

CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY

8th Semester of B. Pharm. Examination

University Theory Examination November 2016

PH412 Pharmaceutical Technology-II

Date: 10.11.2016, Thursday

Time: 1:30 p.m to 4:30 p.m

Maximum Marks: 80

Instructions:

1. Figures to right indicate marks.
2. Section wise separate answer book to be used.
3. Draw neat sketches wherever necessary.

SECTION- I

Q 1 Attempt any TWO of the following

- | | | |
|---|---|----|
| A | Define Aerosols. Give a brief account of propellants. Write pharmaceutical applications of aerosols. | 10 |
| B | Define emulsions. Classify emulsifying agents. Differentiate emulsions, multiple emulsions and micro emulsions with their limitations. What is significance of HLB value? | 10 |
| C | Enlist the ideal characteristics of suspension. Explain in detail the various evaluation parameters of suspension dosage form. | 10 |

Q 2 Attempt any TWO of the following

- | | | |
|---|--|----|
| A | Draw well labeled diagram for aerosols packs. Discuss evaluation tests for pharmaceutical aerosol products. | 10 |
| B | Classify liquid dosage forms. Enlist the different additives used in liquid dosage forms. Discuss various methods for solubility enhancement in liquid dosage forms. | 10 |
| C | Enumerate and describe in detail the evaluation tests for Pharmaceutical emulsion dosage form. | 10 |

SECTION- II

Q 3 Attempt any TWO of the following

- | | | |
|---|---|----|
| A | Enlist the evaluation parameters of 'Parenteral dosage forms'. Explain any two methods in detail. | 10 |
|---|---|----|

10	B	Describe 'Dental products' as cosmetic formulation.
05	C	(i) Draw the layout of Parenteral manufacturing area with proper explanation of each process to be carried out in it.
05		(ii) Describe the formulation composition and packaging of 'Lipstick' as a cosmetic product.
Q 4		Attempt any <u>TWO</u> of the following
05	A	(i) Define 'Ophthalmic products'. Explain formulation composition and preparation method of any one ophthalmic formulation.
05		(ii) Explain in detail the formulation, preparation and packaging of Shaving cream.
10	B	Define: Pilot Plant. Which are the objectives of it? Write about the importance and the 'General requirements' of pilot plant.
10	C	Describe different tests on Glass containers for formulation of parenteral dosage forms.
