

CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY
Eighth Semester of B. Pharm. Examination
University Theory Examination October 2017
PH413 Novel Drug Delivery System

Date: 06/10/2017, Friday Time: 10:00 a.m. to 01:00 p.m. Maximum Marks: 80

Instructions:

1. Figures to right indicate marks.
2. Section wise separate answer book to be used.
3. Draw neat sketches wherever necessary.

SECTION- I

Q 1 Attempt any TWO of the following

- | | | |
|----------|---|-----------|
| A | 1. Enlist the carriers used in drug targeting. Explain any one in detail. | 05 |
| | 2. Write note on factors affecting transdermal drug delivery. | 05 |
| B | 1. Explain pharmacokinetic properties of drug affecting the formulation of oral controlled drug delivery systems. | 05 |
| | 2. Define drug targeting. Write a note on need for drug targeting. | 05 |
| C | 1. Write note on osmotic pressure controlled drug delivery system. | 05 |
| | 2. Enlist the technologies used for developing transdermal drug delivery systems. Explain any one in detail. | 05 |

Q 2 Attempt any TWO of the following

- | | | |
|----------|---|-----------|
| A | 1. Explain advantages and disadvantages of transdermal drug delivery systems. | 05 |
| | 2. Differentiate between active and passive drug targeting. | 05 |
| B | 1. Enlist the gastro retentive drug delivery systems. Explain any one in detail with diagram. | 05 |
| | 2. Explain micro needle array for transdermal drug delivery. | 05 |
| C | 1. Explain the rationale for gastro retentive drug delivery system. | 05 |
| | 2. Explain the components of transdermal drug delivery system. | 05 |
