] Aluminum
10. _____ is an example of infectant allergen.
 [A] Milk
 [B] Pollen
 [C] Penicillin
 [D] Amoeba
11. _____ is an example of injectant allergen.
 [A] Egg
 [B] Milk
 [C] Protozoa
 [D] Penicillin
12. Find lactogenic drug.
 [A] Chakrika
 [B] Vitex
 [C] Hundred roots
 [D] Tylophora
13. Safed Musali belongs to _____ family
 [A] Aurundinaceae
 [B] Liliaceae
 [C] Nyctaginaceae
 [D] Apocynaceae
14. Conversion of low value substrate into high value product is better known as
 [A] Enzyme immobilization
 [B] Protoplast fusion
 [C] Hairy root culture
 [D] Biotransformation
15. Arjuna is used as
 [A] Anti diabetic
 [B] Anti pyretic
 [C] Anti hyperlipidemic
 [D] Anti ulcer

16. Following drug contains L-DOPA as chief constituent.
 [A] Kapikachhu
 [B] Dioscorea
 [C] Plumbago
 [D] Bhilama
17. Hybrid plant Pomato was first developed by _____.
 [A] Melcher
 [B] Moorashig
 [C] Haberlandt
 [D] Skoog
18. In plant cell immobilization, _____ method involves formation of semipermeable film
 [A] Cell to cell cross linking
 [B] Adsorption
 [C] Covalent bonding
 [D] Microencapsulation
19. Extractive value indicates
 [A] Mineral salts content
 [B] Earthy content
 [C] Certain soluble components of drug
 [D] All soluble components of drug
20. Main therapeutic category of Gokhru is
 [A] Diuretic
 [B] Nootropic
 [C] Anti-aging
 [D] Anti-diabetic

SECTION-II

Q.2 Attempt any TWO of the following:

- A What is the significance and importance of standardization of Herbal Drugs? 05
 Make a scheme proposed by WHO for quality control of herbal raw materials. Explain macroscopic and microscopic evaluation in detail.
- B Enlist anti-hyperlipidemic drugs of your syllabus. Describe the biological source, chemical constituents, pharmacological properties and uses of any one of them. 05
- C Define *Ayurveda*. Explain holistic concept of *Tridosha* theory as per *Ayurveda*. 05

Q.3 Attempt any TWO of the following:

- A Describe the source, chemical constituents and uses of drug having bioavailability enhancing action. 05
- B Define *Avaleha*. Write short note on preparation of *Avaleha* giving suitable example. 05

16. Following drug contains L-DOPA as chief constituent.

[A] Kapikachhu

[B] Dioscorea

[C] Plumbago

[D] Bhilama

17. Hybrid plant Pomato was first developed by _____.

[A] Melcher

[B] Moorasig

[C] Haberlandt

[D] Skoog

18. In plant cell immobilization, _____ method involves formation of semipermeable film

[A] Cell to cell cross linking

[B] Adsorption

[C] Covalent bonding

[D] Microencapsulation

19. Extractive value indicates

[A] Mineral salts content

[B] Earthy content

[C] Certain soluble components of drug

[D] All soluble components of drug

20. Main therapeutic category of Gokhru is

[A] Diuretic

[B] Nootropic

[C] Anti-aging

[D] Anti-diabetic

SECTION-II

Q.2 Attempt any TWO of the following:

A What is the significance and importance of standardization of Herbal Drugs?

05

Make a scheme proposed by WHO for quality control of herbal raw

materials. Explain macroscopic and microscopic evaluation in detail.

05

B Enlist anti-hyperlipidemic drugs of your syllabus. Describe the biological

05

source, chemical constituents, pharmacological properties and uses of any

one of them.

C Define *Ayurveda*. Explain holistic concept of *Tridosha* theory as per

05

Ayurveda.

Q.3 Attempt any TWO of the following:

A Describe the source, chemical constituents and uses of drug having

05

bioavailability enhancing action.

B Define *Avaleha*. Write short note on preparation of *Avaleha* giving

05

suitable example.
