

CHAROTAR UNIVERSITY OF SCIENCE & TECHNOLOGY

2nd Semester of M. Pharm (Pharmaceutical Technology)

University Theory Examination May 2016

PH819.08 Novel Drug Delivery Systems-II

Date: 02.05.2016, Monday

Time: 01:30 p.m to 4:30 p.m

Maximum Marks: 70

Instructions:

1. Q.1 and Q.4 are compulsory.
2. Figures to right indicate marks.
3. Section wise separate answer book to be used.
4. Draw neat sketches wherever necessary.

SECTION-I

- Q.1** Explain the different mechanism by which drug deposition occurs in pulmonary sites. **10**
- Q.2** Explain various approaches for drug targeting in detail. **10**
- OR
- Q.2** Discuss about the merits, demerits and challenges of 'Colon-specific Drug Delivery System'. **10**
- Q.3** Answer the following (Any three) **15**
- (A) Write a note on: Evaluation parameters of colon targeted pellet formulation.
- (B) Write note on factors affecting nasal drug absorption.
- (C) Discuss about the different applications of intranasal drug delivery for the CNS disorders.
- (D) Explain in brief the importance of drug targeting in therapeutics.

SECTION-II

- Q.4** Explain in brief the different strategies to deliver the drugs to target sites within the tumour. **10**
- Q.5** Explain various drug delivery strategies used for Brain-Specific Drug Targeting. **10**
- OR
- Q.5** Enumerate different formulation approaches of pulmonary drug delivery system. Explain any one in detail. **10**

Q.6 Answer the following (Any three)

15

- (A) Write a note on: The different barriers for intraocular drug transport.
- (B) Explain how 'In vitro particle size analysis' can be performed for pulmonary drug delivery system?
- (C) Discuss about the various barriers of tumour-directed targeting.
- (D) Enlist Novel Ophthalmic products and explain any one in detail.
